1 **NARRATIVE REPORT**

Introduction

Sefton is a Metropolitan Borough Council, providing the full range of local authority services to the residents of Sefton. These services include planning, licensing, street cleansing, highways maintenance, and refuse collection, as well as safeguarding vulnerable children and helping older people retain their independence.

Located on the west coast of England between Liverpool in the south and Lancashire in the north / northwest, the Council covers the area from Bootle in the South, through Seaforth, Waterloo, Crosby, Thornton, Altcar, Ince Blundell, Lunt, Freshfield and Formby, up to and including Birkdale, Ainsdale, Southport and Crossens in the North. It also includes the areas of Maghull, Lydiate and parts of Melling and Aintree. It is responsible for providing services to approximately 276,000 residents, local businesses and industry.

As a local authority, Sefton is accountable to Central Government and the electorate. It is responsible for continuously looking to improve its services to ensure that it meets the needs of the local community. Each service must ensure that the local taxpayers are receiving "value for money" by delivering high quality outcomes.

The Council has continued to face significant financial challenges in 2021/2022. As a result of the Government's previous austerity program, the Council's core grant funding was reduced every year over a ten-year period between 2010/2011 and 2019/20. By 2019/2020 core Government grant funding had reduced by more than 50%. As a result of the cuts in grant funding, local authorities are now more reliant on local sources of income such as Council Tax and Business Rates. During this period the Council has also seen a rise in demand for statutory services, most notably social care services provided to vulnerable adults and children.

For 2021/22, the Government announced a £3.5 million (3.4%) increase in the Sefton Council's core grant funding, which included a £2.5 million increase in Social Care Grant in recognition of the social care pressures faced by local authorities. This is the second year in which funding has increased since 2010/11, however, core grant funding remains lower than it was in 2015/16 in cash terms.

As a result of the previous funding cuts and the increase in demand for statutory services, the Council has needed to identify and agree savings of £233 million within its financial plans between 2010/11 and 2019/20. The impact of these savings required a radical change to the way that the Council operates and provides services. To facilitate this change, the Council undertook a major consultation exercise in 2016 to identify the areas that local residents thought the Council should prioritise for use of its resources (Sefton 2030 Vision and Council Core Purpose). The outcome of this consultation is summarised later in this document. The Council also invited the LGA to undertake a peer group review which was undertaken in September 2018, the recommendations of this review have been implemented over the following years. The LGA were due to follow up the initial review with a visit in 2020, however, this was postponed because of the coronavirus pandemic. The LGA have since revisited the Council in April 2022 to assess progress against their recommendations.

In order to facilitate the changes required to meet the Council's future priorities, we have developed a Framework for Change program. This program covers three main strands, Economic Growth and Strategic Investment, Council of 2023 and Demand Management. The Council has also developed a Climate Change Emergency Plan that represents its commitment to reducing carbon emissions.

The challenges faced by the Council have been compounded over the past two years as a result of the Coronavirus (COVID-19) pandemic, which has resulted in further increases in demand for services, loss of income from fees and charges and reductions in business rates and council tax receipts compared to pre-pandemic levels.

The recent sharp increases in energy costs and other inflationary pressures such as the fuel price increases have added further pressure on the Councils budget for 2022/23 and in the medium term, however, the Council continues to closely monitor its financial position and is taking steps to mitigate these pressures.

Coronavirus (COVID-19)

The coronavirus pandemic has affected all our lives over the past 2 years resulting in a most complex set of circumstances. Protecting the health of our staff, members of our community, and visitors to our area, whilst continuing to provide vital services to the most vulnerable has been our priority during this crisis. We have done this in partnership with the Government, other local councils, partner agencies and businesses.

Economic Impact

The economic impacts on Sefton were still being felt during 2021/22, with 8,200 jobs furloughed in the borough in May 2021, 7,200 individuals claiming through the self-employed income support scheme (SEISS) in July 2021, and 1,300 more working age households claiming council tax support in June 2021 compared to February 2020.

Support for Businesses and Residents

Sefton has continued to support its residents and businesses during 2021/22, making around 24,000 grant payments to businesses worth over £101 million since the start of the pandemic, awarding £16.063 million of Covid-19 related business rate reliefs (expanded retail discounts and nursery relief) in 2021/22 and using the Government's Covid Support Funding to provide food vouchers to children who qualified for free school meals over the Christmas, half term and summer holidays as well as emergency living assistance and other types of support as shown below:

Covid Support Funding 2021/22	Local Support Grant £ million	Household Support Fund £ million
Affordable Warmth Team	0.023	0.066
ASDA Vouchers	0.000	0.162
Emergency Living Assistance	0.128	0.619
Energy Project Plus – Meter top-up vouchers	0.000	0.011
Free School Meals (Food Vouchers)	0.945	1.301
Foodbank – Contribution to foodbanks	0.000	0.035
Winter safe packs – Distributed by the Fire Service	0.000	0.020
Winter Coat Project / Winter Pyjamas	0.000	0.054
Admin & Management	0.057	0.167
Total	1.153	2.435

Impact on Council Services

Covid-19 has had a significant impact on both demand for existing services as well as demand for new services. Adult social care has been disproportionately affected by COVID-19, particularly in relation to the impact on care homes. Children's Services has also experienced significant demand increases. This has led to a significant increase in the overall cost of service provision.

The pandemic has continued to have a significant impact on the Council's income streams in 2021/22:

- Fees and charges for car parking, leisure facilities, and adult social care have experienced reductions as a result of the continuation of Covid restrictions in 2021.
- Business rates income collection rates remain lower than pre-pandemic levels (97.3% in 2021/22 compared to 99.0% in 2018/19).
- Council tax income collection rates remain lower than pre-pandemic levels (94.8% in 2021/22 compared to 96.0% in 2018/19).

It is anticipated that it will now be more difficult to achieve the savings targets set out in the Council's 'Framework for Change' programme.

To assist Council's the Government continued to provide additional COVID support funding during 2021/22.

An overview of Sefton Council

Sefton Councillors in 2021/2022

The Council is composed of 66 councillors (three for each of the Borough's 22 wards), with one-third elected three years in every four. The political analysis of the councillors as at 31 March 2022 is identified below:

Labour	43
Liberal Democrat and Progressive Alliance Group	8
Conservative	8
Lydiate, Maghull, Aintree & Lunt Community Independents	5
Independents Group	2

Councillors are democratically accountable to residents of their ward. The overriding duty of councillors is to the whole community, but they have a special duty to their constituents, including those who did not vote for them.

Councillors have to agree to follow a Code of Conduct to ensure high standards in the way they undertake their duties. The Audit and Governance Committee trains and advises them on the Code of Conduct which is set out in Chapter 2 of the Council's Constitution.

Management Structure

Councillors

Along with many other authorities, a Leader and Cabinet management structure has been adopted. The Council appoints the Leader of the Council, approves those matters which are part of the Council's policy framework and provides an opportunity through questioning and debate for the Cabinet to be held to account.

The Cabinet has to make decisions which are in line with the Council's overall policies and budget. If it wishes to make a decision which is outside the budget or policy framework, this must be referred to the Council as a whole to decide.

Individual Members of the Cabinet make decisions on service issues within their area of responsibility (portfolio) under delegated powers set out in Chapter 5 of the Constitution.

There are four Overview and Scrutiny Committees which support the work of the Cabinet and the Council as a whole. They allow citizens to have a greater say in Council matters by holding public inquiries into matters of local concern:

- Overview and Scrutiny Committee (Adult Social Care and Health)
- Overview and Scrutiny Committee (Children's Services and Safeguarding)
- Overview and Scrutiny Committee (Regeneration and Skills)
- Overview and Scrutiny Committee (Regulatory, Compliance and Corporate Services)

These lead to reports and recommendations which advise the Cabinet and the Council as a whole on its policies, budget and service delivery. The Committees also monitor the decisions of the Cabinet.

There is also the opportunity for the public to ask questions or submit petitions directly to the Council.

The Leader of the Labour Group, Councillor Ian Maher, is the Leader of the Council.

Strategic Management

The senior management structure aims to reflect the need for departments to collaboratively work together as 'One Council' and thereby maximise capacity and avoid duplication. In support of the politicians, the senior management structure is identified below.

The posts shown below formed the Strategic Leadership Board in April 2022.

Executive Directors: (1) Adult Social Care and Health, (2) Children's Social Care and Education, (3) Corporate Resources and Customer Services, (4) People, (5) Place.

Heads of Service: (1) Adult Social Care, (2) Children's Social Care, (3) Communities, (4) Commercial Development, (5) Economic Growth and Housing, (6) Education (7) Highways and Public Protection, (8) Legal and Democratic Officer / Monitoring Officer, (9) Operational In-House Services, (10) Public Health & Wellbeing, and (11) Strategic Support.

The changes to the Strategic Leadership Board in recent years have reduced the number of heads of service reporting directly to the Chief Executive. The changes are intended to provide for clearer reporting lines (with appropriate span of control) and concentration on key strategic areas.

Other Employees

At the end of 2021/2022 the Council employed 2,752 people (full time equivalents, excluding school-based employees). As part of the process to reduce costs to ensure a balanced budget, roles and responsibilities have changed and the number of employees has reduced considerably over recent years. Since 2010, when the austerity measures were imposed, the Council has reduced the number of full-time equivalent staff by 24%.

Sefton 2030 Vision and Council Core Purpose

In November 2016, the Council approved the Sefton 2030 Vision and the Council Core purpose. This was developed following an extensive consultation with residents, businesses and many visitors to the borough. In their thousands, these groups told the Council they want to be involved in planning the future, what matters to them and how all stakeholders need to work together to make the vision happen. The Vision will enable the Council and partners to demonstrate the connected thinking and action. It will also enable the Council to bring about meaningful and measurable plans with targets, timescales and a performance management framework.

In supporting the delivery of the Vision, the Council approved the following refined Core Purpose to articulate its role in delivering the 2030 vision.

- **Protect the most vulnerable:** i.e. those people who have complex care needs with no capacity to care for themselves and no other networks to support them. For those who are the most vulnerable we will have a helping role to play, we will challenge others to ensure we all protect the most vulnerable and where we need to, we will intervene to help improve lives.
- **Facilitate confident and resilient communities:** The Council will be less about doing things to and for residents and communities and more about creating the capacity and motivation for people to get involved, do it for themselves and help one another. We will create an environment in which residents are less reliant on public sector support and which have well developed and effective social support.
- **Commission, broker and provide core services:** The Council will directly deliver fewer services but will act as a broker and commissioner of services which meet the defined needs of communities, are person-centred and localised where possible. We will deliver services which can't be duplicated elsewhere or where we add value.
- **Place-leadership and influencer:** Making sure what we and what others do are in the best interests of Sefton and its residents and has a contributing role to the 2030 vision of the borough. This includes strong leadership and influencing partner organisations to work towards common goals and building pride in the borough.

- **Drivers of change and reform:** The Council will play a key role in leading change and reform to improve outcomes for Sefton residents and continuously improve the borough.
- **Facilitate sustainable economic prosperity:** That is, people having the level of money they need to take care of themselves and their family; creating the conditions where relatively low unemployment and high income prevail, leading to high purchasing power; and having enough money to invest in infrastructure.
- **Generate income for social reinvestment:** The Council will develop a commercial nature and look to what it can do either by itself or with others to generate income and profit that can be reinvested into delivering social purpose.
- **Cleaner and Greener:** The Council will work with others to maintain Sefton's natural beauty and ensure that its many assets provide a contribution to Sefton's economy, peoples wellbeing and the achievement of the 2030 Vision.

The Council is due to start to review its Vision and the Council Core purpose again in 2023, building upon the work previously undertaken, assessing the impact of Vision 2030 and developing Vision 2035.

Governance / VFM / Risk

The Council is required to review its governance arrangements on an annual basis, along with its arrangements for achieving economy, efficiency and effectiveness, and ensuring it is identifying and managing risk effectively.

The annual review has been undertaken and the outcome of that review is reported in the annual governance statement (AGS) which is published as part of the statement of accounts. A copy of the AGS can be found in section 11 of this document.

LGA Peer Group Review

In September 2018, a six-strong team of expert local government officers and councillors were invited in by the council and spent four days talking to over 140 staff, councillors of all parties, and public and private partners.

The peer review team considered five core themes; understanding local context and priority setting, leadership of place, financial planning and viability, organisational leadership and governance and capacity to deliver.

Throughout the review, they commented on how impressed they were by the energy, commitment and appetite for change held by the workforce which they felt put the council in a strong position to continue its transformation journey and effectively play its role in achieving the Sefton 2030 vision.

Their independent findings also praised the council for listening to and serving its communities well through a challenging period of austerity and highlighted the council's knowledge of Sefton.

They recognised Sefton's combined strong political and managerial leadership as a key driver of success in managing a 51% reduction in grant funding through effective budget planning.

In a full feedback report, the peer review team suggested some areas of improvement for the council to consider going forward, including prioritising the refresh of the core purpose, accelerating work on a local economic growth strategy and clearer parameters around commercialisation.

The Council's Cabinet agreed that their recommendations be accepted, and authorised officers to develop an associated action plan; this plan was agreed by Cabinet in January 2019. Since then a progress report and updated action plan has been considered and approved by Cabinet in March 2020.

The LGA were due to follow up the initial review with a visit in 2020, however, this was postponed because of the coronavirus pandemic. The LGA have since revisited the Council in April 2022 to assess progress against their recommendations. A report was presented to Cabinet on 28 June 2022, which concluded that the Council had worked purposefully and had seen an improved approach across all the areas.

Framework for Change 2020 programme

In March 2021, the Council approved the continuation of the Framework for Change 2020 Programme as part of its budget setting process along with the commencement of all appropriate activity required to deliver the programme as it develops.

This is a comprehensive and ambitious programme that seeks to support the delivery of the Council's core purpose and vision for 2030. The programme is complex and spans a number of financial years. It aims to develop new ways of working that will improve efficiency and deliver a balanced and sustainable budget.

The Framework for Change 2020 programme is focussed on the following themes:

Theme	Workstreams
Council of 2023	<ul style="list-style-type: none"> - Service inputs and new operating models - New Ways of Working and Taking Advantage of Technology - Workforce Development - Organisation design across the Council
Demand Management	<ul style="list-style-type: none"> - Localities - further embedding early intervention and prevention - Children's Social Care – Delivering the Children's Plan - Adults' Social Care - Streetscene - Education Excellence - Special Educational Needs and Disability (SEND)
Economic Growth and Strategic Investment	Town Centre Regeneration, Large Employment Sites, Strategic Transport Schemes, Coast Access Gateways, Industry sector development, Housing, Employment and Skills, and Investment.

Climate Change Emergency

As a coastal borough, Sefton feels the effects of climate change more keenly than other parts of the UK. Extreme weather will impact negatively on our communities and businesses and we must do all in our power to reduce the likelihood of an extreme weather event.

On 18th July 2019, Sefton joined 60% of UK local authorities in declaring a climate emergency in response to the growing consensus worldwide that urgent action. The Council has since developed a Climate Emergency Strategy and a Climate Change Emergency Action Plan in response to the declaration.

Sefton Council will focus its efforts on energy use reduction as well as exploring the potential for green infrastructure and offsetting. This work will be aligned to the delivery of the Sefton 2030 Vision and the Council's Core Purpose with the aim of making Sefton a better place to live and work. The Council's aim is to achieve 100% clean energy by 2030 and reduce demand across our organisation to work towards becoming net carbon zero by 2030.

Achieving these aims will require investment in developing renewable energy generation, use of biogas produced through waste streams and agricultural waste stock, carbon offsetting, and moving to low carbon fleet vehicles as well as adapting the way we deliver services to reduce energy usage.

Age Profile of Sefton Residents

The age profile of residents is important to local authorities as it influences where / what services are provided. The latest Office for National Statistics Mid-Year Estimates for 2020, indicated that Sefton’s total population was 275,899. The figures also showed that 24% of Sefton’s residents are aged 65 and over; this is above the Liverpool City Region - LCR, North West and England averages (all 19%). Sefton is ranked 71st out of 309 local authorities for the rate of residents aged 65 or over. The high proportion of older residents has an impact on the level of resources that the Authority requires for elderly care provision. Sefton is in the highest 25% of Local Authorities for the proportions of elderly residents across the country.

Comparison of Sefton's Age Profile to LCR, NW & England (2019)

At 24%, Sefton has the 6th highest proportion of over 65’s across the 39 North West local authorities and is highest of the six Liverpool City Region (LCR) authorities.

Sefton is the 41st highest LA for the proportion of residents aged 85 and over throughout England and is the 5th highest in the North West, at 3.5% of the overall population, Sefton is again higher than the LCR, North West and national proportions of 2%. The Borough is again the highest of the six LCR authorities.

The number of residents over 65 is projected to increase steadily between 2018 and 2043. For males, the increase is projected to be 36% (28,132 to 38,260) and an increase for females of 31% (35,900 to 46,938). This means an overall 65+ population increase of 33% rising from 64,032 in 2018 to 85,198 by 2043.

Greatest increases are amongst those aged 85 and above with an overall increase of 73% (9,309 to 16,134). The male over 85 population rising by 104% (3,146 to 6,418) between 2018 and 2043. For females, the increase is projected to be 58% (6,163 to 9,716).

The rate of increase in the over 65 population of 33% compared to overall population increases of just 6% means that by 2043 approximately one in three Sefton residents will be age 65 or over.

Projected reductions in working age population (16 to 65-year olds) of 3% compared to increases in the over 65 population will mean the proportion of the adult population of the borough that is of pensionable age will be 29% by 2043, compared to 23% in 2018.

[Source: Mid-Year Population Estimates 2020 / Population Projections 2018]

Performance information

Core Funding

Business Rates: There was no change in the standard business rate multiplier in 2021/22. The Council billed £58.224m of business rates charges in 2021/22 (excludes prior year adjustments), this was £25.061m higher than the net amount billed in 2020/21. The increase in business rates charges was largely due to a reduction in retail discounts from 1 July 2021, as the Government wound down the level of support provided to businesses following the removal of Coronavirus restrictions. The council collected 97.3% of the amount billed in the year, up from 96.4% in 2020/21. A deficit of £11.810m is reported in the Collection Fund in 2021/22 of which Sefton Council's retained share is £11.692m (99.0%). A large proportion of this deficit is due to the continuation of expanded retail discounts in 2021/22 which the Government announced in March 2021 after the Council's budget was set. This additional relief is fully funded by Section 31 Grant, leaving an underlying surplus of £4.189m in 2021/22. The underlying surplus was largely due to a reduction in the provision for appeals as a large number of appeals against the 2010 Rating List were settled in the year. The deficit recorded on the Collection Fund will be recovered over the next two years (2022/23 and 2023/24).

Council Tax: The Council increased its council tax band D charge by £81.49 (4.99%) in 2021/22. This included a social care precept of 3.0%. The Council billed £179.126m of council tax charges in 2021/22 (including precepts) of which 94.8% was collected in the year, down from 95.0% in 2020/21. A surplus of £3.842m is reported in the Collection Fund in 2021/22 of which Sefton Council's share is £3.229m (84.0%). The surplus is largely due to housing growth and a reduction in council tax support claimants (compared to the number estimated). The surplus recorded on the Collection Fund will be distributed over the two years (2022/23 and 2023/24).

Government Grant Funding: During 2021/2022, Sefton's core grant funding (including Settlement Funding Assessment, New Homes Bonus, Improved Better Care Fund, and Social Care Grant) increased by £3.5m (3.4%), which included a £2.5 million increase in Social Care Grant in recognition of the increased social care pressures faced by local authorities.

Future Funding: In December 2021, the Secretary of State for Levelling Up, Housing and Communities announced a one-year finance settlement for local government which once again included a significant amount of one-off funding which may not continue in future years. The Government has previously announced their intention to introduce a new funding distribution formula using updated population data as well as resetting business rate retention baselines from 2022/23. The impact of these changes is currently unknown and recent political and economic developments mean that it is uncertain that they will be implemented. This leaves Sefton's future funding levels uncertain and makes medium-term financial planning difficult. Also, the long-term impact of the Covid-19 pandemic, increasing demand for services, the impact of Brexit, and the recent spike in inflation (fuel and energy costs in particular) has significantly increased the financial pressure on local government. Despite this uncertainty, the Council has prepared and agreed a Medium-Term Financial Plan for the period 2022/23 to 2024/25 setting out its approach to funding service provision over the next three years. This plan will be subject to review and revision as impact of current economic pressures develops and additional information on future funding levels becomes available.

Economy

The Borough has a mixed economy ranging from industry, commerce and tourism. The east bank of the Port of Liverpool is actually in Sefton, not Liverpool. The opening of “Liverpool 2”, the new deep-water container terminal is expected to provide many opportunities to improve the economy further.

Sefton is part of the Liverpool City Region and the embryonic “Northern Power House” which is expected to provide further impetus to the local economy in the future.

Latest available key data on the Sefton economy

- The unemployment benefit claimant rate in Sefton in February 2022 was 4.8%. Sefton is slightly lower than the rates seen across LCR (5.3%) and the North West (4.9%) yet is higher than the national rate (4.4%). Compared to the previous year the number of unemployed people in Sefton has considerably reduced (approximately 3,795 / 33%), 2022 has the second highest number of claimants in the last nine years (with 2021 having the highest).
- The economic activity rate in Sefton is 75.8%, lower than the rates seen across the city region (77.1%), the regionally (76.9%) and nationally (79.1%)
- There are currently 121,700 Sefton residents in employment (73.2% employment rate).
- 61.4% of residents are educated to NVQ Level 3 or above similar to the national average (61.2%).
- In 2021, the average full-time earnings for residents of Sefton is £589 per week, or £30,508 per annum, 4% lower than the English average.
- The National Living Wage increased to £9.50 per hour in April 2022 for over-23s only.
- Sefton’s Rank of Average Score in the Indices of Multiple Deprivation (IMD) 2019 was 89th out of 317 local authorities (317 being the least deprived).
- There are 38 Sefton LSOA’s (Lower Super Output Area – used in census collection) in the most deprived 10% of LSOAs across England. Seven of the 38 LSOA’s are in the most deprived 1% of LSOA’s nationally, six are in Linacre Ward; the other is in Derby Ward.
- 50 out of 189 LSOAs have a deprivation score less than in 2015 indicating that deprivation has reduced in the area. Meaning nearly three quarters of the areas have an increased deprivation score, indicating they have become more deprived.
- Sefton is ranked 89th out of 317 local authorities for deprivation affecting Children and 72nd for deprivation affecting Older people in 2019.
- 31 LSOA’s across Sefton fall in to the most deprived 10% areas for children, with 31 being in the most deprived 10% for older people. Five of the 31 fall within the top 1% of deprived areas nationally for children (located in Linacre – 3, Derby -1 and Litherland -1 wards). One LSOA is in the top 1% of deprived areas in England for older people (located in Deby ward).
- 80 of Sefton LSOA’s have seen the child related deprivation score (and therefore the deprivation affecting children) increase from 2015 to 2019, with 97 Sefton LSOA’s seeing increases in older people related deprivation.

Social Care

Sefton’s Adult Social Care dealt with 23,280 contacts during 21/22, 33% of these related to new clients. Sefton supported 5498 clients in long term community or residential services during the year, along with providing support to 378 carers.

At the 31st March 2021, there were 2,165 Children in Need, a rate of 400.2 per 10,000 population aged 0 to 17, considerably higher than that of England (321.2), North West (367) and Sefton’s Statistical Neighbours average (360.2). At the same time 252 children were subject to a Child Protection Plan which was 46.6 per 10,000 population aged 0 -17, again higher than the national figure (41.4), but lower than the Borough’s Statistical neighbour (47.5) and regionally (47). With 613 children recorded as Looked After as at 31st March 2021, as with Children in Need and Child Protection Plans, the

Children Looked After rate is considerably higher than that seen nationally (113 compared to 67 per 10,000 children aged 0 - 17) the Statistical Neighbour group (88.7) and North West (97) were also considerably lower.

The second extension year of the Sefton Turnaround Programme was completed on 31st March 2021. The target of 357 families was reached with the cohort being 'turned around' meaning that the LA could draw down funding from the government of £800 per family. This generated £285 600 worth of funding to support interventions provided by Social Workers to support families. The second extension year commenced on 1st April 2021 and is due to end on 31st March 2022. The target is to turn 357 families round within the timeframe which will generate a further £285 600 of funding. The name and marketing of the Turnaround Programme has now been changed to the 'Supporting Families' Programme.

The second extension year of the Sefton Turnaround Programme commenced on 1st April 2021 and ended on 31st March 2022. The target was to turn 372 families round within the timeframe which was met. This has generated a further £297 600 of funding to support interventions provided by Social Workers to support families. The name and marketing of the Turnaround Programme has now been changed to the 'Supporting Families' Programme.

Tourism

Sefton has over 22 miles of coastline boasting a number of beautiful beaches and stunning natural beauty. Attractions range from Gormley's "Iron Men" on the beach in Crosby, to the Pinewoods (and red squirrels) in Formby, to the iconic attraction of Southport, with its elegant shopping in classic Victorian surroundings.

Southport has hotels, attractions, restaurants and pubs, with the oldest cast iron pier in the UK stretching across Southport beach. It is rumoured that Napoleon re-modelled certain parts of Paris based on his knowledge of Southport during his stay in the town back in the mid-19th century. Southport also hosts a superb events programme including the annual Air Show, Fireworks Championship and Flower Show while Sefton is also home of the Grand National.

There are many world class golf courses within Sefton, Royal Birkdale regularly hosts The Open while Hillside Golf club has recently hosted The British Masters. The area's reputation for golf is known nationwide and is known as "England's Golfing Capital" due to the number and variety of top-quality courses. This attracts visitors from across the UK and many from the United States, Europe and Japan.

Technology / Systems

The Council is now in the fourth year of a five-year contract with Agilisys Ltd for the provision of IT services to the Council. This agreement has enabled the Council to reduce the annual costs of IT services, and it has also allowed the Council to benefit from the innovation and best practice which Agilisys has implemented for other local authorities.

The Council has continued to develop its agile working which enables Council officers to work from various locations as required by their role, and the Council is using new IT initiatives to support this. The Council has upgraded its main telephony system to a cloud-hosted solution so that calls can be made and received irrespective of location. Increased use of the Microsoft Teams solution allows officers to hold meetings online this reducing the requirement to travel, which aligns with the Council's aspirations to reduce its impact on the environment. In addition, the Council is nearing the completion of the migration of its Council systems and data to cloud hosting.

An improved broadband offer to Sefton schools has been implemented, which provides faster connectivity and better value for money.

Councillors continue to use new mobile devices and technology which allows them to conduct their duties more efficiently by granting access to key information and electronic communication with citizens whilst on the move. This has resulted in a reduction in the use of paper and printing for Council meeting documentation.

The Council continues to improve and develop its digital offering to customers. The Council website has been redesigned in early 2022 and further improvements will be made as part of the continuing website development programme. The development and deployment of a new digital Customer Experience platform is in progress, which will increase and enhance self-service on a variety of services 24 hours a day.

The Council is also looking to rationalise its use of systems to leverage use of existing investments, deploy better integration between systems and reduce the overall spend in this area. Continued leverage of the Council's Microsoft software is constantly being explored and progressed; this provides efficiency improvements to the Council and ensures we maximise our financial investment. The Council is also working on further rollout of intelligent automation technology to improve and streamline back-office processes.

In response to Sefton's wider Digital offer and Sefton's newly published Technology Enabled Care Solutions Strategy 2021-24, the Council is actively exploring the design and implementation of TEC solutions which will allow older and/or vulnerable adults to live independently at home. The Council launched Ask SARA, an online self-assessment, information and guidance tool, which is designed to provide individuals, their families and carers, with advice and guidance to access equipment to support independent living, and is piloting Brain in Hand, an app for young people aged 16-25 with low level mental health diagnoses who will benefit from using the app to support them to achieve greater independence and autonomy over their own wellbeing. The Council is also planning pilots in 22/23 to support development in remote monitoring to support independent living in shared settings.

Financial Overview

Revenue Budget Process / Council Tax

Unlike in previous years, the Council was unable to formulate a multi-year budget plan due to the one year Local Government Finance Settlement and the lack of clarity over future settlements. The Council identified a budget shortfall for 2021/2022 of £8.997m. Specific options to contribute to the budget shortfall in 2021/2022 were identified, including a 4.99% increase in Council Tax (including a 3% increase for the Adult Social Care Precept). Councillors were reminded that the use of one-off resources should only occur in setting a robust financial plan when there is a clear short-term requirement and that these are not used to avoid making budget savings.

The Council experienced significant budget pressures in some service areas, particularly Children's Social Care, Children with Disabilities, Home to School Transport and Operational In-House Services. However, the Council did identify underspending in other areas as well as implementing various mitigating actions during the year to ensure there would be no overspend, particularly in light of the financial pressures due to COVID19. These measures enabled the outturn position to be a net underspend of £2.021m.

Financial risks up to 2022/2023

The budget reductions identified in the budget for 2021/2022 highlight the growing level of financial risks the Council will be facing over the coming years and the level of risk which it is possible to mitigate. The financial forecasts themselves are only estimates of future political, economic, environmental and demographic forecasts which contain many variables and degrees of uncertainty.

The budget proposals made to date contain some risks, given the extent and the impact of the £233m savings Sefton had faced to March 2020. The Council has been made aware of the consultations conducted since 2011 in determining the equality impact and risks of the reductions and reconfigurations of services. All options require close monitoring of implementation and delivery and any non-achievement reported and corrected in a timely way.

The 2021/2022 budget represented the twelfth successive year of budget reductions for Sefton Council and has required more challenging solutions to achieve a balanced budget for 2021/2022.

Delivering savings over such a long period has had a significant impact on the delivery of Council services. In developing the approach to delivering the savings it was important to balance the delivery of savings with the protection of those services which contribute the most to the delivery of the Vision and Core Purpose.

Achieving the ambitions of Sefton 2030 also requires the Council to be financially sustainable, to ensure services align with the core purpose and that the Council works with partners to achieve better outcomes.

In order to meet this challenge, the Council has developed a 'Framework for Change' which is comprised of the following pillars which will help the Council deliver against its stated objectives including financial sustainability. These are:

- Economic Growth and Strategic Investment;
- Council of 2023;
- Demand Management.

Each of these themes will contribute towards delivering the Sefton 2030 Vision and a financially sustainable Council.

Revenue Financial Performance of the Council 2021/2022

Non-School General Fund Net Expenditure

The General Fund encompasses expenditure relating to the day-to-day running of the Council. Transactions relating to Schools' delegated budgets are included within the General Fund but because Schools are entitled to retain any year-end balances for future use, the General Fund balances are analysed according to whether or not they belong to Schools.

On 4 March 2021, the Council approved a revenue budget for 2021/2022 of £191.974m, which included £1.208m relating to the expenditure of Parish Councils. At that time, it was anticipated that balances for non-school budgets would total £9.984m at 31 March 2022. As a result of an underspend of £2.794m in 2020/2021 the anticipated year-end balances position was revised to £12.778m. The 2021/2022 Budget assumed an increase in general balances of £1.5m as part of a strategy to increase balances and ensure financial resilience.

Overall, actual expenditure for 2021/2022 on General Fund services (excluding Schools' delegated expenditure) was £2.021m lower than the Base Estimates which has increased General Fund Balances further.

The Authority's reported Non-School General Fund balances at 31 March 2022 are therefore £14.799m as shown in the following table:

Non-School General Fund Balances	£m
Actual Non-School General Fund Balances at 31 March 2021	-11.278
Plus Budgeted Contribution to Balances	-1.500
Plus underspend in comparison to the 2021/2022 Base Estimate:	-2.021
Actual Non-School General Fund Balances at 31 March 2022	-14.799

A comparison of actual expenditure to budgeted expenditure is shown below:

Net Revenue Expenditure	Budget	Net Expenditure Chargeable to General Fund Balances (per EFA)	Adjustments for Internal Recharges / Earmarked Reserves	Outturn Expenditure against Budget for Monitoring Purposes	Variance
	£m	£m	£m	£m	£m
Services					
Strategic Management	4.015	1.120	2.914	4.034	0.019
Adult Social Care	98.125	92.715	2.255	94.970	-3.155
Children's Social Care	47.754	52.883	-0.242	52.641	4.887
Communities	17.274	16.126	-0.987	15.139	-2.135

Amount Funded from / contributed to (-) General Balances	-1.500	10.927	-14.448	-3.521	-2.021

Note: The total of the figures shown above for Other Services and Corporate Items are categorised differently in the Expenditure & Funding Analysis (total of Corporate Unallocated Costs and Financing and Investment Income & Expenditure)

For clarity, brief definitions some services are noted below to help the reader understand what some of the functions that are provided: -

- Communities – Services include amenities and support for local neighbourhoods, youths, libraries and arts, sports and families.

