

Greener, Leaner, Cleaner

Retrofit: Cheaper, Warmer, Greener

Sefton is no longer administering the Sustainable Warmth Scheme. The latest round HUG2 (Home Upgrade Grant) is being delivered through the Liverpool City Region Combined Authority and is not available for properties that have Gas Central Heating systems in place. **To apply go to** <https://ow.ly/4Cg650Ruye4> or <https://ow.ly/XvcQ50Ruye3>

Our beaches

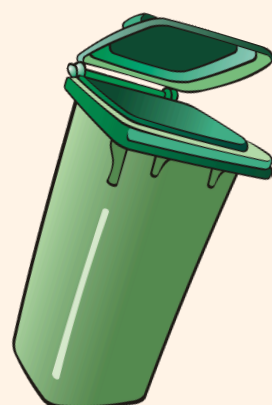

Sefton's beaches are getting busy again as summer approaches – help our Green Sefton team by taking all your litter home, do not bring BBQs or start fires, and remember that camping is not allowed on this protected coastline.

Green bins

The following items can be placed in a green wheelie bin for collection:

- Grass clippings
- Tree and shrub clippings
- Weeds
- Dead flowers
- Leaves
- Please DO NOT put any food waste in your green garden waste bin as food waste cannot be composted alongside our green garden waste.

Allotments

If you have limited space at home to grow your own vegetables, fruit or flowers, you may want to consider an allotment. **For more information:** <https://ow.ly/jlk650RuB45>

The Energy Bills Support Scheme Alternative Funding (EBSS AF) is providing support of £400 for energy bills for households in England, Scotland, and Wales without a direct relationship to a domestic electricity supplier.