- Operational In-House Services – The delivery of key services including refuse collection / recycling, street cleansing, burials and cremation, school meals, crossing patrols, parks, coast and countryside.

The main variances relate to four key areas:

Adult Social Care – Adult Social Care underspent in 2021/22 by £3.155m. Reports to Cabinet during the year highlighted that there were a number of significant assumptions and uncertainties relating to COVID-19 and other areas that would impact on the outturn position at the year-end. The Demand Management Programme continued throughout the year, and further savings were identified that had a significant part-year impact in 2021/22 which was a major factor in the service underspending. Monthly budget monitoring reports later in 2021/22 made reference to these issues and an underspend of £2.3m was included in the forecast pending finalisation of the issues.

Children's Social Care: Children's Social Care overspent in 2021/22 by £4.887m. A significant overspend was forecast consistently through the year and relates to the overspends on accommodation and Agency workers. This budget is demand led, and as such, is particularly volatile, depending on the increasing numbers of children becoming looked after and where they are accommodated. The overspend increased towards the end of the year, which was as a result of some high-cost cases and highlights the pressures that the budget can experience, together with the higher than budgeted for costs of agency members of staff that are required as a result of increased demand and a lack of permanent staff who are available in the labour market.

Communities: The surplus of £2.135m primarily relates to reduced expenditure on sports facilities due to them being closed in line with COVID19 guidance and reduced activity when they were allowed to open. There were other vacancy savings across the Council, as well as additional grant funding made available to offset existing costs in the year.

Health and Wellbeing - A net surplus of £0.811m was brought about primarily due to savings on contracts procured during the year, including on substance misuse and health prevention services.

Schools

In accordance with the Fair Funding Scheme for Financing Schools, individual schools are able to carry forward any underspend on their budgets. Conversely, an overspend against budgets become the first call on future available resources. Net expenditure on schools, whether incurred directly from delegated budgets or spent against centrally retained budgets by the LEA in support of schools, is funded from the ring-fenced Dedicated Schools Grant (DSG).

The DSG was underspent by £2.613m in 2021/2022. This comprised an underspend of £2.767m across Individual Schools' delegated budgets, and a decrease in the level of DSG school funds held by the Local Authority during 2021/2022 in respect of the Supply Teachers scheme (£0.107m) and the Business Rates scheme (£0.047m). Movements in Schools' balances during 2021/2022 can be summarised as follows:

<u>Schools' Balances</u>	<u>£m</u>
Schools' balances as at 1 April 2021	-15.676
Overspend on Schools' Delegated Budgets	-2.613
Schools' balances at 31 March 2022	-18.289

The Council's Centrally Retained DSG balances are separate to its Maintained Schools' balances. These are in respect of Schools' Central Support services; Early Years (non-schools) provision and High Needs (non-schools) provision. The net opening balance of these reserves, as at 1 April 2021, was a deficit of £6.615m. During 2021/2022, this deficit has grown considerably, mostly due to the significant overspending of High Needs. This has taken the balances into a net deficit position of £11.097m (see below).

Centrally Retained DSG Balances	1 April 2021	Movement 2021/2022	31 March 2022
	£m	£m	£m
Schools Block	-0.521	-0.240	-0.761
Early Years Block	-1.113	0.477	-0.636
High Needs Block	8.249	4.245	12.494
	6.615	4.482	11.097

DfE permit Local Authorities to carry forward a deficit on their DSG Centrally Retained balances, without any obligations on behalf of Local Authorities to support a deficit position out of non-school Council balances. As a result of the statutory requirements introduced for 2020/21, this balance is now held on the Balance Sheet as an Unusable Reserve, the Dedicated Schools Grant Adjustment Account.

They DfE have offered to work more closely and in cooperation with Local Authorities, to support them in trying to reduce spending, particularly across High Needs, where most Authorities have been struggling to manage. The first requirement will be for the Authority to have plans to balance their in-year spending. They will still be required to provide evidence, at the DfE's request, that overspending issues have been reported regularly to Schools Forum; and that measures are in place to arrest the situation, at least, over a three-year planned period. In addition, the Council is participating in the DfE's Delivering Better Value Programme, which will provide additional support to help the Council move into a financially sustainable position on High Needs. It has been acknowledged that the full recovery of accumulated deficits, however, may not be possible, even over many years, and it is not certain at this stage, whether the DfE may consider, on a case by case basis, some additional funding, to write down some, or all, of their accumulated deficits in this respect.

With the review of High Needs underway, and the actions being taken as explained above, together with the increased settlement for High Needs funding in 2022/2023, work will continue to bring expenditure in line with the budget available and then start to repay the existing deficit so as to reduce the financial risk to the Council.

Capital Strategy / Programme 2021/2022

The Capital Programme Capital Allocation 2021/2022 report was approved by Council on 4 March 2021. As part of Central Government's austerity measures the capital grants previously available to local authorities have reduced year on year. As a result, the previous flexibility afforded to councils to establish a single capital pot from which capital and investment decisions could be made has been eliminated. The three remaining grant allocations received by the Council are in respect of schools, transport and social care (i.e. Better Care Fund) and due to the funding conditions of these grants are utilised within the relevant services.

Capital requirements that reflect the councils Framework for Change programme are considered by the Strategic Capital Investment Group (SCIG). SCIG consists of Cabinet members and its purpose is to review and assess capital funding plans. Recommendations are made to Cabinet and Council for a Capital Investment Plan.

Capital expenditure is principally funded from four areas:

Capital Grants and Contributions – grants from Central Government and other grant funding bodies such as European grants, lottery funding and contributions from private developers.

Capital Receipts – proceeds from the sale of the Council's capital assets.

Revenue – financing capital expenditure from the Council's revenue resources.

Prudential Borrowing – this is external borrowing undertaken by the Council that must be repaid. The Council will only borrow where plans are sustainable, affordable, prudent and offer value for money.

The Capital Programme 2021/2022 report highlighted Government grant funding for 2021/2022 of £1.812m for schools, £3.865m for transport and £4.251m for Better Care Fund, giving a total grant allocation of £9.928m. Of the £1.812m for schools, £0.346m was ring-fenced Devolved Formula Capital Grant (DFC), and £1.466m was Capital Maintenance Grant. Of the £3.865m for transport,

£0.990m was the Local Integrated Transport Block Grant, £1.800m was the Highway Maintenance Block Grant, £0.900m was the Additional Key Route Network Grant, and £0.175m was Pothole Funding.

Capital Expenditure in 2021/2022

In 2021/2022 the Authority spent £32.536m on capital projects. Examples of some of the major areas of spend include expenditure on Schools programme (£3.952m), Highways Integrated schemes (£1.924m), Highways Carriageway maintenance (£3.227m), LED Street Lighting Scheme (£1.595m), Adult Social Care (£3.932m), Growth and Strategic Investment projects (£4.445m), and the Vehicle Replacement Programme (£5.247m).

The analysis of capital spending (by departmental categories) and its financing is summarised below-

Sefton's Capital Expenditure for 2021/2022

	<u>£m</u>	<u>%</u>
Adult Social Care	3.932	12.2
Children's Social Care	0.025	0.1
Communities	1.150	3.5
Corporate Resources	2.131	6.5
Economic Growth & Housing	4.990	15.3
Education Excellence	3.952	12.1
Highways & Public Protection	7.400	22.7
In House Operational Services	6.951	21.4
Capitalisation and DFC	2.005	6.2
	32.536	100.0

Financing of Sefton's 2021/2022 Capital Expenditure

<u>Source of Finance</u>	<u>£m</u>	<u>%</u>
Grants and Contributions	21.474	66
Prudential Borrowing	9.650	30
Capital Receipts	1.110	3
Revenue	0.302	1
	32.536	100

Total capital expenditure consists of the following additions:

<u>Type of Asset</u>	<u>£m</u>
Fixed Assets:	
- Property, Plant & Equipment	16.276
- Infrastructure	9.149
- Investment Properties	1.113
- Assets Under Construction	0.945
Intangible Assets (e.g. software licences)	1.345
Revenue Expenditure Funded from Capital Under Statute	3.708
	<u>32.536</u>

An explanation of the Financial Statements

The Statement of Accounts is intended to give clear information about the Authority's finances. It is intended to answer:

- What did the Authority's services cost in the year of account?
- Where did the money come from to pay for these services?
- What were the Authority's assets and liabilities at the year-end?

Wherever possible the contents have been written in plain English and technical terms have been used sparingly. Where the use of technical terms has been unavoidable, a simple explanation has been included in the Glossary (see pages 151 to 158).

The Authority is required by law to follow proper accounting practices and this Statement of Accounts attempts to present fairly the financial position and transactions of the Authority.

The Statement was certified by the Executive Director of Corporate Services and Commercial on 9 December 2024.

In accordance with recommended practice, the Authority's Accounts present:

(a) Comprehensive Income and Expenditure Statement (page 27)

This statement shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation. Authorities raise taxation to cover expenditure in accordance with statutory requirements; this may be different from the accounting cost. The taxation position is shown in both the Expenditure and Funding Analysis and the Movement in Reserves Statement.

(b) Movement in Reserves Statement (page 29)

This statement shows the movement from the start of the year to the end on the different reserves held by the authority, analysed into 'usable reserves' (i.e. those that can be applied to fund expenditure or reduce local taxation) and other 'unusable reserves'. The Statement shows how the movements in year of the authority's reserves are broken down between gains and losses incurred in accordance with generally accepted accounting practices and the statutory adjustments required to return to the amounts chargeable to council tax (or rents) for the year. The Net Increase/Decrease line shows the statutory General Fund Balance movements in the year following those adjustments.

(c) Balance Sheet (pages 31 - 32)

The Balance Sheet shows the value as at 31 March 2022 of the assets and liabilities recognised by the Authority. The net assets of the Authority (assets less liabilities) are matched by the reserves held by the Authority. Reserves are reported in two categories. The first category of reserves are usable reserves, i.e. those reserves that the authority may use to provide services, subject to the need to maintain a prudent level of reserves, and any statutory limitations on their use. The second category of reserves are those that the Authority is not able to use to provide services.

(d) Cash Flow Statement (page 33)

The Cash Flow Statement shows the changes in cash and cash equivalents of the Authority during the reporting period. The statement shows how the Authority generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities.

(e) Notes to the Financial Statements - Expenditure and Funding Analysis (page 35 - 36)

This analysis shows how annual expenditure is used and funded from resources (government grants, rents, council tax and business rates) by local authorities in comparison with those resources consumed or earned by authorities in accordance with generally accepted accounting practices. It also shows how this expenditure is allocated for decision making purposes between the council's directorates/services/departments. Income and expenditure accounted for under generally accepted accounting practices is presented more fully in the Comprehensive Income and Expenditure Statement.

(f) Other Notes to the Financial Statements (pages 37 - 110)

The notes to the Movement in Reserves Statement, Comprehensive Income and Expenditure Statement, Balance Sheet and Cash Flow Statement. It also includes the accounting policies employed by Sefton to comply with the CIPFA Code of Practice of Local Authority Accounting subject to any exceptions detailed in the note.

(g) Collection Fund (pages 111 - 114)

This statement that reflects the statutory obligation for billing authorities to maintain a separate Collection Fund in accordance with section 89 of the Local Government Finance Act 1988 (as amended by the Local Government Finance Act 1992).

The Collection Fund shows the transactions of the Billing Authority in relation to the collection of Council Tax and Non-Domestic rates and provides details of how this income has been distributed to Sefton MBC (including Parish Precepts), the Merseyside Police and Crime Commissioner, the Merseyside Fire and Rescue Authority, and Central Government.

(h) Group Accounts (pages 115 – 130)

This section incorporates the accounts of both Sefton and its wholly owned subsidiaries, Sefton New Directions Limited, Sefton (ACS) Development Company Limited (Sandway Homes) and Sefton Hospitality Operations Limited, to provide details of the Council's financial activities as a Group.

(i) Annual Governance Statement (pages 131 - 146)

The Annual Governance Statement is the formal statement that recognises, records and publishes an authority's governance arrangements as defined in the CIPFA / SOLACE Governance Framework. It is required to be published with the accounting statements but does not form part of the accounting statement and is therefore not covered by the Auditors' opinion.

(j) Independent Auditors' Report to the Members of Sefton Metropolitan Borough Council (pages 147 - 150)(k) Glossary (pages 151 - 158)(l) Abbreviations (pages 159 – 160)(m) Useful Addresses (page 161)

Changes to Accounting Policy during the Year

This Statement of Accounts is prepared in accordance with the Code of Practice on Local Authority Accounting in the United Kingdom 2021/2022 (the Code).

There have been no material changes to the accounting policies in 2021/22.

However, it should be noted that for the valuation of infrastructure assets, the same method has been used as used in the draft 2020/2021 accounts. There is an ongoing consultation about the methodology for valuation of such assets which has the potential to require both the 2020/2021 and the 2021/22 accounts to be restated.

Analysis of the Income and Expenditure Account

The tables and charts below summarise the Authority's **gross** revenue expenditure within the General Fund for 2021/2022 and highlights the main sources of General Fund Financing for 2021/2022.

Gross Expenditure on Services (including Levies) (by Expenditure Type)

<u>Expenditure Type</u>	<u>£m</u>	<u>%</u>
Employees	258.634	36
Running Expenses	437.185	61
Capital Charges	19.721	3
	<u>715.540</u>	<u>100</u>

Gross General Fund Expenditure on Services (including Levies)

Service	£m	%
Adult Social Care	150.016	21
Children's Social Care	56.406	8
Corporate Resources	109.668	15
Communities / Health & Wellbeing	52.766	8
Highways and Public Protection / Operational In-House Services	58.480	8
Education Excellence - Non-School	16.730	2
Education Excellence - Schools	204.436	29
Other Services	32.376	4
Levies	34.662	5
	<u>715.540</u>	<u>100</u>

**Main Sources of General Fund Financing for 2021/2022**

Source of Income	£m	%
General Government Grants	92.023	20
Non-Domestic Rates Income	56.227	12
Council Tax Payers	146.265	32
Dedicated Schools Grant	166.617	36
	<u>461.132</u>	<u>100</u>

The Gross expenditure is financed by the major grants shown above, other smaller revenue grants and contributions received by the Council (Note 17 on page 55) and fees and charges.

Other Financial Commitments

The Council's most significant other financial commitments are the long-term contracts it has entered into with Agilisys, Formby Pool Trust, Sefton New Directions Limited and Waterfront Leisure (Crosby) Limited.

Borrowing / Investments

The Council's arrangements for long-term borrowing and investments correspond to the Council's Treasury Management Policy and Strategy documents. These were drawn up to comply with the Chartered Institute of Public Finance and Accountancy's Code of Practice for Treasury Management in Local Authorities.

Under Section 3(1) of the Local Government Act 2003, the Council must approve an overall borrowing limit before the beginning of each financial year. For 2021/2022 this limit was set at £245m; the Council stayed within this figure during the year.

As at 31 March 2022, the Council had outstanding borrowing of £168.433m (£186.790m as at 31 March 2021). This includes local authority bonds, stocks, mortgages and loans from the Public Works Loans Board (PWLB). At 31 March 2022, accrued interest of £1.208m, was due to be repaid within 12 months.

During 2021/2022, no new long-term borrowing from the PWLB was required to fund capital expenditure. Principal of £18.229m was repaid during the year of which £14.520m related to Equal Instalments of Principal (EIP) loans and £3.708m related to Annuity loans.

Interest on long-term borrowing from the PWLB totalled £6.526m during the year (£6.932m in 2020/2021).

In line with its Treasury Management Policy and Strategy the Council makes daily investment decisions. At 31 March 2022, the Council had short-term investments of £93.690m (£65.260m at 31 March 2021). The Council had no short-term deposits with banks and building societies (£0.000m at 31 March 2021). The Council had long term investments with the Church and Charities Local Authority (CCLA) Property Fund (£6.319m).

Pension Liability

As at 31 March 2022 the Pensions Liability figure in the Balance Sheet includes a net deficit on the Local Government Pension Scheme Fund attributable to Sefton of £390.099m (£448.597m as at 31 March 2021). The deficit is reviewed periodically (normally every three years) by the Fund's actuary and steps are taken to address the deficit via increased contributions over the remaining working life of employees. However, it should be noted that the notional figure included in the Statement of Accounts is calculated using a different set of assumptions (in line with accounting practice) than those used to calculate the deficit repayments required.

The latest valuation was completed during 2019/2020 and has set the contribution rates for 2020/2021 to 2022/2023. There has been a significant improvement in the Council's funding position resulting in the Council's overall deficit being £4m. However, it should be noted that the value of the deficit is highly dependent on market conditions at the time of the valuation and can vary significantly between valuations.

As at 31 March 2022 there was a net deficit relating to unfunded Teachers' Pensions attributable to Sefton of £5.699m (£6.316m as at 31 March 2021). The Council has budgeted to make these payments until there is no longer a liability.

Provisions, Contingencies, Write-Offs and Material Charges or Credits

The 2021/2022 accounts include a provision for the cost of NNDR checks, challenges and appeals. The total value of the Provision as at 31 March 2022 is £21.354m (£23.886m as at 31 March 2021). Sefton's share of the Provision as at 31 March 2022 is £21.140m (£23.647 as at 31 March 2021).

The only material write-offs in 2021/2022 relate to revaluation losses on the Authority's assets. These total £0.6m (£6.0m in 2020/2021).

General Balances and Reserves

The Financial Overview on pages 12 to 15 show the General Balances of the Council split between Delegated Schools' and Non-Delegated Services. The Council's Non-Delegated Services' General Balances are £14.799m. This level of Balances is considered the least necessary given the financial risks faced by the Council, including the impact of current levels of inflation, Children's Social Care and other pressures on the Council's financial position in 2021/2022 and future years.

The Council has £30.122m of capital resources available as at 31 March 2022 (£27.530m as at 31 March 2021). These are amounts already received that will be used to fund the Council's Capital Investment Plan in 2022/2023 and future years (see pages 15 to 17). This Plan will be vital in assisting the Borough's recovery from the pandemic.

The Council also has £81.253m of Earmarked Reserves as at 31 March 2022 (£98.313m as at 31 March 2021). These are described in Note 35. This includes previously received revenue grants and contributions that have yet to be applied. The significant amount in Earmarked Reserves is mainly due to S31 Business Rates grants received to compensate the Council for the loss of income due to the government introducing an expanded retail relief scheme (this grant will offset the resulting deficit in 2022/2023) as well as COVID19 funding received in 2021/2022 which will be utilised in 2022/2023. Earmarked Reserves are held by the Council to fund anticipated future expenditure of a non-recurring nature. If these resources were not available, then the expenditure would need to be funded from the Council's in-year Revenue Budget which would require additional savings to be made in order to make funding available. Given the financial challenges from COVID-19, the Council may need to utilise its Earmarked Reserves to temporarily fund costs / loss of income not covered by Government support. These reserves will need to be replenished in future years which will require savings to be achieved.

The Council also has negative £98.669m of Unusable Reserves as at 31 March 2022 (negative £218.967m as at 31 March 2021). These are accounts required under accounting regulations and are not available to support, or a call against, Council expenditure. Unusable Reserves are negative mainly due to the notional deficit on the Pension Reserve of £396m (£390m relating to the Local Government Pension Scheme). As explained in the Pension Liability section on page 21, this is a notional figure and is calculated using a different set of assumptions (in line with accounting practice) than those used to calculate the deficit repayments required. The latest valuation was completed during 2019/2020 and there has been a significant improvement in the Council's funding position resulting in the Council no longer being in deficit. However, it should be noted that the value of the deficit is highly dependent on market conditions at the time of the valuation and can vary significantly between valuations.

Due to the notional deficit on the Pension Reserve the Council's overall reserves are a net positive £45.793m. This reduced positive position does not give rise to the same risks to financial sustainability as it would for a company in the private sector due to the deficit on the Pension Fund being notional rather than impacting on the cash flows of the Council.

Material Events after the Reporting Date

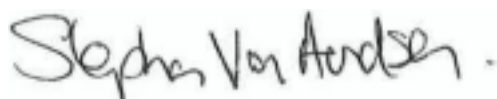

There are no material events after the reporting date.

Conclusion

During the 2021/2022 financial year, the Council has continued to experience significant additional spending pressures but has been able to contain such costs within the overall budget. The overall outturn position is an underspend which has been added to General Balances.

Decisions taken for the agreed 2022/2023 budget will increase General Fund balances from the 31 March 2022 position by £2.9m. However, the challenges presented by the significant impact of inflation mean that the Council will need to utilise some of these balances in order to stabilise local authority finances in the short term whilst the economy recovers. We will be looking to the Government to provide additional financial support beyond the amounts already announced. Maintaining financial sustainability will be a key part of the Council's recovery plan in order to continue to provide support to its residents, service users, council tax payers and the business community.

The Statement of Accounts is a complex document and is prepared within the guidelines set by the Chartered Institute of Public Finance and Accountancy. However, I would be interested to receive any suggestions as to how the Accounts, or the Executive Summary, could be improved. Please contact me at the address on page 161 of this document.

Stephan Van Arendsen

Executive Director of Corporate Services and Commercial

2 STATEMENT OF RESPONSIBILITIES FOR THE STATEMENT OF ACCOUNTS

The Authority's Responsibilities

The Authority is required to:

- Make arrangements for the proper administration of its financial affairs and to secure that one of its officers has the responsibility for the administration of those affairs. In Sefton that officer is the Executive Director of Corporate Resources and Customer Services.
- Manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets.
- Approve the Statement of Accounts.

The Executive Director of Corporate Resources and Customer Services Responsibilities

The Executive Director of Corporate Resources and Customer Services is responsible for the preparation of the Authority's Statement of Accounts in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom (the Code).

In preparing this Statement of Accounts, the Executive Director of Corporate Resources and Customer Services has:

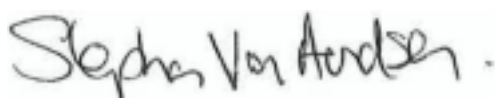

- selected suitable accounting policies and then applied them consistently;
- made judgements and estimates that were reasonable and prudent;
- complied with the local authority Code.

The Executive Director of Corporate Resources and Customer Services has also:

- kept proper accounting records which were up to date;
- taken reasonable steps for the prevention and detection of fraud and other irregularities.

Executive Director of Corporate Resources and Customer Services Statement

I certify that this Statement of Accounts gives a true and fair view of the financial position of Sefton Metropolitan Borough Council at 31 March 2022, and its income and expenditure for the financial year ended 31 March 2022.

Stephan Van Arendsen
Executive Director of Corporate Services and Commercial
Date: 9th December 2024

Statement by the Chair of the Audit and Governance Committee

I confirm on behalf of the Council that these accounts were approved by me under delegated authority as resolved by the Audit and Governance Committee at its meeting held on 28th November 2024.

Councillor Dave Robinson
Chair, Audit and Governance Committee
Date: 9th December 2024

3 COMPREHENSIVE INCOME AND EXPENDITURE STATEMENT

This statement shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation. Authorities raise taxation to cover expenditure in accordance with statutory requirements; this may be different from the accounting cost. The taxation position is shown in both the Expenditure and Funding Analysis and the Movement in Reserves Statement.

4 MOVEMENT IN RESERVES STATEMENT

This statement shows the movement from the start of the year to the end on the different reserves held by the authority, analysed into 'usable reserves' (i.e. those that can be applied to fund expenditure or reduce local taxation) and other 'unusable reserves'. The Statement shows how the movements in year of the authority's reserves are broken down between gains and losses incurred in accordance with generally accepted accounting practices and the statutory adjustments required to return to the amounts chargeable to council tax (or rents) for the year. The Net Increase/Decrease line shows the statutory General Fund Balance movements in the year following those adjustments.

<u>Movements in Reserves in 2021/2022</u>	General Fund Balance	Earmarked Reserves Account	Capital Receipts Reserve	Capital Grants Unapplied	Total Usable Reserves	Unusable Reserves (Notes 38 to 43)	Total Authority Reserves

5 BALANCE SHEET

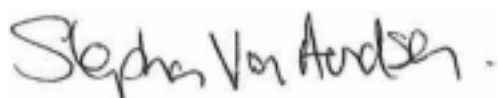

The Balance Sheet shows the value as at the Balance Sheet date of the assets and liabilities recognised by the Authority. The net assets of the Authority (assets less liabilities) are matched by the reserves held by the Authority. Reserves are reported in two categories. The first category of reserves are usable reserves, i.e. those reserves that the authority may use to provide services, subject to the need to maintain a prudent level of reserves and any statutory limitations on their use (for example the Capital Receipts Reserve that may only be used to fund capital expenditure or repay debt). The second category of reserves is those that the Authority is not able to use to provide services. This category of reserves includes reserves that hold unrealised gains and losses (for example the Revaluation Reserve), where amounts would only become available to provide services if the assets are sold; and reserves that hold timing differences shown in the Movement in Reserves Statement line 'Adjustments between accounting basis and funding basis under regulations'.

Stephan Van Arendsen
Executive Director of Corporate Services and Commercial
Date: 9th December 2024

6 CASH FLOW STATEMENT

The Cash Flow Statement shows the changes in cash and cash equivalents of the Authority during the reporting year. The statement shows how the Authority generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the Authority are funded by way of taxation and grant income or from the recipients of services provided by the Authority. Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute to the Authority's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e. borrowing) to the Authority.

<u>2020/2021</u> £000s		Note	<u>2021/2022</u> £000s

-68,086	Cash and cash equivalents at the end of the reporting period	28	-98,328

7 NOTES TO THE FINANCIAL STATEMENTS - EXPENDITURE AND FUNDING ANALYSIS

The Expenditure and Funding Analysis shows how annual expenditure is used and funded from resources (government grants, rents, council tax and business rates) by local authorities in comparison with those resources consumed or earned by authorities in accordance with generally accepted accounting practices. It also shows how this expenditure is allocated for decision making purposes between the council's directorates/services/departments. Income and expenditure accounted for under generally accepted accounting practices is presented more fully in the Comprehensive Income and Expenditure Statement.

<u>2021/2022</u>	Net Expenditure Chargeable to General Fund Balances	Adjustments between the Funding and Accounting Basis (Note 6)	Net Expenditure in the Comprehensive Income and Expenditure Statement

Closing General Fund Balance	-125,267

8 OTHER NOTES TO THE FINANCIAL STATEMENTS

1 PRIOR PERIOD COMPARATORS - TRANSFERS OF FUNCTIONS BETWEEN SERVICES

During 2021/2022 the Council transferred some elements of the Communities service into Children's Social Care and Education Excellence. In addition, an element of Corporate Resources transferred to Adult Social Care. The amounts are not considered material enough to warrant a Prior Period Adjustment to ensure comparability between the two years.

2 ACCOUNTING STANDARDS ISSUED BUT HAVE NOT YET BEEN ADOPTED

At the balance sheet date, the following new standards and amendments to existing standards have been published but not yet adopted by the Code of Practice of Local Authority Accounting in the United Kingdom:

- IFRS 1 (First-time adoption) – amendment relates to foreign operations of acquired subsidiaries transitioning to IFRS
- IAS 37 (Onerous contracts) – clarifies the intention of the standard
- IFRS 16 (Leases) – amendment removes a misleading example that is not referenced in the Code material
- IAS 41 Agriculture – will only apply to local authorities in limited circumstances.

These changes are not expected to have a material impact on the Council's single entity statements or group statements.

3 CRITICAL JUDGEMENTS IN APPLYING ACCOUNTING POLICIES

In applying the accounting policies set out in Note 54, the Authority has had to make certain judgements about complex transactions or those involving uncertainty about future events. The critical judgements made in the Statement of Accounts are:

- There is a high degree of uncertainty about future levels of funding for local government (see Narrative Report). However, the Authority has determined that this uncertainty is not yet sufficient to provide an indication that the assets of the Authority might be impaired as a result of a need to close facilities and reduce levels of service provision.
- The Council has a material interest in Sefton New Directions Limited, an entity which conducts some of the Council's adult and social care activities. It has been deemed that Sefton New Directions Limited is a subsidiary of the Council and group accounts are required to be prepared.
- The Council has a material interest in Sandway Homes Limited, an entity which engages in housebuilding activity. It has been deemed that Sandway Homes Limited is a subsidiary of the Council and group accounts are required to be prepared.
- The Council has a material interest in Sefton Hospitality Operations Limited, an entity which engages in hospitality activity. It has been deemed that Sefton Hospitality Operations Limited is a subsidiary of the Council and group accounts are required to be prepared.
- The Council has joint working arrangements with NHS CCGs in Sefton for the provision of intensive care packages for service users with a learning disability and the provision of an Integrated Community Equipment Service. In total £4.024m has been expended on both services in 2021/22. The Council does not consolidate both elements into its financial statements but only accounts for its own expenditure (see Note 10).
- The Council has given a number of warranties for up to 17 years (One Vision Housing Limited) and 35 years (Prudential Trustee Company Limited) in respect of statements, title, encumbrances, planning matters, statutory obligations, adverse orders, tenancies, information and statistics supplied, sales off, disputes and litigation, rights of entry to maintain and repair, absence of

adverse replies, electricity sub-stations and shop leases, leasehold property, way leaves, telecommunications and works undertaken. In addition, warranties for 20 years have been given to both parties in respect of claims for asbestos and a warranty not exceeding £100,500,000 for up to 20 years in respect of environmental pollution has been given to One Vision Housing Limited. There is currently no liability. However, the Council has set aside resources in an earmarked reserve in case it is required to pay out under these warranties.

- Investment properties have been estimated using the identifiable criteria under IFRS of being held for rental income or for capital appreciation. These properties have been assessed using these criteria, which is subject to interpretation.
- The Council has examined its leases and classified them as either operational or finance leases. In some cases, the lease transaction is not always conclusive, and the Council uses judgement in determining whether the lease is a finance lease arrangement that transfers substantially all the risks and rewards incidental to ownership. In reassessing the lease, the Council has estimated the implied interest rate within the lease to calculate interest and principal payments.
- The Council does not recognise Voluntary Aided, Academies or Free schools on its Balance Sheet. All other types of school are recognised on the Council's Balance Sheet.

4 **ASSUMPTIONS MADE ABOUT THE FUTURE AND OTHER MAJOR SOURCES OF ESTIMATION UNCERTAINTY**

The preparation of financial statements requires management to make judgements, estimates and assumptions that amounts reported for assets and liabilities as at the balance sheet date and the amounts reported for the revenues and during the year. However, the nature of estimation means that actual outcomes could differ from those estimates.

The key judgements and estimation uncertainty that have a significant risk of causing material adjustment to the carrying of assets and liabilities within the next financial year are as follows (note that the percentages quoted are for illustrative purposes only and are not an indication of the potential impact):

Item	Uncertainties	Effect if Actual Results Differ from Assumptions
Property, Plant and Equipment	<p>Asset valuations are based on market prices and are periodically reviewed to ensure that the Council does not materially misstate its non-current assets.</p> <p>Assets are depreciated over useful lives that are dependent on assumptions about the level of repairs and maintenance that will be incurred in relation to individual assets. The current economic climate makes it uncertain that the Authority will be able to sustain its current spending on repairs and maintenance, bringing into doubt the useful lives assigned to assets.</p> <p>The total value of PP&E as at 31 March 2022 is £501.885m.</p>	<p>A reduction in the estimated valuations would result in reductions to the Revaluation Reserve and / or a loss recorded as appropriate in the Comprehensive Income and Expenditure Statement.</p> <p>A 10% reduction in Net Book Value would equate to £50.2m.</p> <p>If the useful life of assets is reduced, depreciation increases and the carrying amount of the assets falls.</p> <p>It is estimated that the annual depreciation charge for assets would increase by £1.086m for every year that useful lives had to be reduced.</p>
Investment Properties	<p>The Council's valuers use valuation techniques to determine the fair value of investment property.</p> <p>The total value of Investment Properties as at 31 March 2022 is £32.338m.</p>	<p>Estimated fair values may differ from the actual prices that could be achieved in an arm's length transaction at the reporting date.</p> <p>A 10% reduction in Net Book Value would equate to £3.2m.</p>

<p>Provision for NNDR Checks, Challenges & Appeals</p>	<p>A provision has been made in respect of checks, challenges and appeals against the rateable value of business properties. The provision represents the best estimate of the amount that would be repaid to businesses in respect of business rates charged up to 31 March 2022. The total provision recorded on the Collection Fund is £21.353m (Sefton's share is £21.140m).</p> <p>This estimate has been calculated using the Valuation Office Agency (VOA) list of appeals outstanding on the 2010 Rating List and a forecast of potential risk of checks, challenges, and appeals over the life of the 2017 Rating List.</p> <p>The actual number and value of successful appeals may be materially different from the experience of previous rating lists and settled appeals.</p>	<p>An increase of 1% in the reduction in Rateable Value on appeals outstanding against the 2010 Rating List would require an increase of £0.500m in the total provision (Sefton's share would be £0.495m).</p> <p>An increase of 1% in the reduction in Rateable Value on check, challenge, or appeal against the 2017 Rating List at 31 March 2022 would require an increase of £2.977m in the total provision (Sefton's share would be £2.947m).</p>
<p>Pensions Liability</p>	<p>Estimation of the net liability to pay pensions depends on a number of complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets. A firm of consulting actuaries is engaged to provide the Authority with expert advice about the assumptions to be applied.</p> <p>As at 31 March 2022 the value of assets was £1,145,646m and liabilities was £1,572,508m. The net liability is therefore £426,862m.</p>	<p>The effects on the net pension liability of changes in individual assumptions can be measured.</p> <p>The impact of changes in individual assumptions are shown in Note 49, as required by the Code of Practice.</p>
<p>Arrears</p>	<p>At 31 March 2022, Sefton had a net balance of sundry debtor accounts issued by the Authority but not yet paid of £27.569m. A review of significant balances suggested that an impairment of doubtful debts of approximately 15% (£4.029m) was appropriate for these accounts.</p> <p>At 31 March 2022, Sefton had a balance of Council Tax arrears (including Court Costs) of £32.691m (Sefton's share only). A review of significant balances suggested that an impairment of doubtful debts of approximately 76% (£24.749m) was appropriate for these accounts.</p> <p>At 31 March 2022, Sefton had a balance of NNDR arrears (including Court Costs) of £9.069m (Sefton's share only). A review of significant balances suggested that an impairment of doubtful debts of approximately 93% (£8.402m) was appropriate for these accounts.</p> <p>At 31 March 2023, Sefton had a balance of Housing Benefit arrears of £5.555m. A review of significant balances suggested that an impairment of doubtful debts of approximately 43% (£2.394m) was appropriate for these accounts.</p> <p>However, in the current economic climate it is possible that such allowances would not be sufficient.</p>	<p>If collection rates were to deteriorate, an increase of 10% in the amount of the impairment of doubtful debts would require an additional £7.248m to be set aside as an allowance.</p>

5 EXPENDITURE AND INCOME ANALYSED BY NATURE

2020/2021 £000s		2021/2022 £000s

Adjustments for Capital Purposes

Adjustments for capital purposes – this column adds in depreciation and impairment and revaluation gains and losses in the services line, and for:

- **Other operating expenditure** – adjusts for capital disposals with a transfer of income on disposal of assets and the amounts written off for those assets.
- **Financing** and investment income and expenditure – the statutory charges for capital financing i.e. Minimum Revenue Provision and other revenue contributions are deducted from other income and expenditure as these are not chargeable under generally accepted accounting practices.
- **Taxation and non-specific grant income and expenditure** – capital grants are adjusted for income not chargeable under generally accepted accounting practices. Revenue grants are adjusted from those receivable in the year to those receivable without conditions or for which conditions were satisfied throughout the year. The Taxation and Non-Specific Grant Income and Expenditure line is credited with capital grants receivable in the year without conditions or for which conditions were satisfied in the year.

Change for the Pensions Adjustments

Net change for the removal of pension contributions and the addition of IAS 19 Employee Benefits pension related expenditure and income:

- For **services** this represents the removal of the employer pension contributions made by the authority as allowed by statute and the replacement with current service costs and past service costs.
- For **Financing and investment income and expenditure** – the net interest on the defined benefit liability is charged to the CIES.

Other Differences

Other differences between amounts debited/credited to the Comprehensive Income and Expenditure Statement and amounts payable/receivable to be recognised under statute:

- For **Financing and investment income and expenditure** the other differences column recognises adjustments to the General Fund for the timing differences for premiums and discounts.
- The charge under **Taxation and non-specific grant income and expenditure** represents the difference between what is chargeable under statutory regulations for council tax and NDR that was projected to be received at the start of the year and the income recognised under generally accepted accounting practices in the Code. This is a timing difference as any difference will be brought forward in future Surpluses or Deficits on the Collection Fund.

In addition, this includes differences between how expenditure and income is reported to management and how it needs to be shown in the Income and Expenditure Account, e.g. Public Health Grant and Prudential Borrowing costs charged to Services.

7 ADJUSTMENTS BETWEEN ACCOUNTING BASIS AND FUNDING BASIS UNDER REGULATIONS

This note details the adjustments that are made to the total comprehensive income and expenditure recognised by the Authority in the year in accordance with proper accounting practice to the resources that are specified by statutory provisions as being available to the Authority to meet future capital and revenue expenditure.

Descriptions of the reserves that the adjustments are made against can be found in the relevant notes for each reserve.

Adjustments in 2021/2022	General Fund Balance £000	Capital Receipts Reserve £000	Capital Grants Unapplied £000	Unusable Reserves £000
Adjustments primarily involving the Capital Adjustment Account:				
<u>Reversal of items debited or credited to the Comprehensive Income and Expenditure Statement:</u>				
Charges for depreciation of non-current assets	-20,634			20,634
Revaluation losses on non-current assets	-636			636
Movements in the market value of Investment Properties	3,076			-3,076
Amortisation of intangible assets	-448			448
Capital grants and contributions applied	8,679			-8,679
Revenue expenditure funded from capital under statute - Gross	-3,708			3,708
Revenue expenditure funded from capital under statute – Related Capital Grants and Contributions	3,579			-3,579
Amounts of non-current assets written off on disposal or sale as part of the gain/loss on disposal to the Comprehensive Income and Expenditure Statement	0			0
Amortisation of Deferred Income re. Crosby PFI Scheme	107			-107
<u>Insertion of items not debited or credited to the Comprehensive Income and Expenditure Statement:</u>				
Statutory provision for the financing of capital investment	6,557			-6,557
Capital expenditure charged against the General Fund	302			-302
Adjustments primarily involving the Capital Grants Unapplied Account:				
Capital grants and contributions unapplied credited to the Comprehensive Income and Expenditure Statement	13,079		-13,079	
Reversal of capital grants and contributions unapplied previously credited to the Comprehensive Income and Expenditure Statement	-2,716		2,716	
Application of grants to capital financing transferred to the Capital Adjustment Account			9,243	-9,243
Adjustments primarily involving the Capital Receipts Reserve:				
Transfer of cash sale proceeds credited as part of the gain/loss on disposal to the Comprehensive Income and Expenditure Statement	10	-10		
Transfers to Usable Capital Receipts not relating to the disposal of assets	875	-875		
Use of the Capital Receipts Reserve to finance new capital expenditure		1,089		-1,089

Adjustments in 2021/2022 Continued	General Fund Balance £000	Capital Receipts Reserve £000	Capital Grants Unapplied £000	Unusable Reserves £000
Adjustment primarily involving the Financial Instruments Adjustment Account: Amount by which finance costs charged to the Comprehensive Income and Expenditure Statement are different from finance costs chargeable in the year in accordance with statutory requirements	59			-59
Adjustment primarily involving the Pooled Investment Funds Adjustment Account: Amount by which Financial Instruments held under Fair Value through Profit & Loss are subject to MHCLG statutory over-ride.	944			-944
Adjustments primarily involving the Pensions Reserve: Reversal of items relating to retirement benefits debited or credited to the Comprehensive Income and Expenditure Statement	-52,582			52,582
Employer's pensions contributions and direct payments to pensioners payable in the year	22,178			-22,178
Adjustments primarily involving the Collection Fund Adjustment Account: Amount by which council tax income credited to the Comprehensive Income and Expenditure Statement is different from council tax income and non-domestic rates income calculated for the year in accordance with statutory requirements	31,834			-31,834
Adjustment primarily involving the Accumulated Absences Account: Amount by which officer remuneration charged to the Comprehensive Income and Expenditure Statement on an accruals basis is different from remuneration chargeable in the year in accordance with statutory requirements	-192			192
Adjustment primarily involving the Dedicated Schools Grant Adjustment Account: Transfer of Dedicated Schools Grant (DSG) over/(underspend) to the DSG Adjustment Account	-4,482			4,482
Total Adjustments	5,881	204	-1,120	-4,965

The table below provides comparative figures for 2020/2021:

Adjustments in 2020/2021	General Fund Balance £000	Capital Receipts Reserve £000	Capital Grants Unapplied £000	Unusable Reserves £000
Adjustments primarily involving the Capital Adjustment Account: <u>Reversal of items debited or credited to the Comprehensive Income and Expenditure Statement:</u>				
Charges for depreciation of non-current assets	-18,799			18,799
Revaluation losses on non-current assets	-6,065			6,065
Movements in the market value of Investment Properties	-4,631			4,631
Amortisation of intangible assets	-597			597
Capital grants and contributions applied	14,540			-14,540
Revenue expenditure funded from capital under statute - Gross	-4,050			4,050
Revenue expenditure funded from capital under statute – Related Capital Grants and Contributions	3,120			-3,120

Adjustments in 2020/2021 Continued	General Fund Balance £000	Capital Receipts Reserve £000	Capital Grants Unapplied £000	Unusable Reserves £000
Amounts of non-current assets written off on disposal or sale as part of the gain/loss on disposal to the Comprehensive Income and Expenditure Statement	-2,060			2,060
Amounts of non-current assets written off on derecognition of land as part of the gain/loss on disposal to the Comprehensive Income and Expenditure Statement	-3,629			3,629
Amortisation of Deferred Income re. Crosby PFI Scheme	107			-107

Statutory provision for the financing of capital investment	6,159			-6,159
Capital expenditure charged against the General Fund	62			-62
Adjustments primarily involving the Capital Grants Unapplied Account:				
Capital grants and contributions unapplied credited to the Comprehensive Income and Expenditure Statement	6,243		-6,243	
Reversal of capital grants and contributions unapplied previously credited to the Comprehensive Income and Expenditure Statement	-57		57	
Application of grants to capital financing transferred to the Capital Adjustment Account	0		1,201	-1,201
Adjustments primarily involving the Capital Receipts Reserve:				
Transfer of cash sale proceeds credited as part of the gain/loss on disposal to the Comprehensive Income and Expenditure Statement	3,998	-3,998		
Transfers to Usable Capital Receipts not relating to the disposal of assets	753	-753		
Use of the Capital Receipts Reserve to finance new capital expenditure		1,164		-1,164
Adjustment primarily involving the Financial Instruments Adjustment Account:				
Amount by which finance costs charged to the Comprehensive Income and Expenditure Statement are different from finance costs chargeable in the year in accordance with statutory requirements	59			-59
Adjustment primarily involving the Pooled Investment Funds Adjustment Account:				
Amount by which Financial Instruments held under Fair Value through Profit & Loss are subject to MHCLG statutory over-ride.	-38			38
Adjustments primarily involving the Pensions Reserve:				
Reversal of items relating to retirement benefits debited or credited to the Comprehensive Income and Expenditure Statement	-42,562			42,562
Employer's pensions contributions and direct payments to pensioners payable in the year	21,614			-21,614
Adjustments primarily involving the Collection Fund Adjustment Account:				
Amount by which council tax income credited to the Comprehensive Income and Expenditure Statement is different from council tax income and non-domestic rates income calculated for the year in accordance with statutory requirements	-49,188			49,188

Adjustments in 2020/2021 Continued	General Fund Balance £000	Capital Receipts Reserve £000	Capital Grants Unapplied £000	Unusable Reserves £000
Adjustment primarily involving the Accumulated Absences Account: Amount by which officer remuneration charged to the Comprehensive Income and Expenditure Statement on an accruals basis is different from remuneration chargeable in the year in accordance with statutory requirements	-656			656
Adjustment primarily involving the Dedicated Schools Grant Adjustment Account: Transfer of Dedicated Schools Grant (DSG) over/(underspend) to the DSG Adjustment Account	-2,230			2,230
Total Adjustments	-77,907	-3,589	-4,985	86,479

8 **OTHER OPERATING INCOME**

An analysis of amounts of Other Income not included in the Net Cost of Services but credited to the Comprehensive Income and Expenditure Statement is shown below:

<u>2020/2021</u> £000s	<u>Other Income</u>	<u>2021/2022</u> £000s
-744	Capital Receipts re. Former Council Dwellings	-775
-9	Other Capital Receipts not relating to the Disposal of Council Assets	-100
-197	Sefton's share of a VAT Shelter Agreement with One Vision Housing	-98
-950		-973

9 **INTEREST PAYABLE AND SIMILAR CHARGES**

Charges to the Comprehensive Income and Expenditure Account during the year were as follows:

<u>2020/2021</u> £000s		<u>2021/2022</u> £000s
7,081	External Interest Charges	6,597
334	Finance Charge re. Leasing Agreements	317
651	Finance Charge re. PFI Schemes	354
8,066	Total	7,268

10 **POOLED BUDGETS**

Under section 75 of the National Health Service Act 2006, local authority and NHS bodies are able to enter into joint working arrangements with the NHS. Pooled funds, with resources provided by local and health authorities, offer the opportunity for the provision of seamless health and social services. Partners remain accountable for their services that are part of the pooled budget. A key feature of the pool is that the use of resources will be dictated by the needs of clients, rather than respective contributions.

Provision of intensive care packages for service users with a learning disability

Sefton Council has a joint working arrangement with CCG's in Sefton for the provision of intensive care packages for service users with a learning disability. Contributions of £1.271m from CCG's (£1.349m in 2020/2021) and £1.204m from Sefton Council (£1.648m in 2020/2021), £2.475m in total (£2.997m in 2020/2021), have been fully expended on purchasing of care packages to meet the health and social care needs of this client group. Sefton's contribution has been financed from within the

Adult Social Care budget and is included in the Comprehensive Income and Expenditure Statement under this heading.

Provision of an Integrated Community Equipment Service

Sefton has a joint working arrangement within South Sefton Clinical Commissioning Group (CCG) for the provision of an Integrated Community Equipment Service, providing an appropriate range of equipment to meet assessed needs and to support intermediate care, hospital discharge, rehabilitation and independent living in the community. Contributions of £0.783m from South Sefton CCG (£0.722m in 2020/2021) and £0.766m from Sefton Council (£0.721m in 2020/2021); £1.549m in total (£1.443m in 2020/21), have been fully expended on the provision of this service. Sefton's contribution has been financed from within the Adult Social Care budget and is included in the Comprehensive Income and Expenditure Statement under this heading.

Better Care Fund

The Council operates a pooled fund in partnership with South Sefton Clinical Commissioning Group (CCG) and Southport and Formby CCG. The fund is hosted by the Council.

The Better Care Fund creates a local single pooled budget to incentivise the integration of health and social care and encourage the NHS and Local Government to work more closely together around people, placing their well-being as the focus of health and care services. The key themes underpinning the agreement are:

- Integrated Community Care - building on the existing Virtual Ward and Care Closer to Home initiatives to have a comprehensive, fully integrated model of care built around the communities in localities.
- Long Term Adult Social Care –supporting packages of care and personal budgets and providing additional capacity in social work
- Intermediate Care and Reablement – seeking to reduce hospital admissions and re-admissions, reduce the need for ongoing care and support by assisting with regaining of independence and to reduce the number of long term residential and nursing care placements
- Early Years.
- Early Intervention and Prevention.
- Ageing Well
- Integration and Transformation

The Improved Better Care Fund (iBCF) has also been used to Protect Social Care Fees and used to fund a pilot Rapid Response Reablement Service which has now become a permanent service.

Financial performance in the year was as follows:

<u>2020/2021</u> £'000		<u>2021/2022</u> £'000
	<u>Contributions</u>	
-15,247	South Sefton CCG	-16,782
-10,205	Southport & Formby CCG	-12,072
-20,087	Sefton Council	-20,339
-45,539	Total Contributions	-49,193
43,045	Total Expenditure	48,227
-2,494	Variance	-966

The variance of £0.966m relates to £0.866m of capital expenditure in the pooled fund arrangement and £0.099m of Integration and Transformation expenditure. The 2021/22 Disabled Facilities grant allocation of £4.823m was utilised to fund expenditure of £3.957m in 2021/22, the balance will be carried forward to be used in future years as part of 3-year Capital programming. The surplus from Integration and Transformation posts of £0.099m was due to delay in recruitment to part year posts, this will be placed in reserve and utilised in 2022/23 as agreed by Health & Wellbeing Board.

11 EXTERNAL AUDIT COSTS

The following fees relating to external audit and inspection were charged to the Comprehensive Income and Expenditure Account.

<u>2020/2021</u> £000		<u>2021/2022</u> £000
98	Fees for external audit services carried out by the appointed auditors	153
16	Fees payable for the certification of grant returns	18
0	Fees payable in respect of any other services	0
114	Total	171

12 MEMBERS' ALLOWANCES

The Council has a Cabinet style management structure with a scheme for Members' Allowances. The Council is made up of 66 Members. There were 74 Members who were paid allowances in 2021/22 as some were only for part of the year (66 members in 2020/21) as shown below:

<u>2020/2021</u> £000s		<u>2021/2022</u> £000s
622	Basic Allowances	636
232	Special Responsibility Allowances	244
0	Expenses	0
854	Total	880

No Members were paid a salary in either year.

13 EXIT PACKAGES / TERMINATION BENEFITS

The number of exit packages with total cost per band and the total cost of the compulsory and other redundancies are set out in the tables below:

Exit Packages in 2021/2022

<u>Exit Package Cost Band</u>	<u>Number of Compulsory Redundancies</u>	<u>Number of Other Departures Agreed</u>	<u>Total Number of Exit Packages by Cost Band</u>	<u>Total Cost of Exit Packages in each Band</u>
£0 - £20,000	1	61	62	£0.490m
£20,001 - £40,000	0	13	13	£0.359m
£40,001 - £60,000	0	1	1	£0.047m
Total	1	75	76	£0.896m

Exit Packages in 2020/2021

<u>Exit Package Cost Band</u>	<u>Number of Compulsory Redundancies</u>	<u>Number of Other Departures Agreed</u>	<u>Total Number of Exit Packages by Cost Band</u>	<u>Total Cost of Exit Packages in each Band</u>

£60,001 - £80,000	1	0	1	£0.062m
Total	30	38	68	£0.637m

14 EMPLOYEES' EMOLUMENTS IN EXCESS OF £50,000

The Accounts and Audit (England) Regulations require the Authority to disclose the number of employees (including teaching staff) whose remuneration in the year was £50,000 or more in bands of £5,000. The definition of remuneration excludes employer pension contributions but includes:

- (i) all taxable amounts paid to, or receivable by, employees, including sums due by way of expenses allowances;
- (ii) the estimated money value of all other benefits received by employees, otherwise than in cash; and,
- (iii) redundancy payments paid to employees who have left the employment of the Authority during the year.

Readers should note that the tables below include Senior Officers' remuneration, which is also disclosed separately in Note 18.

Teaching Staff (including Voluntary Aided Schools)				
<u>2020/2021</u>		<u>Remuneration Band</u>	<u>2021/2022</u>

- f) The previous Executive Director – Place left on 21st April 2020. The previous Executive Director – Projects was appointed to the post on 1st February 2021.
- g) The Head of Adult Social Care post was appointed to on an interim basis on 1st July 2020. It had previously been vacant.
- h) The previous Head of Education Excellence left their post on 18th May 2020. The post has remained vacant but has been covered on an interim basis by an external contractor for the remainder of the year.
- i) The previous Head of Locality Services left their post on 17th December 2020. The post remained vacant for the remainder of the year.

16 DEDICATED SCHOOLS' GRANT

The council's expenditure on schools is funded primarily by grant monies provided by the Education Funding Agency, the Dedicated Schools Grant (DSG). DSG is ring-fenced and can only be applied to meet expenditure properly included in the Schools' Budget, as defined in the School Finance and Early Years (England) Regulations 2015. The Schools' Budget includes elements for a range of educational services provided on an authority-wide basis and for the Individual Schools Budget, which is divided into a budget share for each maintained school.

Details of the deployment of DSG receivable for 2021/2022 are as follows:

	<u>Central Expenditure</u> £000s	<u>Individual Schools Budget</u> £000s	<u>Total</u> £000s
Final DSG for 2021/22 before academy and high needs recoupment			-233,804
Academy and high needs figure recouped for 2021/22			66,595
Total DSG after Academy and high needs recoupment for 2021/22			-167,209
Plus: Brought forward from 2020/21			-0
Less: Carry forward to 2022/23 agreed in advance			0
Agreed initial budgeted distribution in 2021/22	-28,826	-138,383	-167,209

At 1 April 2020	275,644	5,613	165,804	22,862	16,728	0	486,651
At 31 March 2021	267,229	5,571	169,438	23,098	4,379	0	469,715

Depreciation

Depreciation is provided for on the straight-line basis over an asset's estimated useful life as detailed below:

Asset Type	Basis	Estimated Life
Other Land and Buildings	Straight-line	10 to 75 Years
Vehicles, Plant and Equipment (Computers)	Straight-line	5 Years
Vehicles, Plant and Equipment (Other)	Straight-line	5 to 10 Years
Infrastructure Assets (Capitalised Highways Maintenance)	Straight-line	10 Years
Infrastructure Assets (Other)	Straight-line	40 Years
Community Assets	Not Depreciated	-
Surplus Assets	Not Depreciated	-
Assets Under Construction	Not Depreciated	-

The usual estimated useful life of different categories of Other Land and Buildings assets are detailed below. For individual assets the valuer may determine that a lower estimated useful life is more appropriate for that asset:

Asset Type	Estimated Life
Southport Cultural Centre (The Atkinson)	75 Years
Schools and Educational Establishments	50 Years
Civic Buildings	50 Years
Social Care Establishments	40 to 50 Years
Libraries	40 Years
Leisure Facilities	30 Years
Garages / Depots	10 Years

Capital Commitments

At 31 March 2022, the Authority has entered into a number of contracts for the construction or enhancement of Property, Plant and Equipment in 2022/2023 and future years which are budgeted to cost £18.418m. Similar commitments at 31 March 2021 were £7.170m. The major commitments are:

Scheme	Expenditure approved and contracted at 31 March 2022 £000s
LED Street Lighting Upgrade	10,000
Marine Lake Events Centre	3,176
Crosby Lakeside Redevelopment	1,545
Highways Accessibility Programme - Scarisbrick Avenue	822
Dunes Splashworld – Essential Repairs	565

Revaluations

Valuations are carried out as part of a rolling programme over a five-year cycle.

All freehold and leasehold land and properties which comprise the Authority's property portfolio have been valued by Mr. A. Bond (MRICS). Mr Bond is part of the Council's own qualified in-house valuers. The only exception is for the Strand Shopping Centre which was valued by Andrew Watson (MRICS) who works for an external valuation company, GVA.

Valuations of land and buildings were carried out in accordance with the methodologies and bases for estimation set out in the professional standards of the Royal Institution of Chartered Surveyors.

The Council's own in-house valuers have considered valuation uncertainty and market instability insofar as those properties valued this year are concerned and reflected any changes in the valuations supplied.

The table below will show the dates and amounts of valuations for each class of Property, Plant and equipment included in the balance sheet:

	Other Land and Buildings	Vehicles Plant and Equipment	Infrastructure Assets	Community Assets	Surplus Assets	Assets Under Construction	Total
	£000s	£000s	£000s	£000s	£000s	£000s	£000s
Cost or Valuation							
<u>Valued at Current Value in:</u>							
2021/2022	166,876	0	0	0	6,321	0	173,197
2020/2021	32,287	0	0	0	1,011	0	33,298
2019/2020	13,961	0	0	0	1,979	0	15,940
2018/2019	102,471	0	0	0	309	0	102,780
2017/2018	2,321	0	0	0	579	0	2,900
Assets valued at Historic Cost	0	20,444	255,383	23,133	107	945	300,012
Assets not subject to Revaluation	6,978	0	0	0	0	0	6,978
At 31 March 2022	324,894	20,444	255,383	23,133	10,306	945	635,105

Notes:

- Surplus Assets shown as valued at Historic Cost relates to land valued at historic cost upon purchase.
- Other Land and Buildings not subject to revaluation mainly relates to office refurbishments being depreciated.

19 HERITAGE ASSETS

A heritage asset is an asset that is held due to its historical, artistic, scientific, technological, or environmental qualities, and is maintained principally for its contribution to knowledge and culture.

Movements in Heritage Assets during the year were as follows:

<u>2020/2021</u>				<u>2021/2022</u>		
Art Collection	Other	Total		Art Collection	Other	Total
£000s	£000s	£000s		£000s	£000s	£000s
10,675	857	11,532	Balance at the start of the year	10,675	857	11,532
0	0	0	Additions (Expenditure)	0	0	0
0	0	0	Disposals	0	0	0
0	0	0	Revaluations	0	0	0
0	0	0	Depreciation	0	0	0
10,675	857	11,532	Balance at the end of the year	10,675	857	11,532

The Art Collection consists principally of a ceramic collection, a silver collection, works of art and an Egyptology collection and is described in more detail below. Other Heritage Assets consists of several war memorials and the art installation "Another Place".

CERAMICS

The Authority owns a large collection of ceramics and china. The collection consists of 163 pieces of Crown Derby "Imari", and 757 pieces of Tuscan Ware, and is mainly held at Bootle Town Hall with further collections at the Atkinson. Due to the age of the collection no accurate records are maintained

of how the collection was acquired. An inventory of the collection is made at both Bootle and Town Hall and the Atkinson.

A Collection Development Policy is in place which defines the scope of future collecting activity. When assets are bequeathed to the Authority appropriate documentation is completed to transfer the right of ownership to the Authority. It is not the Authority's policy to dispose of these assets although appropriate procedures and documentation are available for completion should an asset be disposed of. Loans of heritage assets are made to other registered museums and galleries.

Certain items are on public display within Bootle and Southport Town Halls and the Atkinson. Requests to view those items not on public display would require written request to be submitted.

The Authority has a conservation management policy and plan for heritage assets.

SILVER

The Authority owns a collection of silverware, consisting of an eclectic mix of cups, salvers, and civic regalia. The collection was principally acquired by donation. An inventory of the collection is held at both Bootle and Southport Town Halls.

The policy for acquisition, disposal, management, and public access of the silver collection is the same as for the ceramic collection. However, those assets in use, such as maces, are regularly reviewed for wear and tear that requires repair.

ARTWORKS

The Authority holds approximately 3,500 artworks at the Atkinson with a further 30,000 items of social and natural history. The gallery collection consists of paintings, prints, and sculpture. The museum collection consists of paintings, photographs, postcards, furniture, costume, natural history, archaeology, and Egyptology. The majority of assets were donated to the Authority, although some items were purchased, whilst others were transferred from other museums.

Some records of assets are held on various systems, but an ongoing project is in place to document all items on the Authority's collection management database. This process is documented within the Authority's Documentation Procedural Manual, a copy of which is available from the Authority.

The policy for acquisitions and disposals are contained within the Collection Development Policy for the Atkinson, copies of which are available from the Authority.

The Authority does loan such items to other galleries and museums. In addition, it may receive loans of artworks from other galleries and museums which are insured by the Council.

The Authority has a conservation management policy and plan for heritage assets. An Emergency Plan is in place in case of an incident of fire or flood.

The Art Collection is reported in the Balance Sheet at insurance valuation which is based on market values. The insurance valuation for the collection of oil paintings was last updated in 2005. The Authority considers that obtaining updated valuations for the collection would involve disproportionate cost. This is because of the diverse nature of the assets and the lack of comparable market values makes valuation expensive. As the valuations are for insurance purposes only, there is an inherent limitation on the precise valuation of Heritage Assets.

20 INVESTMENT PROPERTY

The following items of income and expense have been accounted for in the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement:

<u>2020/2021</u> £000s		<u>2021/2022</u> £000s
-2,320	Rental Income from Investment Property	-2,680
124	Direct operating expenses arising from Investment Property	221
-2,196	Net gain	-2,459

There are no restrictions on the Authority's ability to realise the value inherent in its investment property or on the Authority's right to the remittance of income and the proceeds of disposal.

At 31 March 2022, the Authority had no contractual obligations for the construction or enhancement of investment property in 2022/2023 and future years. There were also no similar commitments at 31 March 2021.

The following table summarises the movement in fair value of investment properties over the year:

<u>2020/2021</u> £000s		<u>2021/2022</u> £000s
36,181	Balance at the start of the year	29,991
1,079	Additions – Subsequent expenditure	1,052
0	Disposals	0
-4,631	Net gains / losses (-) from fair value adjustments	3,076
	<u>Reclassifications:</u>	
-1,118	- To Other Land and Buildings	0
-270	- To Surplus Assets	-1,781
-1,250	- To Assets Held for Sale	0
29,991	Balance at the end of the year	32,338

Fair Value Hierarchy

All the Council's investment properties have been value assessed as Level 2 on the fair value hierarchy for valuation purposes (see Note 56 Statement of Accounting Policies (i) for an explanation of the fair value levels).

Valuation Techniques Used to Determine Level 2 Fair Values for Investment Property

The fair value of investment property has been measured using inputs other than quoted prices that are observable for the asset, either directly or indirectly, assets being valued using applicable comparative evidence.

In estimating the fair value of the Council's properties, the highest and best use has been considered as part of the valuation process.

21 INTANGIBLE ASSETS

Intangible assets held by the Authority relate entirely to purchased software licences. Expenditure on purchased software licences is amortised to the relevant service revenue accounts on a straight-line basis over an estimated economic life of three years.

The amortisation of £0.448m charged to revenue in 2021/2022 (£0.597m in 2020/2021) was charged to the ICT Administration, Adult Social Care and Green Sefton cost centres and then absorbed as an overhead across all the service headings in the Net Expenditure of Services. It is not possible to quantify exactly how much of the amortisation is attributable to each service heading.

At 31 March 2022, the Authority had contractual obligations for the construction or enhancement of intangible assets in 2022/2023 and future years of £0.376m. There were also no similar commitments at 31 March 2021.

Movements in purchased software licences during the year were as follows:

<u>2020/2021</u> £000s	Purchased Software Licences	<u>2021/2022</u> £000s
2,986	Gross Carrying Amount	0
-1,297	Accumulated Amortisation	0
1,689	Net carrying amount at start of the year	0
0	Purchases in the year	1,345
-597	Amortisation in the year	-448
0	Revaluations	0
1,092	Net carrying amount at the year end	897
	<u>Comprising:</u>	
2,986	Gross Carrying Amount	1,345
-1,894	Accumulated Amortisation	-448
1,092		897

22 **CAPITAL EXPENDITURE AND CAPITAL FINANCING**

The total amount of capital expenditure incurred in the year is shown in the table below together with the resources that have been used to finance it. Where capital expenditure is to be financed in future years by charges to revenue as assets are used by the Authority, the expenditure results in an increase in the Capital Financing Requirement (CFR), a measure of the capital expenditure incurred historically by the Authority that has yet to be financed. The movements in CFR is analysed in the second part of this note.

<u>2020/2021</u> £000s	Capital Financing Requirement	<u>2021/2022</u> £000s
230,300	Opening Capital Financing Requirement	230,150
	<u>Capital Expenditure</u>	
21,074	Property, Plant and Equipment	26,432
1,079	Investment Properties	1,051
0	Intangible Assets	1,345
4,050	Revenue expenditure funded from capital under statute	3,708
	<u>Sources of Finance</u>	
-1,164	Capital Receipts	-1,089
-18,860	Grants and Contributions	-21,501
-62	Direct Revenue Contributions	-302
	<u>Provision for Repayment of Debt</u>	
-6,159	Statutory Provision for financing capital investment	-6,557
-108	Amortisation of Deferred Income re. Crosby PFI	-107
230,150	Closing Capital Financing Requirement	233,130

<u>2020/2021</u> £000s	Explanation of movements in the year	<u>2021/2022</u> £000s
	<u>Decrease (-) / Increase in underlying need to borrow:</u>	
6,117	Increase in underlying need to borrow	9,644
-6,267	Provision for Repayment of Debt	-6,664
150	Increase (+) / Decrease (-) in Capital Financing Requirement	2,980

23 LONG TERM INVESTMENTS

<u>31 March</u> <u>2021</u> £000s		<u>31 March</u> <u>2022</u> £000s
5,376	Churches & Charities Local Authority LAMIT Property Fund	6,320
1	Sefton New Directions (see Note 54 for more details)	1
1,125	Sandway Homes (see Note 54 for more details)	6,743
6,502	Total	13,064

The Long-Term Investment in Sandway Homes relates to loans made to the Company to cover its working capital requirements (as approved by the Council's Cabinet). The Company pays interest on these loans at an agreed commercial rate and the loans will be repaid across the period of its Business Plan covering Phase 1 of its development programme.

In addition to the shares in Sefton New Directions, the Council is the sole shareholder in Sandway Homes (£100), and Sefton Hospitality Operation Limited (£1). The investments in all three subsidiaries is shown at amortised cost.

24 LONG TERM DEBTORS

<u>31 March</u> <u>2021</u> £000s		<u>31 March</u> <u>2022</u> £000s
87	<u>Transferred Services</u> Merseyside Residuary Body	80
87		80
5,048	<u>Other</u> Long Term Sundry Debtor Accounts	7,927
72	Loan to Plaza Community Cinema	65
5,120		7,992
5,207	Total	8,072

25 SHORT TERM INVESTMENTS

Sefton held no Short-Term Investments with banks at the balance sheet date. However, accrued interest receipts on the Council's Long-Term Investments are shown as Short-Term Investments in the Balance Sheet as shown below:

<u>31 March</u> <u>2021</u> £000s		<u>31 March</u> <u>2022</u> £000s
163	Accrued Interest Receipts	0
163	Total	0

26 ASSETS HELD FOR SALE

<u>2020/2021</u> £000s	Movements in the year	<u>2021/2022</u> £000s
0	Balance Outstanding at start of the year	11,513
	<u>Assets newly classified as held for sale:</u>	
2,264	- Other Land and Buildings	200
7,999	- Surplus Assets	2,185
1,250	- Investment Properties	0
	<u>Assets declassified as held for sale:</u>	
0	- Surplus Assets	-1,894
11,513	Balance Outstanding at the year-end	12,004

Fair Value Hierarchy

The Council's Assets Held for Sale are valued using the fair value hierarchy for valuation purposes (see Note 56 Statement of Accounting Policies (i) for an explanation of the fair value levels).

Valuation Techniques Used to Determine Level 2 Fair Values for Assets Held for Sale

The fair value of Assets Held for Sale has been measured at level 2 using inputs other than quoted prices that are observable for the asset, either directly or indirectly, assets being valued using applicable comparative evidence.

In estimating the fair value of the Council's properties, the highest and best use has been considered as part of the valuation process.

27 SHORT TERM DEBTORS AND PREPAYMENTS

<u>31 March</u> <u>2021</u> £000s	Short Term Debtors	<u>31 March</u> <u>2022</u> £000s
	<u>Amounts Falling Due Within One Year</u>	
8,440	Central Government Bodies	3,292

1,017	Other	865
33,154	Net Debtors	19,156

28 CASH AND CASH EQUIVALENTS

The balance of Cash and Cash Equivalents is made up of the following elements:

31 March 2021 £000s		31 March 2022 £000s
59	Cash in hand of officers	64
2,761	Bank current accounts	4,539
65,266	Short-term deposits with banks and building societies	93,725
68,086	Total Cash and Cash Equivalents	98,328

The Bank Current Accounts balance includes funds held by a third party on the Council's behalf relating to the operation of the Strand Shopping Centre.

29 SHORT TERM CREDITORS

31 March 2021 £000s		31 March 2022 £000s
-4,752	HM Revenue and Customs	-4,682
-20,100	Government Departments	-14,787

0	COVID Additional Relief Fund	-4,478
0	Council Tax Energy Rebate Scheme	-17,140
-6,649	Other entities and individuals	-9,033
-18,168	Total	-40,319

31 PROVISIONS

Movements in provisions during 2021/2022 were as follows:

		1 April 2021 £000s	Additions in Year £000s	Applied In Year £000s	Released In Year £000s	31 March 2022 £000s
(a)	Long-term Internal Insurance Cover	-4,613	-743	524	987	-3,845
(b)	Provision for NDR Appeals	-23,647	-789	3,296	0	-21,140
		-28,260	-1,532	3,820	987	-24,985

Movements in provisions during 2020/2021 were as follows:

		1 April 2020 £000s	Additions in Year £000s	Applied In Year £000s	Released In Year £000s	31 March 2021 £000s
	Long-term					
(a)	Internal Insurance Cover	-3,997	-1,298	682	0	-4,613
(b)	Provision for NDR Appeals	-18,702	-6,693	1,748	0	-23,647
		-22,699	-7,991	2,430	0	-28,260

(a) **Internal Insurance Cover** - The purpose of the insurance provision is to enable certain known uninsured losses to be met centrally, i.e., losses arising from the excesses that apply to the Authority's main insurance policies (Public Liability, Property, Employers Liability and Motor Insurance). The amount required to cover these uninsured losses is based on claims actually reported as outstanding. The timing of settlement of these claims is uncertain but is likely to be over a number of years. Based on an assessment by Sefton's insurance advisors (Arthur J. Gallagher Insurance Brokers), the resources available in the Authority's Insurance Fund are in excess of known liabilities.

Included within this balance is an amount to cover potential liabilities following the announcement on the 13 November 2012 that the Municipal Mutual Insurance Limited (MMI) Scheme of Arrangement has now been triggered.

MMI was formed as a limited company by guarantee in 1903 and by 1974 some 90% of local authorities were insured by the company. Due to dramatic increases in claims, coincidental with a fall in the property market and poor investment environment, along with its inability to raise capital because of its mutual status, MMI's net assets fell below the minimum regulatory solvency requirement and the company went into run-off in September 1992.

The amount paid to the Council plus the amount outstanding under this arrangement is £3.846m, and under the Scheme or Arrangement a levy is chargeable on this amount. After the imposition of the levy, the Council is also liable to contribute to each and every subsequent claim paid by MMI on the Council's behalf, thereby creating an on-going financial obligation. The initial levy requested by the scheme administrator from the Council is a percentage of the total sum paid on behalf of the Council by MMI since 30 September 1992, less the first £50,000 of such payments. As a result, and following assessment by a scheme actuary, a levy rate of 25% is being applied creating a liability to the Council of £0.901m (£0.541m of which was paid in January 2014 with £0.360m paid in May 2016). There is a possibility that the ultimate levy rate could eventually be higher than this and as such the Council has made a specific provision of an additional £0.478m million in the accounts to cover this potential liability, based on an assessment by Sefton's insurance advisors.

The liability upon the Council as a scheme creditor cannot be fully estimated at this stage for unknown claims incurred but not reported between 1974 and 1992. Whilst the Council has considered the financial impact in producing its Statement of Accounts, by including resources in its Insurance Provision, there is a risk that the Council's financial liability could increase from this level.

(b) **Provision for NDR Appeals** – Following the introduction of business rates retention on 1 April 2013, the Council assumed the liability for refunding ratepayers who have successfully appealed against the rateable value of their properties. The timing of these refunds is uncertain but is expected to be made over several years (which is the reason why the whole provision is treated as long-term). The provision covers the Council's locally retained share of the liability which increased from 49% in 2016/17 to 99% in 2017/18 as a result of the Council's participation in the Liverpool City Region Business Rates Pilot Scheme from 1 April 2017. The Council's share of potential repayments has been estimated at £21.140m based on the rateable value of properties still subject to appeal on the 2010 Rating List and an assessment of future threats from checks, challenges, and appeals against the rateable value of properties on the 2017 Rating List at 31 March 2022 (£23.647m on 31 March 2021).

The provision made is the Council's best estimate of the actual liability as at the 31 March 2022. There is a potential risk that the value of refunds due as a result of checks, challenges and appeals lodged with the Valuation Office Agency will exceed the provision made in the accounts.

32 DEFERRED LIABILITIES

31 March 2021 £000s		31 March 2022 £000s
	Short Term	
-438	Merseyside Residuary Body	-438
-214	Finance Lease Liability – Crosby Baths PFI	-187
-183	Finance Lease Liability – Property, Plant and Equipment	-202
-107	PFI Deferred Income	-107
-942	Total Short Term	-934
	Long Term	
-1,750	Merseyside Residuary Body	-1,313
-1,859	Finance Lease Liability – Crosby Baths PFI	-1,671
-3,162	Finance Lease Liability – Property, Plant and Equipment	-2,960
-644	PFI Deferred Income	-537
-7,415	Total Long Term	-6,481

Wirral MBC manages debt on behalf of the former Merseyside Residuary Body. Sefton MBC (along with the other Merseyside Districts, Precepting and Levying Bodies), as a successor body, inherited debt relating to services transferred to its control. The amount outstanding in respect of Sefton MBC was £1.751m at 31 March 2022 (£2.188m at 31 March 2021).

33 TRUST FUNDS

The Council acts as Sole Trustee of a number of legacies and bequests. Details of the transactions and the Committees controlling the funds are shown below. In compliance with the Code, Trust Funds have been excluded from the Council's Balance Sheet.

Portfolio and Name of Trust	Balance at 1 April 2021 £	Income £	Expenditure £	Balance at 31 March 2022 £
<u>Children's Services</u>

<u>The balances are invested as follows:</u>				
Government Securities	300			300
Sefton Cash Balances	63,038			57,375
Total	63,338			57,675

Children's Services Trust Funds

The Educational Trust Funds aim to help in the advancement of education and training of young people within the Sefton area by providing financial assistance to those who have difficulty in paying fees and by the award of prizes as rewards to deserving students.

Netherton Green Trust

The Netherton Green Trust Fund was set up prior to 1974 as a bequest, converted into shares with the former Mersey Docks and Harbour Company. These were subsequently redeemed in 2005/2006. The original sum was applied towards the upkeep of an area within the Borough called Netherton Green.

Mayor of Sefton's Charity Fund

This fund has a year-end of 30 June. The opening balance included in the Trust Fund Statement above is therefore as at 1 July 2021. Also, the movements in the year relate to the transactions between 1 July 2021 and 30 June 2022. The opening balance in this note has been adjusted to reflect the Charity Fund's final accounts for 2020/2021.

34 **GENERAL FUND BALANCE**

The General Fund is the statutory fund into which all the receipts of an authority are required to be paid and out of which all liabilities of the authority are to be met, except to the extent that statutory rules might provide otherwise. These rules can also specify the financial year in which liabilities and payments should impact on the General Fund Balance, which is not necessarily in accordance with proper accounting practice. The General Fund Balance therefore summarises the resources that the Council is statutorily empowered to spend on its services or on capital investment (or the deficit of resources that the Council is required to recover) at the end of the financial year.

General Fund Balances arise due to planned contributions or underspends in previous years. Amounts held by schools are to fund expenditure in future years and as a prudent measure against future uncertainty. General Fund Balances attributable to the Council are held as a prudent measure against future uncertainty.

<u>2020/2021</u> £000s	Non-School General Fund Balances	<u>2021/2022</u> £000s

(l)	Other Earmarked Reserves	-5,426	-6,517	627	-11,316
	Total	-40,273	-64,976	6,936	-98,313

(a) **Environmental Warranty** - The Council has provided a 35-year environmental warranty for the land / property that has been transferred to One Vision Housing Limited. This warranty requires the Council to remediate any environmental contamination found on these sites during the life of the warranty. Resources are being set-aside over the coming years as a prudent measure against a potential cost.

(b) **Insurance Fund** – Any resources available in the Authority’s Insurance Fund in excess of known liabilities are included in an Earmarked Reserve.

(c) **Transforming Sefton** – The Council is currently undertaking a Transformation Programme to deliver customer focussed services through a high-performance culture whilst achieving significant ongoing savings. A reserve has been created to enable Sefton to progress the Programme over the

next few years. In addition, it will be used to fund initiatives to support economic development in the Borough.

(d) **Redundancy Reserve** – The Council may be required to make significant savings in future years in order to meet the demands of reducing external resources and increased spending pressures which may result in redundancy costs associated with making these savings. In addition, the Council is required to pay contributions to Merseyside Pension Fund for the additional costs arising from employees taking early retirement. Resources have been set aside to fund these costs over the coming years.

(e) **Community Transition Fund** - Council on 28 February 2013 agreed to the establishment of a new one-off Community Transition Fund. The aim of this resource was to facilitate, where possible, the transfer of certain services to become community run and self-sustaining. Cabinet on 3 September 2015 agreed to increase the reserve by £1.000m as a result of the underspend achieved in 2015/2016. Cabinet on 6 December 2018 agreed to increase the reserve by a further £0.500m from a review of uncommitted Earmarked Reserves.

(f) **Contamination Clearance Reserve** - During 2011/2012 it was identified there was a site in the Borough that was contaminated and there could be significant costs associated with clearing the contamination. It was therefore considered prudent to set resources aside to cover these potential costs.

(g) **Rating Appeals / Reduction in NDR Income Reserve** - In response to COVID19, the Government introduced an expanded Business Rates retail relief scheme in 2020/2021. This resulted in a significant deficit on the Collection Fund which will be recovered in 2021/22. However, the Council received S31 grants to offset the reliefs granted which were received in 2020/21. These have therefore been reserved so they can be used to offset the deficit in 2021/22.

(h) **Secondary School Deficit Reserve** – Budget Council in February 2020 approved the creation of a reserve to fund the potential deficits of Secondary Schools should they transfer to academy status. A contribution of £0.250m was included in the 2021/22 budget.

(i) **Council Tax - spreading of 2020/2021 Deficit Reserve**– Due to the impact of COVID19 on collection rates and the number of claimants of Council Tax Reduction Scheme support, the Government amended regulations so that the resulting deficit could be spread across future years rather than all in the following year. The 2021/2022 budget included a contribution to a reserve which will be utilised to offset the impact of the deficit on the 2022/2023 and 2023/2024 budgets.

(j) **Business Rates - spreading of 2020/2021 Deficit Reserve**– Due to the impact of COVID19 on collection rates, the Government amended regulations so that the resulting deficit could be spread across future years rather than all in the following year. The 2021/2022 budget included a contribution to a reserve which will be utilised to offset the impact of the deficit on the 2022/2023 and 2023/2024 budgets.

(k) **Revenue Grants and Contributions Unapplied** – In line with proper accounting practice, the Council credits the Income and Expenditure Account with grants and contributions as and when conditions for claiming the grant or contribution have been met. However, these amounts are required to fund expenditure on specific schemes in future years. They are therefore reserved to offset this future expenditure.

(l) **Other Earmarked Reserves** – There are a number of other earmarked reserves held by the Council. These include reserves for Adult Social Care Pressures (£2.743m), Economic Recovery (£1.500m), the Formby Pool Sinking Fund (£1.428m) and the Investment Strategy Reserve (£0.557m).

36 CAPITAL RECEIPTS RESERVE

The Capital Receipts Reserve holds the proceeds from the disposal of land or other assets, which are restricted by statute from being used other than to fund new capital expenditure or to be set aside to finance historical capital expenditure. The balance on the reserve shows the resources that have yet to be applied for these purposes at the year-end.

<u>2020/2021</u> £000s		<u>2021/2022</u> £000s
-2,877	Balance at 1 April	-6,464
	<u>Receipts in the Year</u>	
-3,998	Sale proceeds credited to the Comprehensive Income and Expenditure Account as part of the gain/loss on disposal of non-current assets	-10
-744	Capital Receipts from Former Council House Sales	-775
-9	Other Capital Receipts not relating to the Disposal of Council Assets	-100
	<u>Applied in the Year</u>	
1,164	Applied to finance new capital expenditure	1,089
-6,464	Balance at 31 March	-6,260

37 CAPITAL GRANTS AND CONTRIBUTIONS UNAPPLIED

The Capital Grants and Contributions Unapplied Account (Reserve) holds the grants and contributions received towards capital projects for which the Council has met the conditions that would otherwise require repayment of the monies, but which have yet to be applied to meet expenditure. The balance is restricted by grant terms as to the capital expenditure against which it can be applied and / or the financial year in which this can take place.

<u>2020/2021</u> £000s		<u>2021/2022</u> £000s
-17,757	Balance at 1 April	-22,742
-6,243	Capital grants and contributions unapplied credited to the Comprehensive Income and Expenditure Statement	-13,079
58	Reversal of capital grants and contributions unapplied previously credited to the Comprehensive Income and Expenditure Statement	2,716
1,200	Transferred to the Capital Adjustment Account	9,243
-22,742	Balance at 31 March	-23,862

38 REVALUATION RESERVE

The Revaluation Reserve contains the gains made by the Authority arising from increases in the value of its Property, Plant and Equipment (and Intangible Assets). The balance is reduced when assets with accumulated gains are:

- revalued downwards or impaired and the gains are lost
- used in the provision of services and the gains are consumed through depreciation, or
- disposed of and the gains are realised.

The Reserve contains only revaluation gains accumulated since 1 April 2007, the date that the Reserve was created. Accumulated gains arising before that date are consolidated into the balance on the Capital Adjustment Account.

<u>2020/2021</u> £000s		<u>2021/2022</u> £000s
-69,636	Balance at 1 April	-68,324
-5,083	Upward revaluation of assets	-36,897
3,665	Downward revaluation of assets and impairment losses not charged to Surplus/Deficit on the Provision of Services	12,306
-1,418	Surplus (-) / Deficit on revaluation of non-current assets not posted to the Surplus / Deficit on the Provision of Services	-24,591
1,187	Difference between fair value depreciation and historical cost depreciation	1,195
1,543	Accumulated gains on assets sold or scrapped	0
2,730	Amount written off to the Capital Adjustment Account	1,195
-68,324	Balance at 31 March	-91,720

39 CAPITAL ADJUSTMENT ACCOUNT

The Capital Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or enhancement of those assets under statutory provisions. The Account is debited with the cost of acquisition, construction or enhancement as depreciation, impairment losses and amortisations are charged to the Comprehensive Income and Expenditure Statement (with reconciling postings from the Revaluation Reserve to convert fair value figures to a historical cost basis). The Account is credited with the amounts set aside by the Authority as finance for the costs of acquisition, construction and enhancement.

The Account contains accumulated gains and losses on Investment Properties and gains recognised on donated assets that have yet to be consumed by the Authority.

The Account also contains revaluation gains accumulated on Property, Plant and Equipment before 1 April 2007, the date that the Revaluation Reserve was created to hold such gains.

Note 7 provides details of the source of all the transactions posted to the Account, apart from those involving the Revaluation Reserve and Deferred Capital Receipts Reserve.

2020/2021 £000s		2021/2022 £000s

	<u>Other Movements</u>	
4,631	Movements in the market value of Investment Properties debited or credited to the Comprehensive Income and Expenditure Statement	-3,076
4,631		-3,076
-225,369	Balance at 31 March	-233,805

40 **PENSIONS RESERVE**

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post-employment benefits and for funding benefits in accordance with statutory provisions. The Authority accounts for post-employment benefits in the Comprehensive Income and Expenditure Statement as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on any

resources set aside to meet the costs. However, statutory arrangements require benefits earned to be financed as the Authority makes employer's contributions to pension funds or eventually pays any pensions for which it is directly responsible. The debit balance on the Pensions Reserve therefore shows a substantial shortfall in the benefits earned by past and current employees and the resources the Authority has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid.

<u>2020/2021</u> £000s		<u>2021/2022</u> £000s
402,352	Balance at 1 April	454,913
31,613	Re-measurements (Liabilities and Assets)	-58,455
42,562	Reversal of items relating to retirement benefits debited or credited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement	52,582
-21,614	Employer's pensions contributions and direct payments to pensioners payable in the year	-22,178
454,913	Balance at 31 March	426,862

41 COLLECTION FUND ADJUSTMENT ACCOUNT

The Collection Fund Adjustment Account manages the differences arising from the recognition of council tax and non-domestic rates income in the Comprehensive Income and Expenditure Statement as it falls due from council tax payers and business rate payers compared with the statutory arrangements for paying across amounts to the General Fund from the Collection Fund.

<u>2020/2021</u> £000s		<u>2021/2022</u> £000s
293	Balance at 1 April	49,481
49,188	Amount by which council tax income credited to the Comprehensive Income and Expenditure Statement is different from council tax and non-domestic rates income calculated for the year in accordance with statutory requirements	-31,835
49,481	Balance at 31 March	17,646

42 ACCUMULATED ABSENCES ACCOUNT

The Accumulated Absences Account absorbs the differences that would otherwise arise on the General Fund Balance from accruing for compensated absences earned but not taken in the year, e.g. annual leave entitlement carried forward at 31 March. Statutory arrangements require that the impact on the General Fund Balance is neutralised by transfers to or from the Account.

<u>2020/2021</u> £000s		<u>2021/2022</u> £000s
4,725	Balance at 1 April	5,381

5,381	Amounts accrued at the end of the current year	5,573
656	Amount by which officer remuneration charged to the Comprehensive Income and Expenditure Statement on an accruals basis is different from remuneration chargeable in the year in accordance with statutory requirements	192

5,381	Balance at 31 March	5,573
--------------	----------------------------	--------------

43 **DEDICATED SCHOOLS GRANT ADJUSTMENT ACCOUNT**

Regulations effective from 1 April 2020 require that a Schools Budget deficit must be carried forward to be funded from future Dedicated Schools Grant (DSG) income, unless permission is sought from the Secretary of State for Education to fund the deficit from the General Fund. They also require that where a local authority has a deficit on its Schools Budget relating to its accounts for a financial year beginning on 1 April 2020, 1 April 2021 or 1 April 2022, it must not charge the amount of that deficit to a revenue account, but instead record any such deficit in a separate account. The Dedicated Schools Grant Adjustment Account has been created for that purpose and the in-year deficit for 2020/21 and cumulative deficit brought forward as at 1 April 2020 have been transferred into that account.

Further details on the deployment of DSG are provided in Note 16.

<u>2020/2021</u> £000s		<u>2021/2022</u> £000s
0	Balance at 1 April	6,615
4,385	transfer of the opening Dedicated Schools Grant deficit from Earmarked Reserves	0
2,230	Reversal of the deficit on the Dedicated Schools Grant within the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement	4,482
6,615	Balance at 31 March	11,097

44 **EVENTS AFTER THE BALANCE SHEET DATE**

The Statement of Accounts was authorised for issue by the Executive Director of Corporate Resources and Customer Services on 19 September 2023. Events taking place after this date are not reflected in the financial statements or notes. Where events taking place before this date provided information about conditions existing at 31 March 2022, the figures in the financial statements and notes have been adjusted in all material respects to reflect the impact of this information.

45 **RELATED PARTY TRANSACTIONS**

The Council is required to disclose material transactions with related parties - bodies or individuals that have the potential to control or influence the council or to be controlled or influenced by the Council. Disclosure of these transactions allows an assessment of the extent to which the Council might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely with the Council. All related party transactions have been entered into on an arm's length basis.

Central Government

The Government has effective control over the general operations of the Council – it is responsible for providing the statutory framework within which the Council operates, provides the majority of its funding in the form of grants and prescribes the terms of many of the transactions that the Council has with other parties (e.g., Housing Benefits). Grants received from government departments are set out in the analysis in Note 17. In addition, Sefton paid £16.229m to HM Revenue and Customs for Employers' National Insurance Contributions. Amounts owed from and to Central Government at 31 March 2022 are shown in Notes 26 and 28.

Members' Interests

Members of the Council have direct control over the Council's financial and operating policies. During 2021/2022, works and services to the value of £0.337m were commissioned from companies in which one or more Members have declared an interest. These are shown in the table below. Contracts were entered into in full compliance with the Council's standing orders. In addition, grants and payments for goods and services totalling £0.478m were made to voluntary organisations in which one or more Members have declared an interest. The most significant of these are shown in the table below. The

grants were awarded by the Cabinet Member – Regulatory, Compliance and Corporate Services and were made with proper consideration of declarations of interest. The relevant Members did not take part in any discussion or decision relating to the grants.

<u>2021/2022</u>	Income £000s	Expenditure £000s	Debtors £000s	Creditors £000s
One Vision Housing	-1,161	337	1	-30

One Vision Housing	-186	519	31	-3
Bosco Society	-1	616	0	0

Other Public Bodies

A number of Councillors are nominated to serve as representatives on other public bodies. These include, for example, Aintree University Hospital NHS Foundation Trust, British Destinations, Formby Pool Trust, Merseyside Fire and Rescue Authority, Merseyside Integrated Transport Authority, Merseyside Pension Fund, Merseyside Police Authority, Merseyside Recycling and Waste Authority, Sandway Homes, Sefton Council for Voluntary Service and Sefton New Directions.

Significant transactions during the year and balances at year-end with related public bodies included:

<u>2021/2022</u>	Income £000s	Expenditure £000s	Debtors £000s	Creditors £000s
Merseyside Police and Crime Commissioner	-331	19,105	596	-12
Merseyside Fire and Rescue Authority	-471	7,516	190	-57
Parish Councils	0	1,208	0	0

MerseyCare NHS Foundation	-676	10,244	401	-966
Sefton New Directions Limited	-46	9,970	29	-103
Sandway Homes	-108	1,200	0	0
Sefton CVS	-6	2,161	0	0

<u>2020/2021</u>	Income £000s	Expenditure £000s	Debtors £000s	Creditors £000s
Merseyside Police and Crime Commissioner	-549	18,095	145	-1,111
Merseyside Fire and Rescue Authority	-124	7,525	6	-616
Parish Councils	-48	1,177	5	-16
Liverpool City Region Combined Authority	0	18,851	48	0
Merseyside Recycling and Waste Authority	-1,919	15,622	40	0
Merseyside Pensions Authority - Employers' Contributions	0	19,080	0	0
MerseyCare NHS Foundation	-17	3,916	124	-433
Sefton New Directions Limited	-57	10,946	21	-24
Sandway Homes	-2,424	1,391	3,556	0
Sefton CVS	-1	2,159	0	0

The amounts owed by the Merseyside Police Authority and Merseyside Fire and Rescue Authority are the net amounts of Council Tax outstanding (after allowing for the Provision for Bad and Doubtful Debts) that relates to these bodies. There is no Provision for Bad and Doubtful Debts for amounts due from other bodies as all amounts have been assessed as being fully collectable.

Officers' Interests

The current Assistant Director of People (Operational In-House Services) (formerly the Head of Operational In-House Services) is a Council appointed representative on the Formby Pool Trust Board. There are no other senior officer relationships. Any significant financial transactions for any relevant organisations would be disclosed in the table above under Other Public Bodies.

There are no senior officer car loans outstanding at the end of 2021/2022.

Subsidiary and associated companies

Details of the Council's interest in companies is set out in Note 45.

Note: If organisations are no longer related parties in 2021/2022, they are not shown in 2020/2021.

46 CASH FLOW STATEMENT

OPERATING ACTIVITIES

The surplus or deficit on the provision of services has been adjusted for the following items:

<u>2020/2021</u> £000s		<u>2021/2022</u> £000s

47 **INTEREST IN COMPANIES**

Sefton New Directions Limited

Sefton New Directions Limited was incorporated on 15 January 2007 and began trading on 1 April 2007. It is a wholly owned subsidiary of the Council. Its principal activity is providing Social Care Services for Adults and those with Learning and / or Physical Disabilities.

The Company's accounts for 2021/2022 will be able to be obtained from The Company Secretary, Sefton New Directions Head Office, Third Floor, Burlington House, Crosby Road North, Waterloo, Liverpool, Merseyside, United Kingdom, L22 0PJ.

Sandway Homes

On 19 July 2018 Sefton (ACS) Development Company Limited, a company limited by shares and wholly owned by Sefton MBC, was incorporated. On 29 October 2018 Sandway Homes Limited, a company limited by share and wholly owned by Sefton (ACS) Developments Limited, was incorporated. The nature of business of Sandway Homes Limited is registered as development of building projects. The filing of accounts of both companies is required by Companies House by 31 December 2022.

Sefton Hospitality Operations Ltd

In May 2021 Sefton Hospitality Operations Limited, a company limited by shares and wholly owned by Sefton MBC, was incorporated. The Company is registered as providing hospitality services.

The Company is in the process of producing accounts for 2021/2022 which will need to be filed at Companies House by 31 December 2022. However, as the Company has undertaken limited trading during 2021/2022 (the Company's main trading operation at Crosby Lakeside, The Lake House, opened in August 2022) the accounts of the Company will not be consolidated into the Group Accounts on the grounds of materiality.

48 OPERATING LEASES

Authority as a Lessee

The Council employs operating leases to obtain the use of certain vehicles and equipment. During 2021/2022 operating lease payments totalled £0.015m (£0.027m in 2020/2021).

In addition, the Council leases a number of properties from third parties under operating lease agreements. During 2021/2022 lease rentals paid for properties under these lease agreements totalled £0.093m (£0.118m in 2020/2021).

The future lease payments due under non-cancellable leases in future years are:

<u>31 March</u> <u>2021</u> £000s		<u>31 March</u> <u>2022</u> £000s
118	Not later than one year	68
251	Later than one year and not later than five years	237
2,321	Later than five years	2,321
2,690		2,626

Authority as a Lessor

The Council leases a number of properties to third parties under operating lease agreements. The assets leased include shops, offices, land and other commercial properties. These property leases are for economic development purposes to provide suitable affordable accommodation for local businesses. During 2021/2022 lease rentals received from these operating lease agreements totalled £5.417m (£5.222m in 2020/2021).

The future lease payments receivable under non-cancellable leases in future years are:

<u>31 March</u> <u>2021</u> £000s		<u>31 March</u> <u>2022</u> £000s
5,030	Not later than one year	4,975
15,690	Later than one year and not later than five years	15,225
277,294	Later than five years	287,324
298,014		307,524

49 FINANCE LEASES

Authority as Lessee

The Council has acquired a number of administrative buildings under finance leases.

The assets acquired under these leases are carried as Property, Plant and Equipment in the Balance Sheet at the following net amounts:

<u>31 March</u> <u>2021</u> £000s		<u>31 March</u> <u>2022</u> £000s

2,017	Other Land and Buildings	1,830
2,017		1,830

The Authority is committed to making minimum payments under these leases comprising settlement of the long-term liability for the interest in the property acquired by the Authority and finance costs that will be payable by the Authority in future years while the liability remains outstanding. The minimum lease payments are made up of the following amounts:

<u>31 March</u> <u>2021</u> £000s		<u>31 March</u> <u>2022</u> £000s
183	Finance lease liabilities (net present value of minimum lease payments):	202
3,162	• Current	2,960
	• Non-current	
1,833	Finance costs payable in future years	1,536
5,178	Minimum lease payments	4,698

The minimum lease payments will be payable over the following periods:

	Minimum Lease Payments		Finance Lease Liabilities	
	<u>31 March</u> <u>2021</u> £000s	<u>31 March</u> <u>2022</u> £000s	<u>31 March</u> <u>2021</u> £000s	<u>31 March</u> <u>2022</u> £000s
Not later than one year	480	480	183	202
Later than one year and not later than five years	1,920	1,920	942	1,040
Later than five years	2,777	2,297	2,220	1,920
	5,177	4,697	3,345	3,162

The minimum lease payments do not include rents that are contingent on events taking place after the lease was entered into, such as adjustments following rent reviews. In 2021/2022 £0.020m contingent rents were payable by the Authority (£0.020m were paid in 2020/2021).

Authority as Lessor

The Authority did not lease out any properties on finance leases in 2021/2022 (none in 2020/21).

50 PFI AGREEMENT / SERVICE CONCESSION

Crosby Leisure Centre

On 18 September 2001, the Council entered into an agreement under a Private Finance Initiative with Waterfront Leisure (Crosby) Limited for the provision and operation of a leisure centre in Crosby. Under the terms of the agreement Waterfront Leisure constructed the centre and will operate it for a period of 25 years in accordance with the Council's specification. The contractor has the obligation to maintain the building to a minimum acceptable condition and to procure and maintain the plant and equipment needed to operate the leisure centre. The building and any plant and equipment installed will be transferred to the Council at the end of the 25-year contract for nil consideration. The Council only has the right to terminate the contract if it pays within three months:

1. the senior cost;
2. any redundancy payments of the contractor that have been reasonably incurred;
3. all amounts shown in the base financial model as payable by the contractor from the termination date.

Payments

The Council will pay an annual unitary charge for the serviced facility. At the start of the contract it was estimated this would total £23.860m over the life of the concession period (25 years). The figure is subject to inflationary increases with potential reductions should the service provided fall below specified standards. The charge is also eligible for government grant. The centre was opened on 17 February 2003. Payments to the contractor in 2021/2022 were £1.297m (£1.607m in 2020/2021) with government grants of £0.561m received in the year (£0.561m in 2020/2021).

The outstanding commitments (Unitary Payments) due to be made to Waterfront Leisure (Crosby) Limited each year until the end of the contract in 2028 are required to be brought in to the Comprehensive Income and Expenditure Statement. In addition to this unitary payment, Waterfront Leisure generates income through the provision of goods and services, which has enabled a lower unitary payment charge.

The table below shows the outstanding commitment for the PFI contract and has been split between the key elements. It should be noted that the outstanding commitment has been inflated using the inflationary factors included within the original contract.

Commitments under PFI Contract	Reimbursement of Capital Expenditure £000s	Interest £000s	Service Charge £000s
Contract Payments in 2022/2023	187	598	877
Contract Payments between 2023/2024 and 2026/2027	1,252	2,293	3,383
Contract Payments between 2027/2028	419	485	901

Liabilities

Although the payments made to the contractor are described as unitary payments, they have been calculated to compensate the contractor for the fair value of the services they provide, the capital expenditure incurred and interest payable whilst the capital expenditure remains to be reimbursed. The liability outstanding to pay the liability to the contractor for capital expenditure incurred is as follows:

<u>2020/2021</u> £000s		<u>2021/2022</u> £000s
-2,279	Balance outstanding at start of year	-2,072
207	Payments during the year	213
-2,072	Balance outstanding at the year-end	-1,859

Property Plant and Equipment

The assets used to provide services at Crosby Leisure Centre are recognised on the Council's Balance Sheet. The following table shows the value of assets held under Crosby Leisure Centre PFI scheme at each Balance Sheet date and an analysis of the movement in those values:

<u>2020/2021</u> £000s	<u>Other Land & Buildings: PFI Assets</u>	<u>2021/2022</u> £000s
	<u>Cost or Valuation</u>	
9,680	Opening Balance at 1 April	9,680
0	Additions	0
0	Revaluations	1,676
9,680	Closing Balance at 31 March	11,356

2020/2021 £000s	Other Land & Buildings: PFI Assets	2021/2022 £000s
	<u>Balance Sheet Amount</u>	
8,867	Opening Balance at 1 April	8,590
8,590	Closing Balance at 31 March	11,356

51 PARTICIPATION IN PENSION SCHEMES

As part of the terms and conditions of employment of its officers and other employees, the Authority offers retirement benefits. Although retirement benefits will not actually be payable until employees retire, the Authority has a commitment to make the payments that needs to be disclosed at the time that employees earn their future entitlement.

The Authority participates in three pension schemes:

Pension Schemes Accounted for as Defined Contribution Schemes

Teachers' Pension Scheme (TPS)

Teachers employed by the Authority are members of the Teachers' Pension Scheme, administered by Capita Teachers' Pensions on behalf of the Department for Education. It provides teachers with specified benefits upon their retirement, and the Authority contributes towards the costs of making contributions based on a percentage of members' pensionable salaries.

The Scheme is a multi-employer defined benefit scheme. The scheme is unfunded, and the Department for Education uses a notional fund as the basis for calculating the employers' contribution rate paid by local authorities. Valuations of the notional fund are undertaken every four years.

The scheme has approximately 12,200 participating employers and consequently the Authority is not able to identify its share of the underlying financial position and performance of the scheme with sufficient reliability for accounting purposes. For the purpose of this Statement of Accounts, it is therefore accounted for on the same basis as a defined contribution scheme. As a proportion of the total contributions into the Teachers' Pension Scheme during the year ending 31 March 2022, the Authority's own contributions equate to approximately 0.22%.

In 2021/2022, the Council paid £14.394m to Teachers' Pensions in respect of teachers' retirement benefits, representing 23.68% of teachers' pensionable pay. The figures for 2020/2021 were £14.171m and 23.68%. Contributions of £1.200m remained payable at the year-end. The contributions due to be paid in 2022/2023 are estimated to be £14.374m.

In cases of redundancy or early retirement in the interests of the efficiency of the service, the Authority is responsible for the cost of any additional benefits awarded that are outside the terms of the teachers' scheme. In 2021/2022 these contributions amounted to £0.744m, representing 1.22% of teachers' pensionable pay. The figures for 2020/2021 were £0.902m and 1.51%.

NHS Pension Scheme

As a result of the transfer of responsibility for Public Health to local authorities in April 2013, a number of staff also transferred who are members of the NHS Pension Scheme, administered by NHS Pensions on behalf of the Department of Health. It provides staff with specified benefits upon their retirement, and the Authority contributes towards the costs of making contributions based on a percentage of members' pensionable salaries.

The Scheme is a multi-employer defined benefit scheme. The scheme is unfunded, and the Department of Health uses a notional fund as the basis for calculating the employers' contribution rate paid by local authorities. Valuations of the notional fund are undertaken every four years.

The scheme has approximately 8,000 participating employers and consequently the Authority is not able to identify its share of the underlying financial position and performance of the scheme with sufficient reliability for accounting purposes. For the purpose of this Statement of Accounts, it is therefore accounted for on the same basis as a defined contribution scheme. As a proportion of the

total contributions into the NHS Pension Scheme during 2021/2022, the Authority's own contributions equate to less than 0.001% (0.001% in 2020/2021).

In 2021/2022, the Council paid £0.026m to NHS Pensions in respect of retirement benefits, representing 16.3% of the employees' pensionable pay. The figures for 2020/2021 were £0.026m and 16.3%. Contributions of £0.002m remained payable at 31 March 2022 (£0.002m at 31 March 2021). The contributions due to be paid in 2022/2023 are estimated to be £0.026m.

Defined Benefit Schemes

Local Government Pension Scheme (LGPS)

All employees not eligible to join the Teachers' Pension Scheme or the NHS Pension Scheme are, subject to certain qualifying criteria, eligible to join the Local Government Pension Scheme. Wirral Metropolitan Borough Council acts as the administering authority of the LGPS as lead authority for the Merseyside councils' scheme, the Merseyside Pension Fund (MPF). This is a funded defined benefit final salary scheme (career average revalued earnings scheme from 1 April 2014), meaning that the Authority and employees pay contributions into the fund, calculated at a level intended to balance the pension liabilities with investment assets.

In 2021/2022, the Council paid £19.006m to the MPF in respect of retirement benefits, representing 17.13% of employees' pensionable pay. The figures for 2020/2021 were £18.428m and 17.14%. Contributions of £0.930m remained payable at 31 March 2022 (£0.843m at 31 March 2021).

In cases of redundancy or early retirement in the interests of the efficiency of the service, the cost of any added years awarded is borne by the Council and not the Local Government Pension Scheme. In 2021/2022 these contributions amounted to £1.290m representing 1.16% of pensionable pay. The figures for 2020/2021 were £1.351m and 1.26%.

The principal risks of the scheme to the Authority are the longevity assumptions, statutory changes to the scheme, structural changes to the scheme (i.e., large-scale withdrawals from the scheme), changes to inflation, bond yields and the performance of the equity investments held by the scheme. These are mitigated to a certain extent by the statutory requirements to charge the General Fund the amounts required by statute, as described in the accounting policies note.

Transactions Relating to Post-Employment Benefits

The cost of retirement benefits is recognised in the Cost of Services when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge we are required to make against Council Tax is based on the cash payable in the year, so the real cost of retirement benefits are reversed out of the General Fund via the Movement in Reserves Statement.

The following transactions have been made in the Comprehensive Income and Expenditure Statement and the General Fund Balance via the Movement in Reserves Statement during the year:

2020/2021		<u>Comprehensive Income and Expenditure Statement</u>	2021/2022	
LGPS £000s	TPS Unfunded Liabilities £000s		LGPS £000s	TPS Unfunded Liabilities £000s

Basis for Estimating Assets and Liabilities

Liabilities have been assessed on an actuarial basis using the projected unit credit method, an estimate of the pensions that will be payable in future years dependent upon assumptions about mortality rates, salary levels etc. Both the Local Government Pension Scheme and Teachers' Pension Scheme Unfunded Liabilities have been estimated by Mercer Human Resource Consulting, an independent firm of actuaries, estimates being based on the latest full actuarial valuation of the scheme as at 31 March 2019.

The principal assumptions used by the actuary have been:

2020/2021		2021/2022
	<u>Mortality assumptions (years):</u>	
	Local Government Pension Scheme:	
21.0	Longevity at 65 for current pensioners: Men	21.2
24.1	Longevity at 65 for current pensioners: Women	23.6
22.6	Longevity at 65 for future pensioners: Men	22.5
26.0	Longevity at 65 for future pensioners: Women	25.4
	Teachers' Pension Scheme Unfunded Liabilities:	
21.0	Longevity at 65 for current pensioners – aged 65: Men	20.9
24.1	Longevity at 65 for current pensioners – aged 65: Women	24.0
12.5	Longevity at 65 for current pensioners – aged 75: Men	12.5
15.0	Longevity at 65 for current pensioners – aged 75: Women	15.0
	<u>Other assumptions</u>	
2.7%	Rate of Inflation - CPI	3.3%
4.2%	Rate of increase in salaries	4.8%
2.8%	Rate of increase in pensions	3.4%
2.1%	Rate for discounting scheme liabilities (LGPS)	2.8%
2.1%	Rate for discounting scheme liabilities (TPS Unfunded Liabilities)	2.8%

The estimation of the defined benefit obligations is sensitive to the actuarial assumptions set out in the table above. The sensitivity analyses below have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period and assumes for each change that the assumption analysed changes while all the other assumptions remain constant. The assumptions for longevity, for example, assume that life expectancy increases for men and women. In practice, this is unlikely to occur, and changes in some of the assumptions are interrelated. The estimations in the sensitivity analysis have followed the accounting policies of the scheme, i.e. on an actuarial basis using the projected unit cost method. The methods and types of assumptions used in preparing the sensitivity analysis below did not change from those used in the previous period.

	Impact on the Defined Benefit Obligation in the Scheme	
	Increase in Assumption £000s	Decrease in Assumption £000s
<u>Local Government Pension Scheme</u>		
Longevity (increase or decrease in 1 year)	47,146	-47,146
Rate of Inflation (increase or decrease by 0.1%)	24,962	-24,962
Rate of Increase in Salaries (increase or decrease by 0.1%)	2,732	-2,732
Rate of Increase in Pensions (increase or decrease by 0.1%)	24,962	-24,962
Rate for Discounting Scheme Liabilities (increase or decrease by 0.1%)	-24,565	24,565
Investment Returns (increase or decrease by 1%)	-11,609	11,609
<u>Teachers' Additional Unfunded Pensions</u>		
Longevity (increase or decrease in 1 year)	344	-344

Rate of Inflation (increase or decrease by 0.1%)	32	-32
Rate for Discounting Scheme Liabilities (increase or decrease by 0.1%)	-32	32

Impact on the Authority's Cash Flows

The objectives of the Local Government Pension Scheme are to keep employers' contributions at as constant a rate as possible. The Council has agreed a strategy with the scheme's actuary to achieve a funding level of 100% over the next 16 years. Funding levels are monitored on an annual basis. The most recent triennial valuation took place on 31 March 2019 and has set contributions levels for 2020/2021 to 2022/2023.

The total payments expected to be made to the local government pension scheme by the Council in the year to 31 March 2023 is £20.596m.

The total payments expected to be made by the Council to former teachers receiving additional unfunded pensions in the year to 31 March 2023 is £0.744m.

The weighted average duration of the defined benefit obligation for Local Government Pension Scheme members is 16 years in 2021/2022 (16 years in 2020/2021). The weighted average duration for former teachers receiving additional unfunded pensions is 6 years in 2021/2022 (6 years in 2020/2021).

52 CONTINGENT LIABILITIES

Collateral warranty by the Council in favour of the Security Trustee (Prudential Trustee Company Limited)

The Council has given a number of warranties for up to 35 years in respect of environmental pollution, statements, title, encumbrances, planning matters, statutory obligations, adverse orders, tenancies, information and statistics supplied, sales off, disputes and litigation, rights of entry to maintain and repair, absence of adverse replies, electricity sub-stations and shop leases, leasehold property, wayleaves, telecommunications and works undertaken.

In addition, the following specific warranties have been given from the date of transfer (30 October 2006):

- Unlimited warranty for up to 35 years in respect of vires claims
- Warranty for up to 20 years in respect of claims in relation to asbestos, except that this shall not apply in respect of the first £10,675,780 of costs and expenses incurred in aggregate on asbestos works.

In aggregate, the value of these warranties is limited to £100,500,000 plus any costs associated with interest and loan breakage costs due under the One Vision Loan Agreement.

Collateral warranty by the Council in favour of One Vision Housing Limited

The Council has given a number of warranties for up to 17 years in respect of statements, title, encumbrances, planning matters, statutory obligations, adverse orders, tenancies, information and statistics supplied, sales off, disputes and litigation, rights of entry to maintain and repair, absence of adverse replies, electricity sub-stations and shop leases, leasehold property, wayleaves, telecommunications and works undertaken.

In addition, the following specific warranties have been given from the date of transfer (30 October 2006):

- Warranty not exceeding £100,500,000 for up to 20 years in respect of environmental pollution.
- Warranty for up to 20 years in respect of claims in relation to asbestos, except that this shall not apply in respect of the first £8,439,750 of costs and expenses incurred in aggregate on asbestos works.
- Unlimited warranty for up to 17 years in respect of vires claims.

Contamination Costs: During 2011/2012, it was identified there was a site in the Borough that was contaminated and there would be significant costs associated with clearing the contamination. Sefton has an Earmarked Reserve of £1.380m to cover potential costs associated with clearing the

contamination. There is a potential further liability if the costs of clearing the contamination are greater than currently envisaged.

Merseyside Pension Fund - Contractor Admission Bodies: The Council provides guarantees for any potential unfunded liabilities on the Merseyside Pension Fund for Sefton New Directions Limited and Agilisys Limited. The most recently notified value of the guarantees was nil for Sefton New Directions Limited and £1.077m for Agilisys Limited. The values are highly dependent on market conditions at the time of the valuation and can vary significantly between valuations.

53 **CONTINGENT ASSETS**

Receipts from Former Council House Sales: The Council agreed to share any proceeds of former council house sales if they were subsequently sold by One Vision Housing Limited. The arrangement lasts until 31 March 2037 and the amount received will depend on the number of sales each year.

VAT Sharing Arrangement: As part of the voluntary stock transfer an agreement was reached with One Vision Housing Limited to share their VAT that they can claim from HM Revenue and Customs. This arrangement is unique to councils and registered social landlords upon transfer. This arrangement was due to end on 30 October 2016 but has now been extended until 2027. Sefton's share of reclaimable VAT is estimated to be in the region of £0.4m until the end of the arrangement.

54 **FINANCIAL INSTRUMENTS**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability of another. Typical financial instruments include trade creditors and borrowings (liabilities) and investments and trade debtors (assets).

Financial Instruments in so far as the Authority is concerned relate to investments, cash and cash equivalents, loans receivable, borrowings, trade creditors and debtors.

The following categories of financial instrument are carried in the Balance Sheet:

<u>FINANCIAL ASSETS</u>	Long Term		Current	
	31/03/2021 £000s	31/03/2022 £000s	31/03/2021 £000s	31/03/2022 £000s
Fair Value through Profit or Loss				
Investments	6,502	13,064	163	101
Amortised Cost				
Debtors	5,207	5,825	41,877	44,960
Cash and cash equivalents	0	0	68,086	98,328
Total Financial Assets	11,709	18,889	110,126	143,389
Non-financial assets - Debtors	0	0	7,741	8,609
Total	11,709	18,889	117,867	151,998

<u>FINANCIAL LIABILITIES</u>	Long Term		Current	
	31/03/2021 £000s	31/03/2022 £000s	31/03/2021 £000s	31/03/2022 £000s
Amortised Cost				
Borrowing	167,225	133,714	21,567	34,719
Creditors	0	0	56,951	62,534
Service Concessions and Finance Lease Liabilities	7,415	6,481	942	934
Total Financial Liabilities	174,640	140,195	79,460	98,187

Designated to fair value through profit and loss and statutory override

The Council holds a £5m pooled investment in a property fund. As a result of the change in accounting standards for 2018/2019, under IFRS 9, this investment had been reclassified as Fair Value through Profit and Loss. To avoid any impact on the General Fund balance, the Ministry of Housing,

Communities and Local Government have agreed a temporary override to allow English Local Authorities time to adjust their portfolio of all pooled investments. This override commences on the 1st April 2018 and lasts for five years. The Council will use the statutory override to account for any changes in the fair value on its pooled investments.

Items of income, expense, gains or losses

The gains and losses recognised in the Comprehensive Income and Expenditure Statement in relation to the above financial instruments are made up as follows:

	31 March 2022		
	Surplus or Deficit on the Provision of Services £000s	Other Comprehensive Income and Expenditure £000s	Total £000s
Net Gains/ Losses on:			
Financial assets measured at fair value through profit or loss	944	0	944
Total net gains/ losses (-)	944	0	944
Interest Revenue			
Financial assets measured at fair value through profit or loss	326	0	326
Total Interest Revenue	326	0	326
Interest Expense	7,268	0	7,268

Comparative figures for the previous financial year are made up as follows:

	31 March 2021		
	Surplus or Deficit on the Provision of Services £000s	Other Comprehensive Income and Expenditure £000s	Total £000s
Net Gains/ Losses on:			
Financial assets measured at fair value through profit or loss	-38	0	-38
Total net gains/ losses (-)	-38	0	-38
Interest Revenue			
Financial assets measured at fair value through profit or loss	431	0	431
Total Interest Revenue	431	0	431
Interest Expense	-8,066	0	-8,066

Fair Value of Assets and Liabilities.

The Churches and Charities Local Authority LAMIT Property Fund asset is measured in the balance sheet (Long Term Investments) at fair value on a recurring basis.

Recurring Fair Value Measurements	Input level in Fair Value Hierarchy	Valuation technique used to measure Fair Value	31 March 2021 £000s	31 March 2022 £000s
Financial Instruments - CCLA	Level 1	Unadjusted quoted prices in active markets for identical shares	5,376	6,319

The Fair Values of Financial Assets and Liabilities that are not measured at Fair Value but require a Fair Value disclosure.

Financial liabilities and financial assets represented by loans and debtors are carried in the Balance Sheet at amortised cost. Their fair value can be assessed by calculating the present value of the cash flows that will take place over the remaining term of the instruments (Level 2 Input – inputs other than quoted prices that are observable for the financial asset/ liability). We have used the following assumptions:

- The discount rate used in the net present value calculation is equal to the current rate in relation to the same instrument from a comparable lender. This rate will be the rate applicable in the market on the date of valuation (31st March 2022), for an instrument of the same duration.
- For PWLB debt the new borrowing rate has been used, as opposed to the premature repayment rate.

The fair value calculation has been based on the comparable new borrowing / deposit rate for the same financial instruments from a comparable lender. A consistent approach has been applied to assets and liabilities.

The purpose of the fair value valuation is to allow evaluation quantitatively of the Authority's financial position and performance with regard to each class of financial instrument, and also to indicate the extent of the Authority's risk exposure arising as a result of these transactions. The fair value also indicates the cost / benefits to the Council of retaining fixed interest borrowings and investments to maturity.

The fair values calculated are as follows:

FINANCIAL LIABILITIES	31 March 2021		31 March 2022	
	Carrying amount £000s	Fair value £000s	Carrying amount £000s	Fair value £000s
Financial Liabilities held at amortised cost				
Borrowing-PWLB	186,770	220,831	168,413	182,714
Borrowing-Other	2,022	2,022	20	20
Short-term Creditors	56,951	56,951	62,534	62,534
PFI and finance lease liabilities	8,357	8,357	7,415	7,415
Total	254,100	288,161	238,382	252,683

The fair value is more than the carrying amount because the Authority's portfolio of loans includes a number of fixed rate loans where the interest rate payable is higher than the rates available for similar loans at the Balance Sheet date. This commitment to pay interest above the current market rate increases the amount that the Authority would have to pay if the lender requested or agreed to early repayment of the loan.

FINANCIAL ASSETS	31 March 2021		31 March 2022	
	Carrying amount £000s	Fair value £000s	Carrying amount £000s	Fair value £000s
Investments	163	163	101	101
Cash and Cash Equivalents	66,410	66,410	98,328	98,328
Short-term Debtors	41,877	41,877	44,960	44,960
Long-term Debtors	5,207	5,207	5,825	5,825
Total	113,657	113,657	149,214	149,214

No fixed rate investments were held at the Balance Sheet date therefore, the fair value is the same as the carrying amount as all investments are at current market rates.

Short term debtors and creditors are carried at cost as this is a fair approximation of the value.

55 NATURE AND EXTENT OF RISKS ARISING FROM FINANCIAL INSTRUMENTS

The Authority is required to disclose information, which enables the user of these statements of accounts to evaluate the nature and extent of any risk arising from Financial Instruments.

The Authority's activities expose it to a variety of financial risks:

- i) Credit risk – the possibility that other parties may fail to pay amounts due to the Authority;
- ii) Liquidity risk – the possibility that the Authority may not have funds available to meet its commitments to make payments;
- iii) Market risk – the possibility that financial loss may arise for the Authority as a result of changes in such measures as interest rates or stock market movements.

The Treasury Management Policy and Strategy documents approved by Council annually seek to limit the risk of potential adverse effects on resources available to fund services arising due to the impact of unpredictable movements in the financial markets on treasury management activity undertaken by the in-house team.

Credit Risk

The main element of credit risk the Authority is exposed to arises from deposits with banks, building societies and money market funds, as well as credit exposures to the Authority's customers.

This risk is managed through the Authority's Treasury Management Policy and Strategy documents approved by Council annually. These documents set out the limits in terms of value and duration over which investment can be made with the various Banks and Building Societies included on the Authority's Counter Party lending list. This counter party list is made up of the institutions that have been rated using the Fitch scoring methodologies and any changes to the institutions rating that result in a non-compliance with the minimum criteria will see the institution taken off the counter party list.

Credit rating agencies such as Fitch rate institutions depending upon:

- Long term ability to meet all of their most senior financial obligations on a timely basis
- Short term ability to meet financial obligations within a relatively short time period
- Viability rating attempts to assess how a bank would be viewed if it was entirely independent of any external support
- Sovereign rating reflects the strength of a country's economy, and hence the ability of a country's Government to support its financial institutions.

The credit criteria in respect of Financial Assets held by the Authority is as detailed below:

Financial Asset Category	Criteria	Maximum Investment
Deposits with banks	Sovereign rating: AA+ Short Term: F1 Long Term: A- Viability rating: A Active in sterling markets	£25m (the Authority currently operates an operational limit of £10m)
Deposits with building societies	Short Term: F1 (Fitch) / P-1 (Moody) Active in sterling markets Minimum total assets: £2,000m	£25m (the Authority currently operates an operational limit of £10m)
Deposits with money market funds	Sovereign rating: AAA	£15m

The above table demonstrates that the Authority will only invest in institutions that have the highest credit rating scores. For Banks, a risk score of F1+ (exceptionally strong credit quality), A- (High credit quality - low credit risk and very strong capacity to pay financial commitments), Building Societies that have a risk score of F1 (highest credit quality), P-1 (low risk) and Money Market Funds rating of AAA (highest credit quality).

The following analysis summarises the Authority's potential maximum exposure to credit risk at the balance sheet date. The figures represent the actual investment made and, based on experience of default and uncollectability over the last 15 financial years, adjusted to reflect current market conditions:

Estimated maximum exposure at 31/03/21		Amount at 31/03/22	Historical experience of default	Historical experience adjusted for market conditions at 31/03/22	Estimated maximum exposure to default & uncollectability at 31/03/22
£000s		£000s A		C	£000s (A x C)
0	Deposits with Banks	9,000	0	0	0
0	Deposits with Money Market	84,725	0	0	0
0	Deposits Other	0	0	0	0
730	Customers	27,569	3.29%	3.29%	907
696					907

The Authority has no history of non-repayment of investments. There were no instances of counterparties failing to meet contractual obligations in relation to deposits during the financial year, and whilst no guarantee can be given against default, the Authority does not expect any losses from non-performance by any of its counterparties in relation to deposits.

The Authority also reduces its exposure of credit risk by limiting the number of investments with a maturity period of between 1 and 5 years to a maximum of 40% of our total investments. This ensures that the Authority does not tie up all its funds for a long period of time, increasing the risk of a bank running into financial problems.

As mentioned previously, the Authority has changed its investment policy with banks and when investing in banks it now only invests with extremely highly rated ones (with a Sovereign rating: AA+) that are backed by the Government in which the bank is situated. The Authority currently has no investments with banks. The Council does have an investment with the Churches & Charities Local Authority LAMIT Property Fund (CCLA) – this investment is in accordance with the Council's Treasury Management Policy.

The profile of investments by country is shown below:

	Total Investments at 31 March 2021 £000s	Total Investments at 31 March 2022 £000s
United Kingdom Banks	0	9,000
Other: CCLA	5,376	6,319
	5,376	15,319

Although the Authority does not generally allow credit for customers, £15.301m of the £27.569m balance is past its due date for payment. The total debt amount can be analysed by age as follows:

	31 March 2021 £000s	31 March 2022 £000s
Less than three months	9,841	15,415
Three months to one year	5,748	4,676
More than one year	6,604	7,478
	22,193	27,569

A provision for bad debts relating to customers exists which totals £4.029m at 31 March 2022 (£2.955m at 31 March 2021). This provision relates to a wide variety of assets of which none are individually significant. The provision was increased by £1.075m in 2021/2022 (£0.319m in 2020/2021) and £0.001m was written-off during the year (£0.045m in 2020/2021).

Of this debt £5.680m is secured against properties at 31 March 2022 (£5.048m as at 31 March 2021). These properties are held as collateral but cannot be pledged or resold unless the owner defaults.

Liquidity Risk

The Authority has a comprehensive cash flow management system that seeks to ensure that cash is available as needed. If unexpected movements happen, the Authority has ready access to borrowings from the Public Works Loans Board (PWLB) and Money Markets as a result of the annual Treasury Management Policy and Strategy documents approved by Council. The authority has set an affordable borrowing limit that reflects its underlying need to borrow for a capital purpose, and this includes an allowance for exceptional cash flow movements. There is thus no significant risk that the Authority will be unable to raise finance to meet its commitments.

The risk for the Authority is that it will need to replace its borrowings at a time when interest rates are unfavourable, leading to additional ongoing financing costs. The strategy for the Council is to ensure that by careful planning of the repayment date for new and replacement loans, and (when economic to do so) the restructuring of debt, the maturity profile of its fixed rate loans do not exceed or fall below the limits for the periods set out below. These limits also ensure that the Authority does not have significant amounts of variable borrowing in the long term, exposing itself to major movements in interest rates. Analyses of the Council's debt by type and maturity are shown in the following tables.

<u>Without Interest</u> <u>31 March</u> <u>2021</u> £000s	<u>With Interest Due</u> <u>31 March</u> <u>2021</u> £000s	Analysis of Loans by Type:	Range of Interest Rates Payable (%)	<u>Without Interest</u> <u>31 March</u> <u>2022</u> £000s	<u>With Interest Due</u> <u>31 March</u> <u>2022</u> £000s

0	0	Maturing in 40-45 years	0	0
0	0	Maturing in more than 45 years	0	0
188,792	275,540	Total	168,433	248,526

The Analysis of Loans by Maturity shows the total of loans that are due to be repaid within one year (shown as Current Portion of Long-Term Borrowing on the Balance Sheet) and those due to be repaid in more than one year (shown as Long-Term Borrowing on the Balance Sheet).

The maturity profile of the Council's PWLB debt only is shown in the following chart.

All trade and other creditors are due to be repaid within one year.

Market Risk

a) Foreign Exchange Risk

The Authority has no financial assets or liabilities denominated in foreign currencies, and thus has no exposure to loss arising from movements in exchange rates.

b) Price Risk

Price risk arises on financial assets because of changes in commodity prices or equity prices. The Authority's holdings in the CCLA Local Authority Property Fund are held on the Balance Sheet at bid price. This is the expected return if the Authority decided to sell its holdings. The asset value will reflect fluctuations in Property Values and rents and are therefore exposed to risk arising from movements in the price of such assets due to changes in general economic conditions. The property fund is classified at fair value through profit or loss, meaning that all movements in price will impact on gains and losses recognised in the surplus or deficit on the provision of services. However, for a five-year period commencing the 1st April 2018, there is a statutory override to avoid such an impact.

c) Interest Rate Risk

The Authority is exposed to significant risk in terms of its exposure to interest rate movements on its borrowings and investments. As an example of this, a rise in interest rate has the following effects:

- i) Borrowings at variable rates – the interest expense charged to the surplus or deficit on the provision of services will rise;
- ii) Borrowings at fixed rates – the fair value of the loan will fall;
- iii) Investments at variable rates – the interest income credited to the surplus or deficit on the provision of services will rise;
- iv) Investments at fixed rates – the fair value of the investment will fall.

Borrowings are carried at amortised cost on the Balance Sheet not fair value, and so nominal gains and losses on fixed rate borrowings would not impact on the Surplus or Deficit on the Provision of Services or Other Comprehensive Income and Expenditure. However, changes in variable rates on borrowings and investments will be posted to the Surplus or Deficit on the Provision of Services and affect the General Fund Balance.

The annual Treasury Management Policy and Strategy documents approved by Council contain a number of strategies for managing interest rate risk. To guard against the impact of adverse changes in interest rates, the maximum proportion of borrowing subject to variable interest rates is limited to 33% along with a maximum proportion of investments subject to variable rates limited to 40%.

During periods of falling interest rates, and where economic circumstances make it favourable, the Authority will look to reschedule its loans in order to limit its exposure to losses and so reduce its capital financing costs.

The in-house Treasury Management team receives professional advice and has an active strategy for assessing interest rate exposure via the use of indicators. This is used to establish and monitor the budget for capital financing costs, allowing any adverse changes to be accommodated. The monitoring of interest rate exposure assists with the decision as to whether new borrowing or investment undertaken is fixed or variable.

Based on the assessment strategy for interest rate risk if interest rates had been 1% higher with all other variables held constant on 31 March, the financial effect would be (note that the percentages quoted are for illustrative purposes only and are not an indication of the likely change):

31 March 2021 £000s		31 March 2022 £000s
870	Increase in interest receivable on variable rate investments (and resultant impact on the Surplus or Deficit on the Provision of Services)	1,029
-20,721	Decrease in fair value of fixed rate loans (no impact on Other Comprehensive Income and Expenditure)	16,024
0	Increase in fair value of fixed rate investments (impact on Other Comprehensive Income and Expenditure)	0
0	Increase in fair value of financial liabilities (no impact on Other Comprehensive Income and Expenditure)	0

The impact of a 1% fall in interest rates would be as above but with the movements being reversed. The 1% variation chosen for sensitivity analysis can be treated as a flat line change, so a 5% variation will result in amounts totalling five times the amount included in the table above.

The Authority held no loans at variable rate at the Balance Sheet date so any movement in interest rates will have no effect on the Surplus or Deficit on the Provision of Services.

56 STATEMENT OF SINGLE ENTITY AND GROUP ACCOUNTING POLICIES**(a) GOING CONCERN**

The provisions in the Code in respect of going concern reporting requirements reflect the economic and statutory environment in which local authorities operate. These provisions confirm that, as authorities cannot be created or dissolved without statutory prescription, they must prepare their financial statements on a going concern basis of accounting.

Local authorities carry out functions essential to the local community and are themselves revenue raising bodies (with limits on their revenue raising powers, arising only at the discretion of central government). If an authority were in financial difficulty, the prospects are thus that alternative arrangements might be made by central government either for the continuation of the services it provides or for assistance with the recovery of a deficit over more than one financial year. As a result of this, it would not therefore be appropriate for local authority financial statements to be provided on anything other than a going concern basis.

The accounts are prepared on the expectation that the services and functions of the Council are expected to continue in operational existence for the foreseeable future. Therefore, these financial statements are produced on a going concern basis.

Additionally, management have assessed cash flow modelling through to March 2025 which demonstrates the Council's ability to work within its Capital Financing Requirement and Cash management framework, with appropriate headroom (at least £10m), and identified no significant risks to liquidity within the next twelve months from the date of issue of these financial statements.

The Narrative Report sets out the significant impacts of the current high levels of inflation, and the ongoing impact of the pandemic, on the local economy and on Council finances, as well as the response structures and steps taken to manage the risks and impacts. The Council is still experiencing a reduction in income in the current year, with losses of fees and charges and Council Tax and Business Rates. The current high levels of inflation and the pandemic is also still resulting in the Council bearing significant extra costs, particularly in social care.

The Council has received additional grant support from Government in 2021/22 to fund a proportion of these costs, including emergency funding, and compensation for an element of losses on sales, fees and charges and council tax. It is estimated that this funding will offset a significant proportion of costs and income losses, with no residual losses currently included in the Council's budget monitoring position for the year.

Current cash and cash-equivalents of £98m at the balance sheet date have been modelled, using reasonable assumptions regarding service costs, staff costs and income, for 12 months from the final certification of these statements to March 2025, including downside scenarios for cash collection and the ongoing impact of reduction on fees and charges. The low point in liquidity is in March 2024 due to the cumulative impacts of the downside scenarios modelled and the usual cycle of taxation collection resulting in lower cash income in February and March. The Council remains in a positive cash position for the duration of the forecast.

The Council do not plan for any borrowing to support cashflow until March 2024, and only then in the downside scenario. In line with the treasury management strategy of the Council, planned borrowing is limited to the refinancing of a loan due for repayment. The Council remains within its prudential borrowing limits with sufficient headroom should further need arise.

The Council budget and medium-term financial strategy identify savings requirements over the next three years. The Council plan to move towards the General Fund Balance being maintained above the minimum 6.5% of Council net budget as recommended by the Section 151 officer in the Robustness report to Budget Council. There was no planned use of the Council's General Fund Balances to support the short- or medium-term budgets. However, given the current high levels of inflation and service pressures in areas such as Children's Social Care, the Council agreed to utilise some General Fund Balances to meet these pressures in 2022/2023 – however, they will remain above the absolute minimum level required. The use of these balances will necessitate their replenishment, and plans will be developed to do this in line with the Council's track record of achieving savings required by difficult financial decisions.

The Council recognise that Collection Fund losses from 2020/2021 can be carried forward and funded over three years in line with Government guidance.

As the cash flow modelling demonstrates that the Council will continue to have liquidity for the next 12 months, to support the continuation of service assumption, management are satisfied that there is no material uncertainty relating to going concern.

(b) GENERAL PRINCIPLES

The Statement of Accounts summarises the Council's transactions for the financial year and its position at the year end. The Council is required to prepare an Annual Statement of Accounts by the Accounts and Audit (England) Regulations 2015 in accordance with proper accounting practices. These practices are set out primarily the *Code of Practice on Local Authority Accounting in the United Kingdom 2020/2021*.

The accounting convention adopted in the Statement of Accounts is primarily historical cost, modified by the revaluation of certain categories of non-current assets and financial instruments.

(c) ACCRUALS OF INCOME AND EXPENDITURE

Activity is accounted for in the year that it takes place, not simply when cash payments are made or received, in particular:

- Revenue from contracts with service recipients, whether for services or the provision of goods, is recognised when (or as) the goods or services are transferred to the service recipient in accordance with the performance obligations in the contract.
- Supplies are recorded as expenditure when they are consumed - where there is a gap between the date supplies are received and their consumption, they are carried as inventories on the Balance Sheet.
- Expenses in relation to services received (including services provided by employees) are recorded as expenditure when the services are received rather than when payments are made.
- Interest receivable on investments and payable on borrowings is accounted for respectively as income and expenditure on the basis of the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract.
- Where revenue and expenditure have been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet. Where debts may not be settled, the balance of debtors is written down and a charge made to revenue for the income that might not be collected.

(d) BUSINESS IMPROVEMENT DISTRICTS

A Business Improvement District (BID) scheme applies to an area in Southport Town Centre. The scheme is funded by a BID levy paid by non-domestic ratepayers. The Authority acts as principal under the scheme, and accounts for income received and expenditure incurred (including contributions to the BID project) within the relevant services within the Comprehensive Income and Expenditure Statement.

(e) CASH AND CASH EQUIVALENTS

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are investments that mature in three months or less from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

In the Balance Sheet and Cash Flow Statement, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the Council's cash management.

(f) CHARGES TO REVENUE FOR NON-CURRENT ASSETS

Services, support services and trading accounts are debited with the following amounts to record the cost of holding Property, Plant and Equipment and Intangible Assets during the year:

- Depreciation attributable to the assets used by the relevant service;
- Revaluation and impairment losses on assets used by the service where there are no accumulated gains in the Revaluation Reserve against which the losses can be written off; and
- Amortisation of intangible assets attributable to the service.

The Council is not required to raise council tax to fund depreciation, revaluation and impairment losses or amortisation. However, it is required to make an annual contribution from revenue towards the reduction in its overall borrowing requirement equal to an amount calculated on a prudent basis determined by the Council in accordance with statutory guidance. Depreciation, revaluation and impairment losses are therefore replaced by the contribution in the General Fund Balance (Statutory Provision for the Financing of Capital Investment) by way of an adjusting transaction with the Capital Adjustment Account in the Movement of Reserves Statement for the difference between the two.

(g) COUNCIL TAX AND NON-DOMESTIC RATES

Sefton Council as a billing authority acts as an agent, collecting council tax and non-domestic rates (NDR) on behalf of the major preceptors (Merseyside Police and Crime Commissioner, Merseyside Fire and Rescue Service, and Liverpool City Region Combined Authority) and, as principal, collecting council tax and NDR for the Council. Billing authorities are required by statute to maintain a separate fund (i.e. the Collection Fund) for the collection and distribution of amounts due in respect of council tax and NDR. Under the legislative framework for the Collection Fund, billing authorities, major preceptors and central government share proportionately the risks and rewards that the amount of council tax and NDR collected could be less or more than predicted. Sefton is part of the Liverpool City Region Business Rate Retention Pilot scheme currently retains 99% of NDR rates, which includes the 50% that would otherwise be due to central government.

Accounting for Council Tax and NDR

The council tax and NDR income included in the Comprehensive Income and Expenditure Statement (CIES) is the authority's share of accrued income for the year. However, regulations determine the amount of council tax and NDR that must be included in the authority's General Fund. Therefore, the difference between the income included in the CIES and the amount required by regulation to be credited to the General Fund is taken to the Collection Fund Adjustment Account and included as a reconciling item in the Movement in Reserves Statement.

The Balance Sheet includes the authority's share of the end of year balances in respect of council tax and NDR relating to arrears, impairment allowances for doubtful debts, overpayments and prepayments and appeals.

(h) EMPLOYEE BENEFITS**Benefits payable during employment**

Short term employee benefits are those due to be settled within 12 months of the year end. They include such benefits as wages, salaries, paid annual leave and paid sick leave, bonuses and non-monetary benefits (e.g. cars) for current employees and are recognised as an expense for services in the year in which the employees render service for the Council. An accrual is made for the cost of holiday entitlements (or any form of leave e.g. time off in lieu), earned by employees but not taken before the year-end which employees can carry forward into the next financial year. The accrual is made at the wage and salary rates applicable in the following financial year, being the period in which the employee takes the benefit. The accrual is charged to Surplus or Deficit on the Provision of Services, but then reversed out through the Movement in Reserves Statement so that holiday entitlements are charged to revenue in the financial year to which the holiday absence occurs.

Termination Benefits

Termination benefits are amounts payable as a result of a decision by the authority to terminate an officer's appointment before the normal retirement date or an officer's decision to accept voluntary redundancy in exchange for those benefits and are charged on an accruals basis to the appropriate service or, where applicable, to the Corporate Unallocated Costs line in the Comprehensive Income and Expenditure Statement at the earlier of when the Authority can no longer withdraw the offer of those benefits or when the Authority recognises costs for a restructuring.

Where termination benefits involve the enhancement of pensions, statutory provisions require the General Fund balance to be charged with the amount payable by the Authority to the pension fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, appropriations are required to and from the Pensions Reserve to remove the notional debits and credits for pension enhancement termination benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year end.

Post-Employment Benefits

Employees of the Council are members of three separate pension schemes:

- The Teachers' Pension Scheme administered by Capita Teachers' Pensions on behalf of the Department for Education.
- The NHS Pension Scheme administered by NHS Pensions on behalf of the Department of Health.
- Local Government Pension Scheme (Merseyside Pension Fund) administered by Wirral Metropolitan Borough Council.

These Schemes are defined benefits schemes in that they provide defined benefits to members (retirement lump sums and pensions) earned as employees working for the Council.

However, the arrangements for the Teachers' Pension Scheme and NHS Pension Scheme mean that liabilities for these benefits cannot ordinarily be identified specifically to the Council. The scheme is therefore accounted for as if it were a defined contribution scheme and no liability for future payments of benefits is recognised in the Balance Sheet. The Schools and Families - Schools line in the Comprehensive Income and Expenditure Statement is charged with the employer's contributions payable to Teachers' Pensions. The Health and Wellbeing line in the Comprehensive Income and Expenditure Statement is charged with the employer's contributions payable to NHS Pensions in the year.

The Local Government Pension Scheme

The Local Government Scheme is accounted for as a defined benefits scheme:

- The liabilities of the Merseyside Pension Fund attributable to the Council are included in the Balance Sheet on an actuarial basis using the projected unit method – i.e. an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates etc. and projections of current earnings for current employees.
- Liabilities are discounted to their present value at current prices using a discount rate based on the indicative rate of return on high quality corporate bonds (based on a weighted average of 'spot yields' on AA rated corporate bonds). The discount rate used for the year is disclosed in the Participation in Pension Schemes note.
- The assets of Merseyside Pension Fund attributable to the Council are included in the Balance Sheet at their fair value:
 - Quoted Securities – current bid price,
 - Unquoted securities – professional estimate,
 - Unitised securities- current bid price,
 - Property – market value.
- The change in the net pensions' liability is analysed into the following components:

Service cost comprising:

- Current Service Cost – the increase in liabilities as a result of years of service earned this year - allocated in the Comprehensive Income and Expenditure Statement to the services for which the employee worked.
- Past Service Cost - the increase in liabilities as a result of scheme amendment or curtailment whose effect relates to years of service earned in earlier years - debited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement as part of Corporate Unallocated Costs,
- Net Interest on the Net Defined Benefit Liability (Asset), i.e. net interest expense of the Authority - the change during the period in the net defined benefit liability (asset) that arises from the passage of time charged to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement – this is calculated by applying the discount rate used to measure the defined benefit obligation at the beginning of the period to the net defined benefit liability (asset) at the beginning of the period – taking into account any changes in the net defined benefit liability (asset) during the year as a result of contribution and benefit payments.

Remeasurements comprising:

- The Return on Plan Assets – excluding amounts included in net interest on the net defined benefit liability (asset) – charged to the Pensions Reserve as Other Comprehensive Income and Expenditure.
- Actuarial Gains and Losses - changes in the net pensions liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions - charged to the Pensions Reserve as Other Comprehensive Income and Expenditure.

Contributions paid to the Merseyside Pension Fund

- Cash paid as employer's contributions to the pension fund in settlement of liabilities; not accounted for as an expense.

In relation to retirement benefits, statutory provisions require the General Fund balance to be charged with the amount payable by the Authority to the pension fund or directly to pensioners in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, this means that there are transfers to and from the Pensions Reserve to remove the notional debits and credits for retirement benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year end. The negative balance that arises on the Pensions Reserve therefore measures the beneficial impact on the General Fund of being required to account for retirement benefits on the basis of cash flows rather than benefits which are earned by employees.

Discretionary Benefits

The Council also has restricted powers to make discretionary awards of retirement benefits in the event of early retirements. Any liabilities estimated to arise as a result of an award to any member of staff (including teachers) are accrued in the year of the decision to make the award and accounted for using the same policies as are applied to the Local Government Pension Scheme.

(i) EVENTS AFTER THE BALANCE SHEET DATE

Events after the Balance Sheet date are those events, both favourable and unfavourable that occur between the end of the reporting period and the date when the Statement of Accounts is authorised for issue. Two types of events can be identified:

- Those that provide evidence of conditions that existed at the end of the reporting period - the Statement of Accounts is **adjusted** to reflect such events.
- Those that are indicative of conditions that arose after the reporting period – the Statement of Accounts is **not adjusted** to reflect such events, but where a category of events would have a material effect, disclosure is made in the notes of the nature of the events and their estimated financial effect.

Events taking place after the authorisation to issue are not reflected in the Statement of Accounts.

(j) FAIR VALUE MEASUREMENT

The Council measures some of its assets and liabilities at fair value at the end of the reporting period. Fair value is the price that would be received to sell an asset or paid to transfer a liability at the measurement date. The fair value measurement assumes that the transaction to sell the asset or transfer the liability takes place either:

- a) in the principal market for the asset or liability, or
- b) in the absence of a principal market, in the most advantageous market for the asset or liability.

The Council uses external valuers to provide a valuation of its assets and liabilities in line with the highest and best use definition within the accounting standard. The highest and best use of the asset or liability being valued is considered from the perspective of a market participant.

Inputs to the valuation techniques in respect of the Council's fair value measurement of its assets and liabilities are categorised within the fair value hierarchy as follows:

Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities that the authority can access at the measurement date.

Level 2 – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 – unobservable inputs for the asset or liability.

(k) FINANCIAL INSTRUMENTS**General Comment**

A financial instrument is any contract that gives rise to a financial asset in one entity, and a financial liability in another. Most straight forward financial assets (debtors, bank deposits, investments etc.) and liabilities (creditors, borrowings etc) are covered by this policy.

Financial Liabilities

Financial liabilities are recognised on the Balance Sheet when the authority becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value and are subsequently carried at their amortised cost. Annual charges to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest for the investment. The effective interest rate is the rate that exactly discounts estimated future cash payments over the life of the instrument to the amount at which it was originally recognised.

For most of the borrowings that the Council has, this means that the amount presented in the Balance Sheet is the outstanding principal repayable (plus accrued interest); and interest charged to the Comprehensive Income and Expenditure Statement is the amount payable for the year according to the loan agreement.

Gains and losses on the repurchase or early settlement of borrowing are credited and debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure in the year of repurchases/settlement. However, where repurchase has taken place as part of a restructuring of the loan portfolio that involves the modification or exchange of existing instruments, the premium or discount is respectively deducted from or added to the amortised cost of the new or modified loan and the write down is spread over the life of the loan by an adjustment to the effective interest rate. This is managed by a transfer to or from the Financial Instruments Adjustment Account in Movement in Reserves Statement.

Where premiums and discounts have been charged to CIES, regulations allow the impact on the General Fund Balance to be spread over future years. The Council has a policy of spreading the gain or loss over the term that was remaining on the loan against which the premium payable or discount receivable when it was repaid.

Financial Assets

Financial assets are classified based upon a classification and measurement approach that reflects the business model for holding financial assets and their cash flow characteristics. There are three main classes of financial assets measured at

- Amortised costs
- Fair value through profit and loss (FVPL), and
- Fair value through other comprehensive income (FVOCI)

The Council does not hold investments that are measured fair value through FVOCI.

Financial assets measured at amortised cost

Financial assets measured at amortised cost are recognised on the Balance Sheet when the Council becomes a party to the contractual provision of a financial instrument and are initially valued at fair value. They are subsequently measured at their amortised costs. Annual credits to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement (CIES) for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument. For most of the financial instrument held by the Council, this means that the amount presented in the Balance Sheet is the outstanding principal receivable (plus accrued interest) and interest credited to CIES is the amount receivable for the year in the loan agreement.

Financial assets measured at fair value through profit and loss

Financial assets that are measured at FVPL are recognised on the Balance Sheet when the Council becomes a party to the contractual provision of a financial instrument and are initially measured and carried at fair value. Fair value gains and losses are recognised as they arise in the Surplus or Deficit on the Provision of Services.

The fair value measurement is based on the following techniques:

- Instruments with quoted market prices – the market price
- Other instruments with fixed determinable payments – discounted cash flow analysis

The inputs to the measurement techniques are categorised in accordance with the accounting policy set out in section (i) Fair Value Measurement.

Churches & Charities Local Authority LAMIT Property Fund:

The Ministry for Housing, Communities and Local Government introduced a mandatory statutory override requiring local authorities to reverse out all unrealised fair value movements resulting from pooled investment funds to protect the General Fund. This will be effective for 5 years from the financial year commencing 1 April 2018, and upon expiry all fair value movements will then impact on the General Fund Balance.

Credit loss model

The credit risk model allows the authority to measure the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that instrument has increased significantly since initial recognition. To make the assessment the authority compares the risk of a default occurring on the financial instrument. This is carried out with market intelligence supplied by external treasury consultants.

Warranties and Guarantees

The Council has entered into a number of Guarantees that are not required to be accounted for as Financial Instruments. These guarantees are reflected in the Statement of Accounts to the extent that at some future date a provision or earmarked reserve may have to be set up. These guarantees relate to:

- Housing stock transfer warranties,
- Pension guarantees related to contractor admissions bodies, such as New Directions.

(l) FOREIGN CURRENCY TRANSLATION

Where the Council has entered into a transaction denominated in a foreign currency, the transaction is converted into sterling at the exchange rate applicable on the date the transaction was effective.

(m) GOVERNMENT GRANTS AND CONTRIBUTIONS

Whether paid on account, by instalments or in arrears government grants and third-party contributions and donations are recognised as due to the authority where there is reasonable assurance that:

- The Authority will comply with the conditions attached to the payments, and
- The grants or contributions will be received.

Amounts recognised as due to the Council are recognised immediately in the CIES, except to the extent that the grant or contribution has a condition(s) relating to initial recognition that the Authority has not satisfied. Conditions are stipulations that specify that the future economic benefits or service potential embodied in the asset received in the form of the grant or contribution are required to be consumed by the recipient as specified, or future economic benefits or service potential must be returned to the transferor.

Monies advanced as grants and contributions for which conditions have not been satisfied are carried in the Balance Sheet as receipts in advance. When conditions are satisfied, the grant or contribution is credited to the relevant services line (attributable revenue grants and contributions) or Taxation and Non-Specific Grant Income (Non-Ringfenced Government Grants and Capital Grants and Government Grants) in the Comprehensive Income and Expenditure Statement.

Where capital grants are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund Balance in the Movement in Reserves Statement. Where the grant has yet to be used to finance capital expenditure, it is posted to the Capital Grants Unapplied Reserve. Where it has been applied, it is posted to the Capital Adjustments Account. Amounts in the Capital Grants Unapplied Reserve are transferred to the Capital Adjustments Account once they have been applied to fund capital expenditure.

(n) HERITAGE ASSETS

A heritage asset is an asset that is held due to its historical, artistic, scientific, technological, or environmental qualities, and is maintained principally for its contribution to knowledge and culture. The Authority's heritage assets are held in a number of locations, such as Town Halls and the Atkinson Centre.

The collection consists principally of a ceramic collection, a silver collection, works of art, an Egyptology collection, several war memorials, and the art installation "Another Place". The collection is mainly valued on an insurance valuation basis. However, a number of war memorials are held that are valued at a nominal £1.

The assets are felt to have indeterminate lives and a high residual value; hence the Authority does not consider it appropriate to charge depreciation.

The Authority considers that obtaining valuations for the collection would involve disproportionate cost. This is because of the diverse nature of the assets and the lack of comparable market values.

Heritage Assets are recognised and measured (including the treatment of revaluation gains and losses) in accordance with the Authority's accounting policies on property, plant and equipment (note (q)). The carrying amounts of Heritage Assets would be reviewed where there was evidence of impairment, e.g. where an item has suffered physical deterioration or breakage or where doubts arise about its authenticity. Any impairment would be recognised and measured in accordance with the Authority's general policies on impairment (see Impairment section of note (v)). If any items were disposed of, the proceeds would be accounted for in accordance with the Authority's general provisions relating to the disposal of property, plant and equipment. Disposal proceeds are disclosed separately in the notes to the financial statements and are accounted for in accordance with statutory accounting requirements relating to capital expenditure and capital receipts.

(o) INTANGIBLE ASSETS

Expenditure on non-monetary assets that do not have physical substance but are controlled by the Council as a result of past events (e.g. software licenses) is capitalised when it is expected that the future economic benefits or service potential will flow from the intangible asset to the Council.

Expenditure on the development of websites is not capitalised if the website is solely or primarily intended to promote or advertise the Councils goods or services.

Intangible assets are carried at amortised cost. An intangible asset is amortised over its useful life to the relevant service lines in the Comprehensive Income and Expenditure Statement. An asset is tested for impairment whenever there is an indication that the asset might be impaired - any losses recognised are posted to the relevant service line(s) in the Comprehensive Income and Expenditure Statement. Any gain or loss arising on the disposal or abandonment of an intangible asset is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement.

Where expenditure on intangible assets qualifies as capital expenditure for statutory purposes, amortisation, impairment losses and disposal gains and losses are not permitted to have an impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement of Reserves Statement and posted to the Capital Adjustments Account and (if sales proceeds exceed £10,000) the Capital Receipts Reserve.

(p) INTERESTS IN COMPANIES AND OTHER ENTITIES

The Council has a material interest in companies that are subsidiaries and is required to prepare group accounts. In the Council's own single entity accounts the interest in the companies is recorded as a long-term investment at cost.

In the group accounts transactions and balances between the Council and subsidiary are netted out on consolidation.

(q) INVENTORIES AND LONG-TERM CONTRACTS

Inventories are included in the Balance Sheet at the lower of cost or net realisable value. The cost of inventories is assigned using the First-In-First-Out costing formula.

Long term contracts are accounted for on the basis of charging the Surplus or Deficit on the Provision of Services with the value of works and services received under the contract during the financial year.

(r) INVESTMENT PROPERTY

Investment properties are those that are used solely to earn rentals and/or for capital appreciation. The definition is not met if the property is used in any way to facilitate the delivery of services or the production of goods or is held for sale.

Investment Properties are measured initially at cost. This is the amount of cash or cash equivalents paid or the fair value of other consideration given to acquire an asset at the time of its acquisition. They are subsequently measured at fair value, based on the market price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. Properties are not depreciated but are revalued. An annual revaluation of all investment properties is undertaken. Gains and losses on revaluation are posted to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The same treatment is applied to gains and losses on disposal.

Rentals received in relation to investment properties are credited to the Financing and Investment Income line and result in a gain for the General Fund Balance. However, revaluation and disposal gains and losses are not permitted by statutory arrangements to have an impact on the General Fund Balance. The gains and losses are therefore reversed out of the general fund balance in the movement in reserves statement and posted to the capital adjustment account and (for any sale proceeds greater than £10,000) the capital receipts reserve.

(s) JOINT OPERATIONS

Joint operations are arrangements where the parties that have joint control of the arrangement have rights to the assets and obligations for the liabilities relating to the arrangement. The activities undertaken by the authority in conjunction with other joint operators involve the use of the assets and resources of those joint operators. In relation to its interest in a joint operation, the authority as a joint operator recognises:

- its assets, including its share of any assets held jointly
- its liabilities, including its share of any liabilities incurred jointly
- its revenue from the sale of its share of the output arising from the joint operation
- its share of the revenue from the sale of the output by the joint operation
- its expenses, including its share of any expenses incurred jointly.

(t) LEASES

Leases have been classified as finance leases where the terms of the lease transfer substantially all the risks and rewards incidental to the ownership of property from the lessor to the lessee. All other leases are to be classified as operating leases.

Where a lease covers both land and buildings, the land and buildings elements are considered separately for classification.

Arrangements that do not have the legal status of a lease but convey a right to use an asset in return for a payment are accounted for under this policy where fulfilment of the arrangement is dependent on the use of specific assets.

THE COUNCIL AS A LESSEE**Finance Leases**

Property, plant and equipment held under Finance leases will be recognised on the balance sheet at the commencement of the lease at its fair value measured at the leases inception (or the present value of the minimum lease payments if lower). The asset recognised will be matched by a liability for the obligation to pay the lessor. Initial direct costs of the Authority are added to the carrying amount of the asset. Premiums paid on entry into a lease are applied to writing down the lease liability. Contingent rents are charged as expenses in the periods in which they are incurred.

Lease payments will be apportioned between:

- A charge for the acquisition of the interest in the property, plant or equipment - applied to write down the lease liability,
- A finance charge (debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement).

Property, Plant and Equipment recognised under finance leases is accounted for using the policies applied generally to such assets, subject to depreciation being charged over the lease term if this is shorter than the asset's estimated useful life (where ownership of the asset does not transfer to the Council at the end of the lease period).

The Council is not required to raise Council Tax to cover depreciation or revaluation and impairment losses arising on leased assets. Instead a prudent annual contribution is made from revenue funds towards the deemed capital investment in accordance with statutory requirements. Depreciation and revaluation and impairment losses are therefore substituted by a revenue contribution in the General Fund Balance, by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

Operating Leases

Rentals paid under operating leases are charged to the Comprehensive Income and Expenditure Statement as an expense of the services benefiting from the use of the leased property, plant and equipment. Charges are made on a straight-line basis over the life of the lease, even if this does not match the pattern of payments (i.e. there is a rent free period at the commencement of the lease).

THE COUNCIL AS A LESSOR**Finance Leases**

Where the Council grants a finance lease over a property or an item of plant or equipment, the relevant asset is written out of the balance sheet as a disposal. At the commencement of the lease, the carrying amount of the asset in the balance Sheet (whether Property, Plant and Equipment or Assets Held for Sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. A gain, representing the Authority's net investment in the lease is credited to the same line in the Comprehensive Income and Expenditure Statement also as part of a gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal) matched by a lease (long term debtor) asset in the balance sheet.

Lease rentals receivable will be apportioned between:

- A charge for the acquisition of the interest in the property, plant or equipment - applied to write down the lease debtor (together with any premiums received), and
- Finance income (credited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement).

The gain credited to the Comprehensive Income and Expenditure Statement is not permitted by Statute to increase the General Fund Balance and is required to be treated as a capital receipt. Where a premium, this is posted out of the General Fund Balance to the Capital Receipts Reserve in the Movement in Reserves Statement. Where the amount due in relation to the lease asset is to be settled by the payment of rentals in future financial years, this is posted out of the General Fund Balance to the Deferred Capital Receipts Reserve in the Movement in Reserves Statement. When the future rentals are received, the element for the capital receipt for the disposal of the asset is used to write down the lease debtor. At this point, the deferred capital receipts are transferred to the Capital Receipts Reserve.

The written off value of disposals is not a charge against council tax, as the cost of Property, Plant and Equipment is fully provided for under separate arrangements for capital financing. Amounts are therefore appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

Operating Leases

Where the Council grants an operating lease over a property or an item of Plant or Equipment, the asset is retained in the Balance Sheet. Rental Income is credited to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement.

Credits are made on a straight-line basis over the life of the lease, even if this does not match the pattern of payments (i.e. there is a premium paid at the commencement of the lease).

Initial direct costs incurred in negotiating and arranging the lease are added to the carrying amount of the relevant asset and charged as an expense over the term on the same basis as rental income.

(u) OVERHEADS AND SUPPORT SERVICES

The costs of overhead and support services are charged to those services that benefit from them, in accordance with the Council's arrangements for accountability and financial performance.

(v) PRIOR YEAR ADJUSTMENTS, CHANGES IN ACCOUNTING POLICY AND ESTIMATES AND ERRORS

Prior year adjustments may arise as a result of a change in accounting policies or to correct a material error. Changes in accounting estimates are accounted for prospectively, i.e. in the current and future years affected by the change and do not give rise to a prior year adjustment.

Changes in accounting policies are only made when required by proper accounting practices or the change provides more clear and reliable information about the effect of transactions, other events and conditions on the Council's financial position or financial performance. Where a change is made, it is applied retrospectively (unless otherwise stated) by adjusting opening balances and comparative amounts for the prior year as if the new policy had always been applied.

(w) PRIVATE FINANCE INITIATIVE AND SIMILAR CONTRACTS

PFI and similar contracts are agreements to receive services, where the responsibility for making available the property, plant and equipment needed to provide the services passes to the PFI contractor. As the Council is deemed to control the services that are provided under its PFI schemes, and as ownership of the property, plant and equipment will pass to the Council at the end of the contracts for no additional charge, the Authority carries the assets used under the contracts on its Balance Sheet as Property Plant and Equipment.

The original recognition of these assets at fair value (based on the cost to purchase the Property, Plant and Equipment) was balanced by the recognition of a liability for amounts due to the scheme operator to pay for the capital investment.

These non-current assets recognised on the Balance Sheet are revalued and depreciated in the same way as property plant and equipment owned by the Council.

The amounts payable to the PFI operator each year are analysed into five elements:

- Fair value of the services received during the year - debited to the relevant service in the Comprehensive Income and Expenditure Statement;
- Finance Cost – An interest charge on the outstanding Balance Sheet Liability, debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement;
- Contingent Rent – increases in the amount to be paid for the property arising during the contract, debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement;
- Payment towards liability – applied to write down the balance sheet liability towards the PFI operator (the profile of write downs is calculated on the same basis as for a finance lease);
- Lifecycle replacement costs - proportion of the amounts payable is posted to the Balance Sheet as a prepayment and then recognised as additions to Property, Plant and Equipment when the relevant works are eventually carried out.

(x) PROPERTY, PLANT AND EQUIPMENT

Assets that have physical substance and are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes and that are expected to be used during more than one financial year are classified as Property, Plant and Equipment (PP&E).

Recognition

Expenditure on the acquisition, creation or enhancement of Property Plant and Equipment is capitalised on an accruals basis, provided that it is probable that the future economic benefits or service potential associated with the item will flow to the authority and the cost of the item can be measured reliably. Expenditure that remains but does not add to an assets potential to deliver future economic benefits or service potential (i.e. repairs and maintenance) is charged as an expense when it is incurred.

All expenditure, regardless of value, is capitalised if it relates to an existing asset. Expenditure on new assets under £10,000 is not capitalised but treated as Revenue Expenditure Funded from Capital Under Statute (REFCUS), with expenditure over £10,000 being capitalised.

Measurement

Assets are initially measured at cost, comprising:

- The purchase price,
- Any costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management,
- The initial estimate of the costs of dismantling and removing the item and restoring the site upon which it is located.

The Council does not capitalise borrowing costs incurred whilst assets are under construction.

The cost of assets acquired other than by purchase is deemed to be its current value, unless the acquisition does not have commercial substance (i.e. it will not lead to a variation in the cash flows of the authority). In the latter case, where an asset is acquired via an exchange, the cost of the acquisition is the carrying value of the asset given up by the Authority.

Assets are then carried in the Balance Sheet using the following measurement bases:

- Infrastructure, community assets and assets under construction – depreciated historical cost,
- Non HRA dwellings and rented property - current value, determined using the basis of existing use,
- Surplus assets - fair value, determined as the amount that would be paid for the asset in its existing use.
- All other assets - current value, determined as the amount that would be paid for the asset in its existing use.

Where there is no market-based evidence of fair value because of the specialist nature of an asset, depreciated replacement cost (DRC) is used as an estimate of current value.

Where non-property assets that have short useful lives or low values (or both), depreciated historical cost basis is used as a proxy for current value.

Assets included in the balance sheet at current value are revalued sufficiently regularly to ensure that their carrying amount is not materially different from their current value at the year end, but as a minimum every five years. Increases in valuations are matched by credits to the Revaluation Reserve to recognise unrealised gains. (Exceptionally gains might be credited to the Comprehensive Income and Expenditure Statement where they arise from the reversal of a loss previously charged to a service).

Where decreases in value are identified, they are accounted for by;

- Where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the Asset is written down against that balance (up to the amount of accumulated gains),
- Where there is no balance in the revaluation reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

The Revaluation Reserve contains gains recognised since 1 April 2007 only, the date of its formal implementation. Gains arising before that date have been consolidated into the Capital Adjustment Account.

Impairment

Assets are assessed at each year end as to whether there is any indication that an asset may be impaired. Where indications exist and any possible differences are estimated to be material, the

recoverable amount of the asset is estimated and, where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall.

Where impairment losses are identified, they are accounted for by:

- Where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the Asset is written down against that balance (up to the amount of accumulated gains),
- Where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

Where an impairment loss is reversed subsequently, the reversal is credited to the relevant service line(s) in the Comprehensive Income and Expenditure Statement, up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised.

Depreciation

Depreciation is provided for on all Property, Plant and Equipment assets by the systematic allocation of their depreciable amounts over their useful lives. An exception is made for assets without a determinable finite useful life, such assets that are not yet available for use (i.e. assets under construction) and assets held for a commercial return (i.e. investment properties).

Where an item of Property Plant or Equipment asset has major components whose cost is significant in relation to the total cost of the item, then the components are depreciated separately.

For those assets that have major components the percentage of the asset that makes up each component is shown below:

<u>Asset Type</u>	<u>Building</u>	<u>Roof</u>	<u>Services</u>	<u>Externals</u>	<u>Total</u>
Primary Schools	42%	9%	26%	23%	100%
Secondary Schools	50%	11%	22%	17%	100%
Sports Centres	49%	10%	23%	18%	100%
Libraries	49%	8%	28%	15%	100%

Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charged on assets and the depreciation that would have been chargeable based on their historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

Disposals and non-current assets held for sale

When it becomes apparent that the carrying amount of an asset will be recovered principally through a sale transaction rather than through its continuing use, it is reclassified as an Asset Held for Sale. The asset is revalued immediately before reclassification and then carried at the lower of this amount and current value less costs to sell. Where there is a subsequent decrease to current value less costs to sell, the loss is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Gains in current value are recognised only up to the amount of any losses previously recognised in the Surplus or Deficit on Provision of Services. Depreciation is not charged on Assets Held for Sale.

If assets no longer meet the criteria to be classified as Assets Held for Sale, they are reclassified back to non-current assets and valued at the lower of the carrying amount before they were classified as held for sale; adjusted for depreciation, amortisation or revaluations that would have been recognised had they not been classified as Held for sale, and their recoverable amount at the date of the decision not to sell.

Assets that are to be abandoned or scrapped are not reclassified as Assets Held for Sale.

When an asset is disposed of or decommissioned, the carrying amount of the asset in the Balance Sheet (whether Property Plant and Equipment or Assets Held for Sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal, Receipts from disposals (if any) are credited to the same line in the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal (i.e.

netted off against the carrying value of the asset at the time of disposal). Any revaluation gains accumulated for the asset in the Revaluation Reserve are transferred to the Capital Adjustment Account.

When an asset has been fully depreciated it is assumed, unless otherwise known, that the asset is disposed of or decommissioned in the following year. The gross value of the asset and the matching accumulated depreciation are then written out as disposals in that year.

Amounts received for a disposal in excess of £10,000 are categorised as capital receipts.

The written off value of disposals is not a charge against council tax, as the cost of Property, Plant and Equipment is fully provided for under separate arrangements for capital financing. Amounts are appropriated to the capital adjustments account from the General Fund Balance in the Movement in Reserves Statement.

Schools

When a maintained school transfers to Foundation Trust or Academy status the transfer of the school is treated as a disposal. Voluntary Aided and Voluntary Controlled schools are not recognised on the Council's Balance Sheet. The land and building are owned by the trustees of the school and the Council provides educational services under mere licence with no assignment of rights to the property. The trustees can terminate the arrangement at any time and as such the risks and rewards of the asset have not transferred to the school.

(y) PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS

Provisions

Provisions are made where an event has taken place that gives the Authority a legal or constructive obligation that probably requires settlement by a transfer of economic benefits or service potential, and a reliable estimate can be made of the amount of the obligation. For instance, the authority may be involved in a court case that could eventually result in the making of a settlement or the payment of compensation.

Provisions are charged as an expense to the appropriate service line in the Comprehensive Income and Expenditure Statement in the year that the Council becomes aware of the obligation and are measured at the best estimate at the Balance Sheet date of the expenditure required to settle the obligation taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the provision carried within the Balance Sheet. Estimated settlements are reviewed at the end of each financial year - where it becomes less than probable that a transfer of economic benefits will now be required (or a lower settlement than anticipated is made) the provision is reversed and credited back to the relevant service.

Where some or all of the payment required to settle a provision is expected to be recovered from another party (e.g. an insurance claim), this is only recognised as income for the relevant service if it is virtually certain the reimbursement will be received if the Council settles the obligation.

Amounts needed to settle any obligation are only discounted where required when included in the accounts.

Internal Insurance Cover

The Authority has established a provision to cover the potential costs of certain known uninsured losses, i.e. losses arising from excesses that apply to the Authority's main insurance policies. This is accounted for in line with the normal policy above.

Provision for NDR Appeals

The Authority has established a provision to cover the potential costs for refunding ratepayers who have successfully appealed against the rateable value of their properties. The provision covers the Council's locally retained share (99%) of the cost. This is accounted for in line with the normal policy above.

Contingent liabilities

A contingent liability arises where an event has taken place that gives the Council a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the authority. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required, or the amount of the obligation cannot be measured reliably.

Contingent liabilities are not recognised in the Balance Sheet but disclosed in a note to the accounts.

Contingent Assets

A contingent asset arises where an event has taken place that gives the Council a possible asset whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the authority.

Contingent Assets are not recognised in the Balance Sheet but disclosed in a note to the accounts where it is probable that there will be an inflow of economic benefit or service potential.

(z) RESERVES

The Council sets aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts out of the General Fund Balance in the Movement in Reserves Statement. When the expenditure to be financed from a reserve is incurred, it is charged to the appropriate service in that year to score against the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement. The reserve is then appropriated back into the General Fund Balance in the Movement of Reserves Statement so that there is no net change against council tax for the expenditure.

Certain reserves are held to manage the accounting processes for non-current assets, financial instruments, retirement and employee benefits and do not represent usable resources for the authority- these reserves are explained in the relevant notes and policies.

(aa) REVENUE EXPENDITURE FUNDED FROM CAPITAL UNDER STATUTE (REFCUS)

Expenditure incurred during the year that may be capitalised under statutory provisions but that does not result in the creation of a non-current asset has been charged as expenditure to the relevant service in the Comprehensive Income and Expenditure Statement in the year. Where the Council has determined to meet the cost of this expenditure from existing capital resources or from borrowing, a transfer in the Movement in Reserves Statement from the General Fund Balance to the Capital Adjustment Account then reverses out the amounts charged so that there is no impact on the level of council tax.

(bb) SCHOOLS

The Code of Practice on Local Authority Accounting in the United Kingdom confirms that the balance of control for local authority-maintained schools (ie those categories of school identified in the School Standards and Framework Act 1998, as amended) lies with the local authority. The Code also stipulates that those schools' assets, liabilities, reserves and cash flows are recognised in the local authority financial statements (and not the Group Accounts). Therefore, schools' transactions, cash flows and balances are recognised in each of the financial statements of the authority as if they were the transactions, cash flows and balances of the authority.

(cc) VAT

VAT payable is included as an expense only to the extent that it is not recoverable from Her Majesty's Revenue and Customs. VAT receivable is excluded from income.

9 COLLECTION FUND

The Collection Fund is an agent's statement that reflects the statutory obligation for billing authorities to maintain a separate Collection Fund. The statement shows the transactions of the billing authority in relation to the collection from taxpayers and distribution to local authorities and the Government of council tax and non-domestic rates.

NOTES TO THE COLLECTION FUND

1 COUNCIL TAX BASE

The Council's tax base, i.e., the number of chargeable dwellings in each valuation band for 2021/2022 (adjusted for dwellings where discounts apply) converted to a number of band D dwellings, has been calculated as follows:

Band	Number of Chargeable Dwellings After Discounts	Proportion of Band D Charge	Band D Equivalent Dwellings
A*	65.2	5/9	36.2
A	11,571.8	6/9	15,047.9
B	20,243.3	7/9	15,744.8
C	25,102.5	8/9	22,313.4
D	13,184.9	9/9	13,184.9
E	7,553.3	11/9	9,231.8
F	3,591.6	13/9	5,187.9
G	2,455.3	15/9	4,092.1
H	216.8	18/9	433.5
	94,984.5		85,272.3
Adjustment for estimated collection rate (98.25%)			-2,558.2
Adjustment for Ministry of Defence properties			8.0
Council Tax Base			82,722.1

* Properties subject to disabled relief

Band "D" Equivalent is the statutory method of expressing the cost of Council Tax for any given area if all properties are valued as a proportion of a band D property, e.g. band H, which is equivalent to twice the value of band D, would therefore be charged twice the band D equivalent.

2 **BUSINESS RATES INCOME**

Income from business rate payers reported in the Income and Expenditure Account has increased by -£26.550 million in 2021/22 largely as a result of a reduction in the amount of expanded retail discounts and nursery relief. Expanded retail discounts and nursery relief of £15.609m was awarded in 2021/22 (£41.941m awarded in 2020/21). Sefton's share of the cost of these discounts (99%) is fully funded by Central Government via a Section 31 Grant which is paid to the Council's General Fund Income and Expenditure Account.

3 **COLLECTION FUND SURPLUS / DEFICIT (-) PAYMENTS IN THE YEAR**

The following amounts were paid / recouped (-) during the year in respect of the estimated collection fund surplus / deficit:

Council Tax	<u>2020/2021</u> £000	<u>2021/2022</u> £000
Sefton Council	-1,974	-1,484
Merseyside Police and Crime Commissioner	-252	-191
Merseyside Fire and Rescue Service	-98	-72
Liverpool City region Combined Authority	-24	-17
	-2,348	-1,764

Business Rates	<u>2020/2021</u> £000	<u>2021/2022</u> £000
Sefton Council	610	-38,814
Merseyside Fire and Rescue Service	6	-392
	616	-39,206

4 **BUSINESS RATES MULTIPLIER AND RATEABLE VALUE**

Under the arrangements for nationally uniform business rates, the Council collects rates for its area, which are based on local rateable values multiplied by a uniform rate. The business rate multipliers applied are shown below:

Multipliers	<u>2020/2021</u>	<u>2021/2022</u>
Standard Business Rate Multiplier	51.2p	51.2p
Small Business Rate Multiplier	49.9p	49.9p

The total non-domestic rateable value on Sefton's Rating List was £180,991,064 at 31 March 2022 (£181,970,214 at 31 March 2021).

5 **PRECEPTS AND DEMANDS ON THE COLLECTION FUND**

The following precepts and demands have been made on the fund during the year:

Council Tax	<u>2020/2021</u> £000	<u>2021/2022</u> £000
Sefton Council (Including Parish Precepts)	139,830	143,037
Merseyside Police and Crime Commissioner	17,997	18,775
Merseyside Fire & Rescue Authority	6,826	6,783
Liverpool City Region Combined Authority	1,613	1,572
	166,267	170,167

6 SHARES OF NON-DOMESTIC RATES INCOME

Business rates income is shared on the following basis:

Business Rates	Share %	2020/2021 £000	2021/2022 £000
Sefton Council	99%	66,169	67,919
Merseyside Fire & Rescue Authority	1%	668	686
	100%	66,838	68,605

7 PROVISION FOR BAD AND DOUBTFUL DEBTS

The Collection Fund provides for bad debts on Council Tax and Business Rates arrears. The following movements on the bad debt provisions were recorded in the year:

Council Tax	2020/2021 £000	2021/2022 £000
Balance at 1 April	-15,030	-21,919
Write-offs in year	-32	-8
Increase / Decrease in Year	-6,857	-5,179
Balance at 31 March	-21,919	27,106

Business Rates	2020/2021 £000	2021/2022 £000
Balance at 1 April	-3,269	-7,019
Written-off in year	601	-23
Increase / Decrease in Year	-4,351	-1,272
Balance at 31 March	-7,019	-8,314

8 PROVISION FOR CHECKS, CHALLENGES AND APPEALS

The Collection Fund also makes a provision for checks, challenges, and appeals against rateable values set by the Valuation Office Agency (VOA). The table below shows the movements on the provision in the year:

Business Rates	2020/2021 £000	2021/2022 £000
Balance at 1 April	-18,891	-23,886
Movement in the Year	-4,995	2,533
Balance at 31 March	-23,886	-21,353

10 **GROUP ACCOUNTS**

The standard financial statements consider the Council only as a single entity. Sefton Council conducts some of its adult and social care services activities through a wholly owned company, Sefton New Directions Limited, which began trading on 1 April 2007. In addition, it wholly owns Sandway Homes Limited, a housing development company, and Sefton Hospitality Operations Limited, a hospitality company.

Thus, a full picture of the Council's economic activities, financial position, service position, accountability for resources and exposure to risk is not presented in the Council's single entity financial statements. As a result, group financial statements are used to reflect the full extent of Sefton Council's involvement with its group undertakings in order to provide a clearer picture of the Council's activities as a group.

The following pages include:

- Group Movement in Reserves Statement,
- Group Comprehensive Income and Expenditure Statement,
- Group Balance Sheet,
- Group Cash Flow Statement, and,
- Notes to the Group Accounts.
- A summary of the financial statements for Sefton New Directions and Sandway Homes.

The financial positions of Sefton Council, Sefton New Directions and Sandway Homes have been consolidated to produce the Group Accounts with any transactions and balances between the three organisations netted out on consolidation.

All organisations have a financial year-end of 31 March.

Sefton New Directions

The main effect of consolidation has been to increase revenue reserves by £4.194m (£0.423m decrease as at 31 March 2021), representing the Authority's 100% share of accumulated net surplus in the Company.

The Group Comprehensive Income and Expenditure Statement records a surplus for Sefton New Directions Limited of £4.700m in 2021/2022 (a £0.506m deficit in 2020/2021). It should be noted that the main reason for the surplus in 2021/2022 is a change in the accounting treatment of the Company's pension liability. As Sefton Council is the full guarantor for the Company's pension liability, the directors have deemed the derecognition of the liability to be appropriate.

After adjusting for Movements on Reserves the surplus recorded by Sefton New Directions Limited was £0.012m in 2021/2022 (a £0.469m deficit in 2020/2021).

No dividend was paid in 2021/2022 (a dividend of £0.111m was paid in 2020/2021).

Copies of the Company's accounts for 2021/2022 will be able to be obtained from The Company Secretary, Sefton New Directions Head Office, Third Floor, Burlington House, Crosby Road North, Waterloo, Liverpool, Merseyside, United Kingdom, L22 0PJ.

Sandway Homes

On 19 July 2018 Sefton (ACS) Development Company Limited, a company limited by shares and wholly owned by Sefton MBC, was incorporated. On 29 October 2018 Sandway Homes Limited, a company limited by share and wholly owned by Sefton (ACS) Developments Limited, was incorporated. The nature of business of Sandway Homes Limited is registered as development of building projects.

The filing of accounts of both companies is required by Companies House by 31 December 2022. The amounts consolidated within the Group Accounts are based on the Company's final accounts. For the year ending 31st March 2022, the Company was entitled to exemption from audit under section 477 of the Companies Act 2006 relating to small companies.

The main effect of consolidation has been to reduce revenue reserves by £2.234m in 2021/2022 (£1.839m in 2020/2021) representing the Authority's 100% share of accumulated net deficit in the Company.

The Group Comprehensive Income and Expenditure Statement records a deficit for Sandway Homes Limited of £0.396m in 2021/2022 (£0.505m in 2020/2021).

It should be noted that the financial performance in 2021/2022 is reflective of the Company transitioning into the early construction phase of its phase 1 development programme.

Sefton Hospitality Operations Limited

In May 2021 Sefton Hospitality Operations Limited, a company limited by shares and wholly owned by Sefton MBC, was incorporated. The Company is registered as providing hospitality services.

The filing of accounts of the Company is required by Companies House by 31 December 2022. However, as the Company has undertaken limited trading during 2021/2022 (the Company's main trading operation at Crosby Lakeside, The Lake House, opened in August 2022) the accounts of the Company will not be consolidated into the Group Accounts on the grounds of materiality (net expenditure is less than £0.150m).

GROUP COMPREHENSIVE INCOME AND EXPENDITURE STATEMENT

This statement shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation. Authorities raise taxation to cover expenditure in accordance with regulations; this may be different from the accounting cost. The taxation position is shown in the Movement in Reserves Statement.

GROUP MOVEMENT IN RESERVES STATEMENT

This statement shows the movement in the year on the different reserves held by the authority, analysed into 'usable reserves' (i.e. those that can be applied to fund expenditure or reduce local taxation) and unusable reserves. The Surplus or (Deficit) on the Provision of Services line shows the true economic cost of providing the authority's services, more details of which are shown in the Comprehensive Income and Expenditure Statement. These are different from the statutory amounts required to be charged to the General Fund Balance for Council Tax setting purposes. The Net Increase /Decrease before Transfers to Earmarked Reserves line shows the statutory General Fund Balance before any discretionary transfers to, or from, earmarked reserves undertaken by the Council.

GROUP BALANCE SHEET

The Balance Sheet shows the value as at the Balance Sheet date of the assets and liabilities recognised by the Authority. The net assets of the Authority (assets less liabilities) are matched by the reserves held by the authority. Reserves are reported in two categories. The first category of reserves are usable reserves, i.e. those reserves that the Authority may use to provide services, subject to the need to maintain a prudent level of reserves and any statutory limitations on their use (for example the Capital Receipts Reserve that may only be used to fund capital expenditure or repay debt). The second category of reserves is those that the Authority is not able to use to provide services. This category of reserves includes reserves that hold unrealised gains and losses (for example the Revaluation Reserve), where amounts would only become available to provide services if the assets are sold; and reserves that hold timing differences shown in the Movement in Reserves Statement line 'Adjustments between accounting basis and funding basis under regulations'.

GROUP CASH FLOW STATEMENT

The Cash Flow Statement shows the changes in cash and cash equivalents of the authority during the reporting year. The statement shows how the authority generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the authority are funded by way of taxation and grant income or from the recipients of services provided by the authority. Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute to the authority's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e. borrowing) to the authority.

<u>2020/2021</u> £000s		<u>Note</u>	<u>2021/2022</u> £000s

NOTES TO THE GROUP ACCOUNTS

1 INTRODUCTION

The notes below include details of where the inclusion of Sefton New Directions Limited and / or Sandway Homes has altered the disclosures within Sefton's single entity accounts. All other notes to the Group Financial Statements are as shown in the Notes to the single entity accounts.

2 DISCLOSURE OF AUDIT COSTS

Sefton New Directions Limited incurred the following fees relating to external audit and inspection.

<u>2020/2021</u> £000		<u>2021/2022</u> £000
14	Fees payable to Hazlewoods LLP for external audit services	17
14	Total	17

Sandway Homes didn't incur any fees relating to external audit and inspection. Sefton's expenditure on audit costs is shown in Note 11 to the single entity accounts.

3 ASSETS ON OPERATING LEASES

Sefton New Directions Limited made operating lease payments of £0.074m in 2021/2022 relating to Land and Buildings and other assets (£0.058m in 2020/2021). Sefton New Directions has obligations to make payments for operating leases in future years as follows:

<u>31 March</u> <u>2021</u> £000s		<u>31 March</u> <u>2022</u> £000s
60	Not later than one year	54
162	Later than one year and not later than five years	124
510	Later than five years	503
732		681

Sandway Homes had no operating leases. Sefton's expenditure on operating leases is shown in Note 48 to the single entity accounts.

4 PARTICIPATION IN PENSION SCHEMES

Sefton New Directions Limited and Sandway Homes employees are eligible to join defined contribution pension schemes. The pension cost charge for the year relates to the contributions paid in the year by the companies.

Sefton New Directions employees were previously eligible to join the same Local Government Pension Scheme as those employees in Sefton, i.e., a defined benefit scheme. Until 2020/2021 this was accounted for as a defined benefit scheme. However, for 2021/2022, due to Sefton Council being a full guarantor for the pension liability, the directors of the Company have deemed that the derecognition of the liability is appropriate. Pension contributions in respect of the defined benefit contribution scheme are now charged when contributions are paid.

The following transactions have been made in the Group Comprehensive Income and Expenditure Statement during the year:

1,065,258	44,972	31 March	1,145,646	49,895

The deficit for Sefton New Directions Limited on the Local Government Pension Scheme will be made good by increased contributions over the remaining working life of employees, as assessed by the scheme Actuary.

Basis for Estimating Assets and Liabilities

The principal assumptions used by the actuary for Sefton New Directions have been:

2020/2021		2021/2022
	<u>Mortality assumptions (years):</u>	
	Local Government Pension Scheme:	
21.0	Longevity at 65 for current pensioners: Men	21.0
24.0	Longevity at 65 for current pensioners: Women	24.0
24.0	Longevity at 65 for future pensioners: Men	22.0
26.0	Longevity at 65 for future pensioners: Women	26.0
	<u>Other assumptions</u>	
2.8%	Rate of Inflation - CPI	3.4%
4.2%	Rate of increase in salaries	4.9%
2.7%	Rate of increase in pensions	3.5%
2.1%	Rate for discounting scheme liabilities	2.8%

The assumptions used by the actuary for Sefton Council are shown in Note 51 to the single entity accounts.

5 PROPERTY, PLANT AND EQUIPMENT

The Property, Plant and Equipment (PP&E) figure in the Group Balance Sheet includes £0.231m for Vehicles, Plant and Equipment of Sefton New Directions Limited at 31 March 2022 (£0.359m at 31 March 2021) and £0.065m for Land and Buildings (£0.086m at 31 March 2021). It also includes £2.232m at 31 March 2022 for Land of Sandway Homes (£2.232m at 31 March 2021). Details of Sefton's PP&E are shown in Note 18 to the single entity accounts.

6 CURRENT ASSETS

The Current Assets figure in the Group Balance Sheet includes £0.354m for Debtors of Sefton New Directions Limited at 31 March 2022 (£0.489m at 31 March 2021) and £0.518m at 31 March 2022 for Debtors of Sandway Homes (£nil at 31 March 2021). Details of Sefton's Debtors are shown in Note 27 to the single entity accounts.

7 CASH AND CASH EQUIVALENTS

The balance of Cash and Cash Equivalents held by Sefton MBC, Sefton New Directions Limited and Sandway Homes are shown below:

31 March 2021 £000s		31 March 2022 £000s
66,410	Sefton MBC - Cash and Cash Equivalents	98,328
4,011	Sefton New Directions Limited - Bank Deposits	4,770
420	Sandway Homes	215
70,841	Total Cash and Cash Equivalents	103,313

8 CURRENT LIABILITIES

The Current Liabilities figure in the Group Balance Sheet includes £1.181m for Creditors of Sefton New Directions Limited at 31 March 2022 (£0.708m at 31 March 2021) and £10.001m for Creditors (£0.817m at 31 March 2021) and £0.000m for Receipts in Advance (£0.625m at March 2021) relating to Sandway Homes. Details of Sefton's Creditors are shown in Note 29 to the single entity accounts.

9 PROVISIONS

The Current Liabilities figure in the Group Balance Sheet includes £0.045m for Short Term Provisions of Sefton New Directions Limited at 31 March 2022 (£0.054m at 31 March 2021). Details of Sefton's provisions are shown in Note 30 to the single entity accounts. Movements in New Directions' provisions during the year were as follows:

	2021/2022	<u>1 April</u> <u>2021</u> £000s	<u>Additions</u> <u>in Year</u> £000s	<u>Applied</u> <u>In Year</u> £000s	<u>Released</u> <u>In Year</u> £000s	<u>31 March</u> <u>2022</u> £000s
(a)	Deferred Tax	-54	0	9	0	-45

Comparable figures for the previous year are shown below:

	2020/2021	<u>1 April</u> <u>2020</u> £000s	<u>Additions</u> <u>in Year</u> £000s	<u>Applied</u> <u>In Year</u> £000s	<u>Released</u> <u>In Year</u> £000s	<u>31 March</u> <u>2021</u> £000s
(a)	Deferred Tax	-61	0	7	0	-54

(a) **Deferred Tax** – This relates to the difference between accumulated depreciation and amortisation and capital allowances.

10 **CASH FLOW STATEMENT – OPERATING ACTIVITIES**

The cash flows for operating activities include the following items:

<u>2020/2021</u> £000s		<u>2021/2022</u> £000s
-365	Interest received	-339
8,066	Interest paid	7,398

11 **STATEMENT OF ACCOUNTING POLICIES**

The Accounting Policies for the Group are described in Note 56 to the single entity accounts.

12 **OTHER INFORMATION:**

The following disclosures are for information only and do not form part of the financial statements.

11 FOREWORD TO THE ANNUAL GOVERNANCE STATEMENT

The Council is responsible for ensuring that its business is conducted in accordance with the law and proper standards and that public money is safeguarded and properly accounted for and used economically, efficiently and effectively. The Leader of the Council, Councillor Ian Maher and the Chief Executive, Dwayne Johnson both recognise the importance of having good systems of governance, risk and assurance in place to be able to manage and deliver services to its residents, businesses, partners and stakeholders. The Council has adopted a Code of Corporate Governance, which is consistent with the principles of the CIPFA/SOLACE Framework 'Delivering Good Governance in Local Government'.

Each year, to provide an assurance on this, the Council is required to conduct an annual review of the effectiveness of its governance, risk and assurance systems to produce an Annual Governance Statement (AGS) which provides an assurance on how these systems have been working. This annual review is in respect of 2021/22 and this statement provides an assurance that good governance arrangements are in place and the Council is managing the risks to achieving its objectives. It also sets out planned actions for next year 2022/23. The AGS is also published in the Council's Annual Accounts.

With the ongoing impact of COVID-19 this has meant that governance, assurance but particularly risk continue to need to be prioritised. This therefore continues to expose the Council to significant risks but we are assured that every action was taken to continue to mitigate these risks in 2021/22 and we will continue to ensure that any lessons nationally, regionally and locally are applied to our organisation's future approach to managing such extreme circumstances.

We have conducted our annual review of the effectiveness of the systems of governance, risk and assurance in place at Sefton MBC and it is our opinion that these are fit for purpose and in accordance with the governance framework. We propose over the coming year to take actions to address highlighted issues in the AGS and further improve our corporate governance arrangements. We are satisfied that these actions will address the need for improvements that were identified in our annual review of effectiveness in 2021/22 and we will monitor their implementation and operation as part of our annual review in 2022/23.

Councillor Ian Maher
Leader of the Council

Dwayne Johnson
Chief Executive

Annual Governance Statement 2021/22

Year Ended 31 March 2022

1. Introduction and Scope of Responsibility

Sefton Council is responsible for ensuring that its business is conducted in accordance with the law and proper standards and that public money is safeguarded and properly accounted for. Sefton Council also has a duty under the Local Government Act 1999 to make arrangements to secure continuous improvement in the way in which its functions are exercised, having regard to a combination of economy, efficiency and effectiveness.

It also meets the requirements of the Accounts and Audit Regulations 2015 which requires the Council to publish an Annual Governance Statement (AGS) in accordance with proper practice in relation to internal control.

The Council has reviewed its existing governance arrangements and has subsequently approved and adopted in September 2019 a local Code of Corporate Governance, which is consistent with the seven principles of Corporate Governance as set out in the CIPFA/SOLACE publication 'Delivering Good Governance in Local Government Framework 2016'.

In discharging this overall responsibility, Sefton Council is responsible for putting in place proper arrangements for the governance of its affairs and facilitating the effective exercise of its functions, which includes arrangements for the management of risk.

2. The Purpose of the Annual Governance Statement

The AGS is a public document that reports on the extent to which the Council complies with its own Code of Corporate Governance, demonstrating the monitoring and evaluation of the effectiveness of governance arrangements. The AGS is a valuable means of communication and reflects the Council's features, challenges and any planned changes in the coming period.

The governance framework comprises the systems, processes, culture and values by which the authority is directed and controlled; and through which it engages with and leads its communities. This framework enables the authority to develop and achieve its strategic objectives and core purpose in delivering the 2030 vision. The Council's governance arrangements are designed to manage risk to a reasonable level within this context. These arrangements cannot eliminate risk but can provide reasonable assurance for the AGS.

- i. The system of internal control is a significant part of that framework and is designed to manage risk to a reasonable level. It cannot remove all risk of failing to achieve the Council's aims and objectives but can provide a reasonable assurance of effectiveness. The system of internal control is based on an on-going process designed to identify and prioritise the risks that could prevent the Council from achieving its aims and objectives;
- ii. assess how likely it is that identified risks will happen and what the potential impact would be if they did, and
- iii. manage the risks effectively.

For the purposes of this statement, the governance framework has been in place at Sefton Council from 1 April 2021 and up to the date of the approval of the annual statement of accounts.

3. The Governance Framework

The seven principles of Corporate Governance laid out in the CIPFA/SOLACE Framework: Delivering Good Governance in Local Government (2016 Edition) and the Council's Code of Corporate Governance are available on the Council's website on the link below:

<https://modgov.sefton.gov.uk/ecCatDisplay.aspx?sch=doc&cat=13370&path=0>

The Council's Code of Corporate Governance is included in the Audit and Governance Committee's Annual Work Programme for 2022/23 for review and approval on 15 March 2023.

Sefton Council has responsibility for conducting, at least annually, a review of the effectiveness of its governance framework including the system of internal control.

The review of effectiveness is informed by:

- Senior managers who have responsibility for the development and maintenance of the governance environment within their service areas;
- The Chief Internal Auditor's Annual Audit Opinion Statement, which includes a report on the effectiveness of Internal Audit, and
- Feedback, recommendations and comments made by the external auditors and other review agencies and inspectorates.

The outcome from this review is provided in sections 4 and 5 of this report.

4. Review of Effectiveness

Decision Making and Scrutiny

The Council approved the overall policy and budgetary framework for the financial year 2021/22. Cabinet subsequently made decisions at various points throughout the year that were in line with this policy and budget framework. The decisions of the Cabinet have been the subject of scrutiny through the Council's Overview and Scrutiny Committees which met regularly during the year.

Each Overview and Scrutiny Committee had a work programme for the year and reviewed a range of current activities and potential issues as part of that programme.

All decisions made by Committees, Council, Cabinet, Cabinet Member (under their delegated powers) and Chief Officer executive decisions are recorded and published online for transparency. Delegation arrangements for Cabinet Members are reviewed annually by the Chief Legal and Democratic Officer as part of the Constitution review process. The Council publishes a calendar of meetings and deadlines for the submission of agenda items. Agendas and reports are produced promptly and provided to the relevant Members. The Executive Director of Corporate Resources and Customer Services and the Chief Legal and Democratic Officer have been consulted on these reports and any comments have been incorporated into the reports.

Audit and Governance Committee

The Audit and Governance Committee provides independent assurance on the adequacy of the Council's risk, governance and assurance environment. All political parties are represented on the Audit and Governance Committee. The Committee monitors the Corporate Risk Register which includes the mitigating actions that has been taken for the Council to manage the risks to achieving its objectives. Full details of this is available on the Council's website on the link below:

<https://modgov.sefton.gov.uk/mgCommitteeDetails.aspx?ID=141>

The Committee met four times during 2021/22 on 23 June 2021, 15 September 2021, 15 December 2021 and 16 March 2022. The special meeting planned for the consideration of the Council's Annual Statement of Accounts for 2020/21 on 21 July 2021 was cancelled as a result of the Council's External Auditor having not completed their annual audit work, therefore this special meeting could not take place. The Council's Annual Statement of Accounts for 2020/21 were subsequently considered at the Committee's meeting on 15 December 2021. The Committee's Annual Work Programme for 2022/23 has a special meeting scheduled for November 2022 for the consideration of the Council's Annual Statement of Accounts for 2021/22. Meetings have considered reports, from the Monitoring Officer, the Section 151 (S151) Officer, the Chief Internal Auditor and the External Auditor.

Executive Leadership Team

The Council's Executive Leadership Team (ELT) is led by the Chief Executive and includes Executive Directors which includes the S151 Officer. ELT meet fortnightly to consider and provide leadership on all business matters of the Council.

As part of the corporate governance review for 2021/22 members of the ELT, including the Chief Executive, have provided formal assurance in respect of their role and responsibilities, by each of them completing a Governance Assurance Statement (GAS). The GAS is based upon the seven principles of Corporate Governance laid out in the CIPFA/SOLACE Framework: Delivering Good Governance in Local Government (2016 Edition) referred to in Section 3 above.

Strategic Leadership Board

The Strategic Leadership Board (SLB) consists of the Chief Executive, Executive Directors, Heads of Service and the Council's Monitoring Officer. It provides senior management and leadership in the development, delivery and communication of Council and borough-wide policy and performance. It has a key responsibility for the development and maintenance of the governance environment.

Each Head of Service is responsible for the governance framework and good governance in their individual Service area and are in turn supported by their managers. As part of the corporate governance review for 2021/22 Heads of Service (HoS) have provided formal assurance in respect of their service area, by completing GASs based on the above Framework. The Council's Monitoring Officer, the Chief Legal and Democratic Officer has also completed a GAS. In June 2022, the job titles of HoS were changed to Assistant Directors.

External Audit

Ernst & Young LLB are the Council's appointed External Auditor for 2021/22. The work of the Council's External Auditor includes an examination of the Council's Annual Accounts and an assessment of the degree to which the Council delivers value for money in the use of its resources. The External Auditor will also reach an opinion on the consistency of the AGS with other information published with the Council's Annual Accounts. The AGS is published in the Council's Annual Accounts.

Internal Audit

The Council takes assurance about the effectiveness of the governance environment from the work of Internal Audit which provides independent and objective assurance across the whole range of Council activities. It is the duty of the Chief Internal Auditor to give an opinion, at least annually, on the adequacy and effectiveness of internal control within the Council.

Based upon the work of Internal Audit during 2021/22, the Chief Internal Auditor provided the Council with an overall opinion of adequate, with the potential for improvement being adequate on the arrangements for gaining assurance through the governance framework and on the controls reviewed as part of the Internal Audit programme. It should be noted that this latter assessment has been driven by the pandemic and the fact that the Council has not been able to progress some key areas of activity during the year as it was responding to the pandemic.

Internal Audit carried out follow up audit reviews for all high risk recommendations and a sample of medium and low risk recommendations to ensure that recommendations made had been implemented as agreed by management.

The Public Sector Internal Audit Standards were introduced from April 2013 and updated in April 2017. The service was the subject to a review during 2017/18 which was assessed as being generally compliant with the Public Sector Internal Audit Standards 2017.

Other External Inspections

During the year, a number of external inspections took place within the Council. Appropriate action plans have been developed and processes are in place to track delivery. Notable inspections include:

- Youth Inspection;
- Joint local area SEND revisit in Sefton (Care Quality Commission and Ofsted);
- Schools' Ofsted Inspections;
- Ofsted Inspection of Local Authority Children's Services;
- Food Standards Agency Audit Report - Food Law Enforcement Service: Onsite Audit;
- JTAI for Children's Mental Health, and
- LGA Peer Review Revisit.

From the evaluation work undertaken the following sections look at how the Council is held to account for the seven principles of Corporate Governance.

5. Significant Governance Issues

In addition to identifying those areas where the Council meets the principles of Corporate Governance, it is also appropriate to identify areas of improvement that can be undertaken during the next financial year, or where it is considered that there is a significant new or ongoing issue that will require stringent focus due to the potential impact. These are termed as 'Significant Governance Issues' (SGIs) and can be defined as an issue that:

- Seriously prejudices or prevents achievement of a key target;
- Has resulted in a need to seek additional funding to allow it to be resolved, or has resulted in significant diversion of resources from another aspect of the business;
- The External Auditor regards as having a material impact on the accounts/value for money conclusion;
- Audit and Governance Committee advises that it should be considered significant;
- The Chief Internal Auditor identifies and reports on it as significant;

- It has been reported as significant by external bodies - for example Care Quality Commission, Ombudsman, Information Commissioner, Independent Consultants;
- The issue, or its impact, has attracted significant public interest, or has seriously damaged the reputation of the body;
- May make it harder to prevent fraud or other misuse of resources, and
- May put financial stability, security or data integrity at risk.

The 2021/22 annual governance review has identified the following issues:

	Significant Governance Issue (SGI)	Source	Action to Address the Issue	Timescale	Lead
1	<p>There were three SGIs in the Council's 2020/21 Annual Governance Statement relating to inspections as follows:</p> <ul style="list-style-type: none"> • A Joint Targeted Area Inspection (JTAI) for Children's Mental Health in Sefton took place in September 2019; <ul style="list-style-type: none"> • An Ofsted and Care Quality Commission (CQC) revisit in April 2019 relating to weaknesses in the Written Statement of Action (WSOA), and 	GAS Review	<p>JTAI - In June 2021, an interim Executive Director of Children's Social Care and Education was appointed. An overarching Children's Plan was developed and in April 2021, an independent person was identified as chair for the partnership Children's Improvement Board. The Department for Education (DfE) issued an Improvement Notice for Children's Social Care Services in May 2021. The Council has further external advice from a DfE advisor who is a member of the Board. This has opened a range of advice and support to Sefton at all levels in the organisation.</p> <p>Ofsted and Care Quality Commission (CQC) - In June 2021, a review of the Improvement Notice was undertaken by Department for Education (DfE) and NHS England (NHSE) advisers and officials. <ul style="list-style-type: none"> Sefton was overdue an Ofsted Inspection of Local Authority Children's Services. Following a pause in the inspection framework due to COVID-19, Ofsted undertook a 'restart' focused visit of Children's Social Care in March 2021. This was not a full inspection and therefore was not graded. A letter to the Council was published on the Ofsted website on 10 May 2021 with the visit's findings and identification of priority action. 		<p>demonstrated significant progress the Council and partners had made and its success in addressing and embedding the improvements identified in Ofsted's/CQC revisit in 2019. The Improvement Notice was revoked and the Council and partners formally exited departmental intervention. The SEND Continuous Improvement Board continues with oversight of the SEND system in Sefton. Since the 2019 Inspection the Board are aware of the additional 800 educational health and care plans required to support individuals and families and the resource impact on the workforce and high needs budget. Mitigated actions have been put in place to address these matters.</p> <p>Ofsted - In February 2022, an Inspection of Sefton Local Authority Children's Services took place and the judgement was graded inadequate. A revised Improvement Plan is being developed and this was submitted to Ofsted by 17 August 2022. Following the Inspection, the DfE appointed a Children Commissioner to review the Council capacity and capability and would report to the Children Social Care Minister in October 2022.</p>	31 March 2023	<p>Children's Services.</p> <p>Dwayne Johnson, Chief Executive and Martin Birch, Executive Director of Education and Children's Services.</p>

Significant Governance Issue (SGI)	Source	Action to Address the Issue	Timescale	Lead
<p>Areas for priority action in the letter included:</p> <ul style="list-style-type: none"> • Timely application of the pre-proceedings stage of the Public Law Outline where risks for children are not reducing through child protection planning, and • The effectiveness of case supervision and the monitoring of children who are subject to child protection planning, including those children in the pre-proceedings process, to prevent drift and delay. <p>What needs to improve in this area of social work practice:</p> <ul style="list-style-type: none"> • The quality assurance arrangements and senior management oversight of social work practice; • The strategic and operational focus on achieving change and reducing risk for vulnerable children, including disabled children and care leavers, and • The capacity in social work teams and the number of children on social workers' caseloads. 		<p>The pace of the required change is a challenge given capacity and so the Council has invested an additional £11.6m in Children's Services, secured the required interim transformational resources, put in place a robust Improvement Plan, developed a new approach to recruiting the Children's Social Care workforce and appointed a new Executive Director of Children's Social Care and Education.</p>		
<p>2 There was a Local Government Association (LGA) Peer Review Revisit on 21 and 22 April 2022.</p> <p>The LGA Peer team reviewed progress against the recommendations since the last</p>	<p>GAS Review</p>	<p>The Council will consider the public feedback report and then publish an action plan in response within eight weeks of the report's publication.</p>	<p>31 March 2023</p>	<p>Dwayne Johnson, Chief Executive</p>

Update on the Significant Governance Issues

The Annual Governance Statement was signed off in September 2022 and subsequently approved by the Audit and Governance Committee on 27th September 2023. It was therefore written as at that point in time. In the intervening period (to October 2024) all action points outlined above have been completed.

In addition, CIPFA requires that for any significant events that have occurred, between the Annual Governance Statement being signed and the final audited Statement of Accounts being published, relating to the Significant Governance Issues referred to in the AGS, then an update should be included in the AGS. The following issue has been identified as requiring an update:

Item 1 - Ofsted ‘restart’ focused visit of Children’s Social Care in March 2021

In February 2022, OFSTED undertook an Inspection of Sefton Local Authority Children’s Services, and the judgement was graded inadequate. Revised Improvement Plans have been produced and monitoring visits have been undertaken since that date, the most recent one taking place in June 2024.

Conclusion and Declaration

The review provides good overall assurance that Council's arrangements continue to be regarded as fit for purpose in accordance with the Governance Framework.

During the next twelve months there will be improvements to address the above matters and further enhance governance arrangements. The effectiveness of measures implemented in 2022/23 will be monitored and reported as part of the next annual review.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SEFTON METROPOLITAN BOROUGH COUNCIL

Disclaimer of Opinion

We were engaged to audit the financial statements of Sefton Metropolitan Borough Council ('the Council') and its subsidiaries (the 'Group') for the year ended 31 March 2022. The financial statements comprise the:

- Council and Group Movement in Reserves Statement,
- Council and Group Comprehensive Income and Expenditure Statement,
- Council and Group Balance Sheet,
- Council and Group Cash Flow Statement
- the related notes 1 to 56 and Group Accounts notes 1 to 12 including a summary of significant accounting policies and including the Expenditure and Funding Analysis,
- Collection Fund and the related notes 1 to 8.

The financial reporting framework that has been applied in their preparation is applicable law and the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2021/22 as amended by the Update to the Code and Specifications for Future Codes for Infrastructure Assets (November 2022).

We do not express an opinion on the accompanying financial statements of the Group and the Council. Because of the significance of the matter described in the basis for disclaimer of opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

Basis for disclaimer of opinion

The Accounts and Audit (Amendment) Regulations 2024 (Statutory Instrument 2024/907), which came into force on 30 September 2024, requires the accountability statements for this financial year to be approved not later than 13 December 2024.

We completed the audit of the 2020/21 financial statements and issued our audit opinion on 9 February 2024.

The Council published their 2021/22 financial statements on 30 August 2022, 1 month after the statutory publication deadline. Along with the wider requirements of the local audit system reset, we did not have the required resources available to complete the detailed audit procedures that would be needed to obtain sufficient appropriate audit evidence to perform the 2021/22 and 2022/23 audits before the backstop date.

Therefore, we are disclaiming our opinion on the financial statements.

Matters on which we report by exception

Notwithstanding our disclaimer of opinion on the financial statements we have nothing to report in respect of whether the annual governance statement is misleading or inconsistent with other information forthcoming from the audit, performed subject to the pervasive limitation described above, or our knowledge of the Group and the Council.

We report to you if:

- we issue a report in the public interest under section 24 of the Local Audit and Accountability Act 2014 (as amended)
- we make written recommendations to the audited body under Section 24 of the Local Audit and Accountability Act 2014 (as amended)
- we make an application to the court for a declaration that an item of account is contrary to law under Section 28 of the Local Audit and Accountability Act 2014 (as amended)

- we issue an advisory notice under Section 29 of the Local Audit and Accountability Act 2014 (as amended)
- we make an application for judicial review under Section 31 of the Local Audit and Accountability Act 2014 (as amended).

We have nothing to report in these respects

In respect of the following, we have matters to report by exception:

We report to you, if we are not satisfied that the Group and the Council has put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2022.

On the basis of our work, having regard to the Code of Audit Practice 2024, and to the guidance issued by the Comptroller and Auditor General in November 2024, we have identified the following significant weakness in the Council's arrangements for the year ended 31 March 2022.

Significant weakness in arrangements

Our judgement on the nature of the weakness identified:

In May 2021 Ofsted reported the findings from their focused visit and outlined that improvements were needed in:

- The quality assurance arrangements and senior management oversight of social work practice.
- The strategic and operational focus on achieving change and reducing risk for vulnerable children.
- The capacity in social work teams and the number of children on social workers' caseloads.

Following their 2021 focused visit Ofsted undertook a full inspection in 2022 and overall the Council were graded as "inadequate" with each of the following areas of judgement also rated as inadequate:

- The impact of leaders on social work practice with children and families
- The experiences and progress of children who need help and protection
- The experiences and progress of children in care and care leavers

Ofsted reported that over a long period the political and executive leadership had not secured the structures, systems and processes to keep an effective single line of oversight of children's service and that the focused visit in 2021 identified serious weaknesses in child protection practice and management oversight resulting in areas for priority action. Ofsted outlined that the council and senior leaders had not sufficiently understood these failures or taken the necessary actions to improve services for children.

The Ofsted inspection outcome was undertaken in February 2022 and was published in March 2022. This means that the corrective actions planned by the Council would fall within the year 2022/23. However, in February 2023 Ofsted completed a monitoring visit which was released in March 2023. The headline finding of the visit identified that there had been insufficient progress in improving the response to children in need of help and protection. The pace of improvement was too slow and most practice weaknesses identified at the inspection in February 2022 remained. The report further states that, recruitment and retention of social workers remained a significant challenge and a barrier to improvement. There was a continued high dependence on agency social workers, which made the service fragile. The director of children's services (DCS) had announced plans to leave the local authority, and this brought further change. Too many children continued to experience drift and delay in having their needs met and some continued to experience ongoing harm because risks were not always fully

recognized in assessments, and the resulting plans were not supporting timely and appropriate decision-making.

Not much progress was made by the Council on the recommendations by Ofsted for the period 2022/23. The inadequate rating given in 2022 remained at the end of the reporting date. Substantial progress was made in the subsequent period in 2023/24.

The evidence on which our view is based:

- Ofsted Children's services focused visit published on 10 March 2021
- Ofsted Children's services inspection published on 21 February 2022
- Ofsted Children's services monitoring visits published on 21 February 2023
- Ofsted Children's services monitoring visits published on 19 July 2023
- Ofsted Children's services monitoring visits published on 15 November 2023
- Review of the most recent Council minutes of the Overview and Scrutiny Committee responsible for monitoring the challenges relating to improvement of Children's Services to the Council's Cabinet.

Impact on the local body:

Ofsted identified both serious and widespread failures in core areas of social work practice including assessment, planning, and management oversight. Ofsted reported that there is insufficient capacity across the workforce to secure a timely and appropriate response for children. As a result, some children are left with inadequate protection, and experience delays in having their needs met, including the need for timely permanence. Ofsted also reported that there is a heavy reliance on agency staff across all areas of the service making the service unstable and there is a lack of management oversight to support timely decision-making and planning in the best interests of children.

Action the body needs to take to address the weakness:

The Council needs to execute the Children's Improvement Plan – Phase 1, Phase 2 and Phase 3 effectively, bringing about the necessary changes to enhance outcomes for vulnerable children and young people in Sefton. This will require collaboration with regulators and key stakeholders to address the shortcomings in safeguarding arrangements highlighted by Ofsted.

This issue is evidence of weaknesses in proper arrangements for governance, including how the body monitors and ensures appropriate standards, such as legislative and regulatory requirements, are met.

Responsibility of the Executive Director of Corporate Resources and Customer Services

As explained more fully in the Statement of the Executive Director of Corporate Resources and Customer Services' Responsibilities set out on page 25, the Executive Director of Corporate Resources and Customer Services is responsible for the preparation of the Statement of Accounts, which includes the Group and the Council financial statements, in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2021/22 as amended by the Update to the Code and Specifications for Future Codes for Infrastructure Assets (November 2022), and for being satisfied that they give a true and fair view and for such internal control as the Executive Director of Corporate Resources and Customer Services determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Executive Director of Corporate Resources and Customer Services is responsible for assessing the Group and the Council's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Group and the Council either intends to cease operations, or has no realistic alternative but to do so.

The Council is responsible for putting in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources, to ensure proper stewardship and governance, and to review regularly the adequacy and effectiveness of these arrangements.

Auditor's responsibilities for the audit of the financial statements

Our responsibility is to conduct an audit of the Group and the Council's financial statements in accordance with International Standards on Auditing (UK) and to issue an auditor's report.

However, because of the matter described in the basis for disclaimer of opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are independent of the Group and the Council in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard and the Code of Audit Practice 2024 and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Scope of the review of arrangements for securing economy, efficiency and effectiveness in the use of resources

We have undertaken our review in accordance with the Code of Audit Practice 2024, having regard to the guidance on the specified reporting criteria issued by the Comptroller and Auditor General in November 2024, as to whether Sefton Metropolitan Borough Council had proper arrangements for financial sustainability, governance and improving economy, efficiency and effectiveness. The Comptroller and Auditor General determined these criteria as those necessary for us to consider under the Code of Audit Practice in satisfying ourselves whether Sefton Metropolitan Borough Council put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2022.

We planned our work in accordance with the Code of Audit Practice. Based on our risk assessment, we undertook such work as we considered necessary to form a view on whether, in all significant respects, Sefton Metropolitan Borough Council had put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources.

We are required under Section 20(1)(c) of the Local Audit and Accountability Act 2014 (as amended) to satisfy ourselves that the Authority has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources.

We are not required to consider, nor have we considered, whether all aspects of the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources are operating effectively.

Certificate

We certify that we have completed the audit of the accounts of Sefton Metropolitan Borough Council in accordance with the requirements of the Local Audit and Accountability Act 2014 (as amended) and the Code of Audit Practice issued by the National Audit Office.

Use of our report

This report is made solely to the members of Sefton Metropolitan Borough Council, as a body, in accordance with Part 5 of the Local Audit and Accountability Act 2014 (as amended) and

for no other purpose, as set out in paragraph 43 of the Statement of Responsibilities of Auditors and Audited Bodies published by Public Sector Audit Appointments Limited. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Group and the Council and the Group and the Council's members as a body, for our audit work, for this report, or for the opinions we have formed.

Hayley Clark
Ernst & Young LLP

Ernst & Young LLP (Local Auditor)
Birmingham
Date: 09 December 2024

The following footnote does not form part of our Auditor's Report.

Additional information related to the disclaimer of opinion is set out in our Completion Report for Those Charged with Governance dated 15 November 2024, available on the Authority's website, which includes further explanations about the implementation of the statutory instrument which led to the disclaimer of our opinion on the financial statements.

13 **GLOSSARY**

ACCOUNTABLE BODY

Projects financed from Government / European resources in some instances require grant claims from recognised legal entities, especially when a partnership or voluntary organisation is involved. This accountable body (usually the local authority) is held responsible for the proper completion of grant claims, ensuring that appropriate financial systems are in place and to receive and distribute the grant.

ACCRUALS

The concept that income and expenditure are recognised in the accounts as they are earned or incurred not as money is received or paid.

ACTUARIAL GAINS AND LOSSES

For a defined benefit pension scheme, the changes in actuarial deficits or surpluses that arise because:

- (i) Events have not coincided with the actuarial assumptions made for the last valuation (Asset and Liability Gains and Losses); or
- (ii) The actuarial assumptions have changed.

AMORTISATION

The accounting technique of recognising a cost or item of income in the Income and Expenditure Account over a period of years rather than when the initial payment is made. Its purpose is to charge/credit the cost/income over the accounting periods that gain benefit for the respective item. The technique is supported by relevant accounting policies and practices.

AUTHORITY

Another term used to refer to the Council.

BALANCES

These represent accumulated monies of the Authority. Non-School General Fund balances may be utilised to reduce the amount to be met from Revenue Support Grant, NNDR and local taxpayers. School balances can be used by schools to finance future years' expenditure.

BEST VALUE

The Local Government Act 1999 introduced the principle of Best Value and places a statutory duty on authorities to provide economy, efficiency and effectiveness in the provision of its services.

BUSINESS IMPROVEMENT DISTRICT

Business Improvement Districts are business led partnerships which are created through a ballot process to deliver additional services to local businesses.

Business Improvement Districts cover a defined area in which a levy is charged on all business rate payers in addition to the business rates bill. This levy is used to develop projects which will benefit businesses in the local area.

CAPITAL CHARGES

A charge to service revenue accounts to reflect the cost of fixed assets used in the provision of services.

CAPITAL EXPENDITURE

Capital expenditure is the acquisition of a fixed asset or expenditure which adds to the value of the existing fixed asset (e.g. building of a school). It can be spent either directly by the local authority or indirectly in the form of grants to other persons or bodies.

CAPITAL RECEIPTS

The proceeds from the sale of capital assets which, subject to various limitations, can be used to finance Capital Expenditure or to repay leasing charges or outstanding debt on assets originally financed through loan. A proportion of capital receipts may need to be set aside to meet future liabilities.

CHARTERED INSTITUTE OF PUBLIC FINANCE AND ACCOUNTANCY (CIPFA)

CIPFA is the leading professional accountancy body for public services, which has responsibility for setting accounting standards in Local Government.

CODE OF PRACTICE ON LOCAL AUTHORITY ACCOUNTING IN GREAT BRITAIN (THE CODE)

The Statement of Accounts is produced in accordance with CIPFA's Code of Practice on Local Authority Accounting in Great Britain, which is updated annually. The Code specifies the principles and practices of accounting required to prepare a Statement of Accounts which "presents fairly" the financial position and transactions of a local authority.

COMMUNITY ASSETS

These are assets that the Authority intends to hold indefinitely, have no determinable useful life and may have restrictions on their disposal. Examples include parks and historic buildings.

CONTINGENT ASSET

A contingent asset is a possible asset arising from past events whose existence will be confirmed only by the occurrence of one or more uncertain future events not wholly within the local authority's control.

CONTINGENT LIABILITY

A condition that exists at the balance sheet date, where the outcome will be confirmed only on the occurrence or non-occurrence of one or more uncertain future events. Where a material loss can be estimated with reasonable accuracy a contingent liability is accrued in the financial statements. If, however, a loss cannot be accurately estimated or the event is not considered sufficiently certain, it will be disclosed in a note to the balance sheet.

COVID-19

COVID-19 is an infectious disease caused by a newly discovered coronavirus.

COUNCIL TAX

A property based tax levied on all domestic properties in the Borough. The banding (and resultant sums due) is based on independent assessed property values. The Council sets levels of Council Tax on an annual basis under relevant statutory provisions.

CURRENT SERVICE COSTS (PENSIONS)

The increase in the present value of a defined benefit scheme's liabilities expected to arise from employee service in the current year.

CURTAILMENT

For a defined benefit scheme, an event that reduces the expected years of future service of present employees or reduces for a number of employees the accrual of defined benefits for some or all of their future service. Curtailments include:

- (i) Termination of employees services earlier than expected, for example as a result of closing or discontinuing a segment of a business; and
- (ii) Termination of, or amendment to the terms of, a defined benefit scheme so that some or all of future service by current employees will no longer qualify for benefits or will qualify only for reduced benefits.

DEFERRED CAPITAL RECEIPTS

Deferred Capital Receipts are derived from the sale of Assets receivable over an agreed period of time, principally mortgages relating to the sale of Council houses.

DEFERRED CREDITS

These represent capital income to be received in the future, when disposals have taken place, and deferred payments have been agreed e.g. the principal outstanding from the sale of Council houses.

DEFINED BENEFIT SCHEME

A pension or other retirement benefit scheme other than a defined contribution scheme. Usually, the scheme rules define the benefits independently of the contributions payable, and the benefits are not directly related to the investments of the scheme. The scheme may be funded or unfunded (including notionally funded).

DEFINED CONTRIBUTION SCHEME

A pension or other retirement benefit scheme into which an employer pays regular contributions fixed as an amount or as a percentage of pay and will have no legal or constructive obligation to pay further contributions if the scheme does not have sufficient assets to pay all employee benefits relating to employee service in the current or prior periods.

DEPRECIATED REPLACEMENT COST (DRC)

A method of valuation that provides a recognised proxy for the market value of specialised properties.

DEPRECIATION

The measure of the wearing out, consumption, or other reduction in the useful life of a fixed asset, whether arising from use, effluxion of time or obsolescence through technological or other changes.

DISCRETIONARY BENEFITS

Retirement benefits that the employer has no legal, contractual or constructive obligation to award and which are awarded under the Authority's discretionary powers.

EARMARKED RESERVES

Earmarked reserves are created by setting resources aside for future events or to equalise expenditure between years. Earmarked reserves do not affect service expenditure in the year of creation.

EMOLUMENTS

Amounts paid to or receivable by an employee including expenses allowances chargeable to tax, and the estimated money value of any other benefits received by an employee other than in cash.

EVENTS AFTER THE BALANCE SHEET DATE

Events after the Balance Sheet date are those events, favourable or unfavourable, that occur between the Balance Sheet date and the date when the Statement of Accounts is authorised for issue.

EXISTING USE VALUE

The estimated amount for which a property should exchange on the date of valuation between a willing buyer and a willing seller in an arms-length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion assuming that the buyer is granted vacant possession of all parts of the property and disregarding potential alternative uses and any other characteristics that would cause its market value to differ from that needed to replace the remaining service potential at least cost.

EXPECTED RATE OF RETURN (ON PENSIONS ASSETS)

For a funded defined benefit scheme, the average rate of return, including both income and changes in fair value but net of scheme expenses, expected over the remaining life of the related obligation on the actual assets held by the scheme.

FAIR VALUE

The fair value of an asset is the price at which it could be exchanged in an arm's length transaction, less, where applicable, any grants receivable towards the purchase or use of the asset.

FAIR FUNDING

Under Section 48 of the School Standards Framework Act 1998, Local Education Authorities (LEAs) are required to have schemes dealing with the financing of schools. These govern the financial relationship between maintained schools and LEAs from the inception of the new funding framework on 1 April 1999

FINANCE LEASE

A lease that transfers substantially all the risks and rewards of ownership of a fixed asset to the lessee.

FIXED ASSETS

Assets that yield benefits to the Local Authority and the services it provides for a period of more than one year.

GENERAL FUND

This is the account where costs are charged for the year of the major functions for which the Authority is responsible (excluding the Collection Fund). Income to the Fund includes charges made by the Authority, specific Government and other grants and receipts from the Collection Fund.

HERITAGE ASSETS

Heritage assets are assets that are held by the Authority principally for their contribution to knowledge or culture.

IMPAIRMENT

A reduction in the value of a fixed asset below its carrying amount on the balance sheet.

INFRASTRUCTURE ASSETS

These include facilities to enable other developments to take place, including roads, street lighting and coastal defence works.

INTANGIBLE FIXED ASSET

"Non-financial" fixed assets that do not have physical substance but are identifiable and are controlled by the Authority through custody or legal rights. Purchased intangibles (e.g. software licences) are capitalised at cost, whilst internally developed intangibles are only capitalised where there is a readily ascertainable market value for them.

INTEREST COST (PENSIONS)

For a defined benefit scheme, the expected increase during the period in the present value of the scheme liabilities because the benefits are one period closer to settlement.

INTERNATIONAL FINANCIAL REPORTING STANDARDS (IFRS)

Defined Accounting Standards that must be applied by all reporting entities to all financial statements in order to provide a true and fair view of the entity's financial position, and a standardised method of comparison with financial statements of the other entities.

INVENTORIES

Amounts of unused or unconsumed stocks held in expectation of future use. Inventories are comprised of the following categories:

- Goods or other assets purchased for resale
- Consumable stores
- Raw materials and components
- Products and services in intermediate stages of completion
- Finished goods

LIQUID RESOURCES

Current asset investments that are readily disposable by the authority without disrupting its business and are either readily convertible to known amounts of cash at or close to the carrying amount or traded in an active market.

LOCAL MANAGEMENT OF SCHOOLS (FAIR FUNDING)

The Authority is required to delegate responsibility for the management of a large proportion of its Nursery, Primary, Secondary and Special School budgets to schools. Individual schools are allocated a share of the budget through a formula mechanism, which distributes funds primarily on the basis of age weighted pupil numbers.

LONG-TERM CONTRACTS

A contract entered into for the design, manufacture or construction of a single substantial asset or the provision of a service (or a combination of assets or services which together constitute a single project), where the time taken substantially to complete the contract is such that the contract activity falls into different accounting periods. Some contracts with a shorter duration than one year should be accounted for as long-term contracts if they are sufficiently material to the activity of the period.

MARKET VALUE

The estimated amount for which a property should exchange on the date of valuation between a willing buyer and a willing seller in an arms-length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion.

NATIONAL NON-DOMESTIC RATES (NNDR)

These are often referred to as Business Rates, and are a levy on business properties based on a national rate in the pound applied to the 'rateable value' of the property. The Government determines that national rate poundage. Local Authorities collect the sums due, but the proceeds are split, with 1% paid to the Merseyside Fire and Rescue Authority and 99% retained by the Council.

NET BOOK VALUE

The amount at which fixed assets are included in the balance sheet, i.e. their historical cost or current value less the cumulative amount provided for depreciation.

NET CURRENT REPLACEMENT COST

The cost of replacing or recreating the particular asset in its existing condition and in its existing use, i.e. the cost of its replacement or of the nearest equivalent asset, adjusted to reflect the current condition of the existing asset.

NET REALISEABLE VALUE

The open market value of the asset in its existing use (or open market value in the case of non-operational assets), less the expenses to be incurred in realising the asset.

NON-OPERATIONAL ASSETS

These are assets, which are held by the authority but not directly occupied, used or consumed in the delivery of services. Examples include assets that are surplus to requirements, pending sale or redevelopment.

OPERATING LEASES

In an operating lease, the ownership of the asset remains with the leasing company and the annual rent is charged to the annual service account. Expenditure financed by operating leases does not count against capital allocations.

OPERATIONAL ASSETS

These are assets that are held and occupied, used or consumed in the direct delivery of services for which the Authority is responsible.

PAST SERVICE COST / GAIN

For a defined benefit scheme, the increase or reduction in the present value of the scheme liabilities related to employees service in prior periods arising in the current period as a result of the revision of scheme benefits.

PAYABLES

Amounts owed by the Authority for goods and services provided for which payment has not been made by the end of the financial year.

POOLED BUDGET

Arrangement permissible under the Health Act 1999 and National Health Service Act 2006 that provides an opportunity for partners to bring money together, in a discrete fund, to pay for the services that are an agreed part of the pooled fund arrangement for the client group who are to benefit from one or all of the services. Instead of users being inconvenienced by disputes about Health and Local Authority responsibilities, organisations will agree at the outset the range of Health and Local Government services to be purchased and provided from a pooled fund.

PRECEPT

This is a charge issued by the Merseyside Police and Crime Commissioner, Merseyside Fire and Rescue Authority (and Parish Councils where appropriate), which is collected by the Council on their behalf by adding the precept to its own Council Tax.

PRIOR YEAR ADJUSTMENTS

Those material adjustments applicable to prior years arising from changes in accounting policies and from the correction of fundamental errors. They do not include normal recurring corrections and adjustments of accounting estimates made in prior years.

PROVISIONS

Provisions represent sums set aside for liabilities or losses, which are certain to arise but, owing to their inherent nature, cannot be quantified with any certainty.

PUBLIC WORKS LOANS BOARD (PWLB)

An arm of Central Government which is the major provider of loans to finance long term funding requirements for Local Authorities.

RECEIVABLES

Sums of money due to the Authority but not received by the end of the financial year.

RELATED PARTY TRANSACTION

A related party transaction is the transfer of assets or liabilities or the performance of services by, to or for a related party irrespective of whether a charge is made. Related party transactions include the provision of services to a related party.

The materiality of related party transactions should be judged not only in terms of their significance to the authority, but also in relation to its related party.

REMUNERATION

All sums paid to or receivable by an employee and sums due by way of expenses allowances (as far as those sums are chargeable to UK income tax) and the money value of any other benefits received other than in cash. Pension contributions payable by the employer are excluded.

RESERVES

A reserve is an amount, which has been set aside for a specific purpose in one financial year and carried forward to meet expenditure in future years. Reserves include earmarked reserves set aside for specific policy purposes and balances that represent resources set aside for purposes such as general contingencies and cash flow management.

RETIREMENT BENEFITS

All forms of consideration given by an employer in exchange for services rendered by employees that are payable after the completion of employment. Retirement benefits do not include termination benefits payable as a result of either: -

- i. An employer's decision to terminate an employee's employment before the normal retirement date, or
- ii. An employee's decision to accept voluntary redundancy in exchange for those benefits, because these are not given in exchange for services rendered by employees.

REVENUE SUPPORT GRANT

This is a Government grant in aid of Local Authority services generally. It is based on the Government's assessment of how much an authority needs to spend in order to provide a standard level of service.

REVENUE EXPENDITURE

This is money spent on the day-to-day running costs of providing services (e.g. salary costs). It is usually of a constantly recurring nature and produces no permanent asset.

SCHEME LIABILITIES

The liabilities of a defined benefit scheme for outgoings due after the valuation date. Scheme liabilities measured using the projected unit method reflect the benefits that the employer is committed to provide for service up to the valuation date.

SECTION 52 / 106 AGREEMENTS

The Council is able to restrict or regulate the development or use of land by requiring that a developer deposit funds with the Authority when granting planning permission. The funds are either used directly by the Authority to undertake work, such as providing access from the existing highway to a new development, or held as a deposit which is refundable to the developer when the conditions attached to the planning permission, such as landscaping work, are complied with. The statutory basis for such agreements is currently contained within Section 106 of the 1990 Town and Country Planning Act and previously, within Section 52 of the 1971 Town and Country Planning Act.

SET ASIDE CAPITAL RECEIPTS

These are receipts that have to be reserved under the Local Government and Housing Act 1989 and can only be used to repay external debt or in substitution for new external borrowing.

SETTLEMENT

An irrevocable action that relieves the employer of the primary responsibility for a pension obligation and eliminates significant risks relating to the obligation and the assets used to effect the settlement. Settlement includes the transfer of scheme assets and liabilities relating to a group of employees leaving the Authority's scheme.

SPECIFIC GOVERNMENT GRANTS

These are designed to aid particular services or reimburse the costs of payments made to claimants. Examples of specific grants include Dedicated Schools Grant, Standards Fund and Housing and Council Tax Benefit Subsidy. Assistance may also be given in aid of specific capital expenditure, e.g. Housing Market Renewal Grant and Stronger Safer Communities Fund.

STATUTORY PROVISION FOR THE FINANCING OF CAPITAL INVESTMENT

This is the amount required to be set aside from revenue for the repayment of external loans. It is calculated in accordance with the Local Authorities (Capital Finance and Accounting) (England) (Amendment) Regulations 2008 [SI 2008/414], in conjunction with the MHCLG guidance on the minimum revenue provision (published in February 2018).

TREASURY MANAGEMENT

This is the process by which the Authority controls its cash flow and its borrowing and lending activities.

TRUST FUNDS

These are funds administered by the Council on behalf of charitable organisations and/or specific organisations.

USABLE CAPITAL RECEIPTS

These are receipts which, after allowing for the proportion to be set aside, may be used to finance capital expenditure.

USEFUL LIFE

The period over which the Local Authority will derive benefits from the use of a fixed asset.
